ALL THE ELEMENTS AT WAR Violent Thunder, Lightning and Hall

Storms in California. The second second

FLOODS IN DAKOTA AND MONTANA

The Country Covered With Water and People Moving to Higher Ground-Damages to Railroads by Washouts.

Canco, Cal., April L .- A hail storm esterday was accompanied by severe thunder and lightning. Many skylights in the city were broken, and some trees completely stripped of leaves. Lightning struck an oak tree near town, which was completely demolished and split from end to end. At the Rancho Chico dairy the lightning struck a new building used at night as a cowshed and eight large timbers were torn to pieces. Two men working near were partly burned by the flash. A whirlwind passed to the west of town, crossing Lind's creek and, taking up the rubbish and water out of the creek, carried it quite a distance across a field, tearing the limbs off the trees as it passed. Following this there was a heavy frost this morning, which may increase the damage already done by the hail. Men were kept at work all night in General Bidwell's orchard, burning straw to protect the fruit from frost. The early grain in many places was beaten down and all the fruit is damaged to some extent. Little wind provalled during the storm. The weather today is clear and warm, with little wind, Phones is Dakots and Montana.

indicate the greatest spring floods in ten years. The James river is rising very rapidly. At Jamestown the water is seven feet deep in Russell Miller's mill, and still rising. Residents all there are washouts in every direction, the Great Northern being the chief sufferer. The main break occurred on the Montana division, between Willinton and Springbrook, caused by an overflow of the Missouri tributaries which at this time to time nost emphatically denied the numerons rumors that his refiners from the Rocky mountains. The fload the recent sales of his property, however, carried away bridges and twelve miles of track and a trestle, blocking everything. It will take thirty-six hours to repair the the Missouri tributaries which at this from the Rocky mountains. The fload the recent sales of his property, however, preckets has apparently lost all interest in this city. MANGED 15 EFFIGY. and Springbrook, caused by an overflow from the Rocky mountains. RECENSION, Va., April 1.—Under the law of this state prizetighting is made a felony and punishable as such. For some time pant the sports of the country have been in the habit of pointing to With Strychnine. Norfolk county as affording a field in which pugilists could indulge in contests

without lear of inviting the law. At the session of the legislature in 1888 an act was passed incorporating a park in Norolk county, giving the incorporators numerous privileges. Among others it is claimed that it allows prizerighting. It is reported a mill occurred in Norfolk county very recently, and tiovernor Me-Kinney is determined that the law of the state shall not be openly violated by these than, and in a letter to Jodge Portlock, of Norfolk county, he writes: I see from the papers that there re-cently was a prize tight in your county, which, under the statutes, is a felony. I have waited to see what action would be taken in the crue by your bridge I neve water to see what action would be taken in the case by your juries. Please let me know if the parties have been indicted; and if not, why. Were the parties arrested by warrant? If not, why. If there is any defect in the law, please let me know so that it may be remedied."

Sr. PAUL, Minn., April 1.—Reports of whose immense sugar refinery was per, ate a few bits and became violently recently absorbed by the sugar trust, left ill. He ran to a neighbor, where hot for San Francisco with his family at noon water and mustard were administered, in a special car attached to a regular relieving his stomach of its contents, train on the Pennsylvania road. Much This and some of the flour was brought very rapidly. At Jamestown the water is seven feet deep in Russell Miller's mill, and still rising. Residents at along the river are preparing to move to higher ground. To the south of Graf-ton, N. D., is a lake reaching for miles the country. The river is higher there than in 1888. Northern Pacific trains are held a lew miles below there on account of high water. In Montana there are washouts in every direction, in the few and the respectation. The river is higher trains are held a lew miles below there the country of the contact of the city. With the star that and gene to the prisoners, was read, the dear to many the difference of the contact of the contact of the size trains are held a lew miles below there the contact of the city. With the star the star the star the star there are washouts in every direction. tertained in consequence.
