ALLIANCE COLUMN. Submitted by a subscriber. Shall the people take the corporations or shall the corporations take the people?

The people's party is under great obligations to the old party organs. The democratic papers are proving very clearly that the people cannot expect any good from the republican party.

The Alliance Manifesto. "When, in the course of human events, it becomes necessary for one people to dissolve the political bonds which have united them to another and to take for themselves the free and equal stations among the nations of the earth to which the laws of nature and nature's God entitle them, a decent respect for the rights of other men demands that they make known the causes which impel them to the separation."

The Beauty of Free Competition. The following item, clipped from one of our own dailies, is a good example of the beauty of the present competitive system. Think of what an outrage it is that a man who has led an active life, been a producer, and of actual benefit to the world, should, in his old age, be forced to ask for charity solely because he was not smart or unscrupulous enough to make a success as a money getter and a money hoarder.

Active measures are being taken to rid the country of the pest, and it was the purpose of those interested in raising good stock to meet in the vicinity of Wells Spring today for that end. Owing to the inclement weather there were but few in attendance. There will, however, be a general "round-up" at the same place next Sunday, which will result in preventing the spread of this pest any farther.

There are many important features of this subject--too many to discuss in your crowded space just now. Name a date and place for meeting. Let there be a discussion as to methods. Insist upon a full attendance from each district in the county. Not only immigration be turned this way, but committees must be appointed to help newcomers in securing a desirable location. The farmers in their respective districts know best where vacant land is, and man and will cheerfully show strangers around. Let them come forth and publicly manifest their disposition to advance this most worthy cause. Let them decide upon some good practical methods for the improvement of our little commonwealth.

Highest of all in Leavening Power. Latest U. S. Gov't Report. ROYAL Baking Powder ABSOLUTELY PURE

Much effective work can be done by the united effort of the citizens of Morrow county in settling the county and inducing a thrifty emigration which is just now most needed.

The town has been full of drummers for a day or two. New goods will soon arrive and our local merchant is all smiles at the good results that are the fruit of careful buying and careful selling.

The wire worm is working some damage to the wheat in this locality. It is not going to prove serious, we hope. The quadrangular political contest which is coming bids fair to be the liveliest ever seen in the history of Morrow county. After the republican, democratic, alliance and fourth party, or buckskin conventions, if some one will only suggest it, an independent ticket can be placed in the field, and then every man in the county will have a chance to vote for himself.

James Nunamaker has been favorably mentioned as candidate for county judge. Jim has the bottom necessary to holding down a judicial bench, and nothing short of a cyclone divorce case would disturb his equanimity.

The suggestion of a board of trade at Heppner is a move in the right direction. Let it be a board of trade of Morrow county as well.

Much good can be accomplished by the united effort of our progressive business men. Would like to suggest the propriety of a board of immigration as well, if there is not one in the county already. Let every one interested in the growth of our fair county meet at some time and place, which you can mention, for that worthy purpose. I am satisfied from my knowledge of the spirit that rules throughout the rural districts that there would be a full representation from every precinct in Morrow county if it were known that such a meeting would result in the organization of a board for the diffusion of knowledge concerning our county.
