GOOD LUCK.

Dr. Price's Cream Baking Powder is often called the Good-Luck Baking Powder.

Owing to the fact that good luck always attends the use of Dr. Price's, it is not essential to use it the moment it is mixed nor is it required to have the oven always just so, as in the case with ammonia or alum powders. It is not luck after all, but the exact accuracy and care exercised in the preparation and combination of all the ingredients of Dr. Price's Cream Baking Powder. Competent chemists are employed to test the strength and purity of each ingredient. Nothing is trusted to chance. Hence; it is always uniform in its work.

House wives never fail to have "good luck" in making most delicious bread, biscuit, pastry and cakes that remain moist and sweet. Only Baking Powder that contains the white of eggs.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.

FOUND IN HEPPNER.

John Carleton, better known as the "Fresno Kid" arrested here at the Institution of California Authorities.

John Carleton, better known as the "Fresno Kid," was arrested here, at the Institution of California Authorities, last Tuesday evening, charged with shooting a Southern Pacific passenger brakeman recently at Marysville, Calif.

The party who did the shooting was beating his way on the train, and when the brakeman attempted to put him off was shot twice. The party escaped, and was supposed to have left on foot for the mountains. Somehow or other it was learned on young Carleton, though his associates say that, though on the train at the time, was riding on a ticket and was in his bed when the shooting occurred, coming on up to Portland with the crowd. But Carleton, no doubt, is the man they want, though he may not be guilty, and will necessarily be compelled to go back to Calif. to establish his innocence.

He was given a trial before Geo. Bea Wednesday and released, but immediately rearrested. Through his attorney he applied for a writ of habeas corpus, Thursday, the hearing being set for tomorrow.

NEVER TOO LATE TO MEND. W. B. McAllister, of Lexington, was quoted in your special edition as being mainly engaged in mercantile pursuits, and no mention was made of his agricultural interests, which are most extensive. The error crept in somehow, and the purpose is to correct it.

Mr. McAllister is largely engaged in farming and has nearly 1,000 acres of fine farming land, a short distance from Lexington. He has 730 acres in cultivation, and the average for last year was nearly 20 bushels per acre.

Mr. McAllister is enthusiastic over the future prospects of Morrow county, and, of course, considers Lexington and vicinity the most favored portion of it.

H. Blackman & Co. have an exclusive General Merchandise store. Stockmen cannot do better than patronize H. Blackman & Co., of Heppner's Pioneer Block.

Some years the brood is light but this country has never seen an entire failure.

ALLEN STANS. The democratic candidate for county commissioner, was on his way home and did not like to suffer an interview. He believes the wool business pays better than farming. Gives the total cost of raising a full band of sheep, 2,000, at about \$1,500. The wool clip and increase will pay a handsome profit every time.

CHAS. HOBSON. Has a section of land, one half in cultivation. Likes the climate. Results of farming are very satisfactory.

R. LIPSOMB. Is nicely situated and well pleased with his surroundings.

D. W. LIPSOMB. Is interested chiefly in breeding fine draught horses. Says there is plenty of room for more settlers and the country would welcome them.

G. E. MALPIN. Has at last settled down and will hereafter be found on his ranch in the Six Mile country. Has been making some permanent improvements.

ADOLPH SCHIER. A good looking German, was the next in order. He too has recently cast his lot with the bunchgrazers.

MISS LULU BOOTHEBY. of Lexington, is rendering efficient service in the Holland district school.

JOHN R. ALLYN. Has recently settled in the neighborhood and is hopeful of reaching practical results. If strict attention to business will do anything John will get there.

R. C. SEBERRY. Is operating about 1000 acres of good soil. As he is familiarly called, believes in being thorough about everything. Uses nothing but the best machinery. Has eight large mules which, without doubt, the best farm residence is in the county. Mr. Sperry's harvest was 10,000 bu. of wheat from 500 acres last year, while the average for five years has been over 15 bu. per acre.

PERRY HOPKINS. Settled nine years ago. Three quarters of good soil with one-half in cultivation. Always a successful producer. Costs about 30 cents per bu. to raise wheat. One man with a good team can raise two hundred acres of wheat each year. Will show settlers around or answer correspondence about the country. His post office is Douglas, Or.

ED HOLLOWAY. Is a business farmer. He makes it a study, reaches good results and says his success is not due to anything but energetic careful management. His farm consists of 1,780 acres of No. 1 soil, with all but 80 acres in cultivation. He raises a fine quality of yellow stable, glistering in the sun, fattier along the beautiful contrast of rich black soil. A pretty picture.

Mr. Holloway has an extra fine ranch. His equipment is the most complete of any seen on the rounds. Mr. H. figures very closely on everything. In grain crops there is a great saving, two to four cents a sack being saved by buying in an easy market. An itemized expense account of wheat raising will show how a dollar can be saved.

WANTS TO BE FOUND. J. L. KINCAID. Is another four-handed farmer. Good fellow, but he is simply working too hard. Excellent results in farming. Raising some fruit. Says: "My wheat averaged 20 bushels last year. There is plenty of money in wheat when we can get 20 bushels per acre and sell it for 50 cents per bushel."

J. M. HAMBLET. One of the most thorough, practical farmers in Oregon, says: "I like this country. Here you can make money every year. Located some years ago. Yes, there are some kickers here, but you will find them in any country, and as a rule the country is improved by their departure. I consider this an Al country."

WANTS TO BE FOUND. PAUL TROSDEN. Wants it distinctly understood that he is no longer to be found among the large acreage comprising the Ancient Order of Single gentlemen. Mr. and Mrs. Trodson are enjoying life on one of the best farms in Morrow county. Have 640 broad acres with nearly all of it under cultivation. Will harvest 300 acres this year. Given the cost of wheat raising at \$4.24. They will be pleased to show any, in quest of land, around.

RECENTLY LOCATED. HENRY WELLS. Says, "I believe there is some money in farming. I used to live in California, had to work pretty hard. I can live easier and better here."

READERS A GOOD REPORT ON FARMING AND SAYS THERE ARE FAVORABLE CHANCES FOR SETTLERS.

JOHN TROSDEN. Likes this country and thinks more people could make a living here. The prospect was never better.

J. C. PATCKNER. (Gives the country a good name. Had a fair crop last year. Engaged in stock raising.

B. H. WESTERS. Reports favorable on the present crop and believes a few more settlers could find homes.

In the neighborhood of Ella very few people were found at home. Many were away attending political conventions, evidently. Those who were home were very hospitable.

JOHN HANDEY. Is interested in farming and speaks well of the country.

CHAS. LORD. Chanced to be away from home, but a few notes were secured at the old home place, where Mr. Lord, Sr., ably conducts the postoffice.

N. O. SHERRAD. Lives here and is also engaged in farming on a large scale.

WM. E. PARSONS. Is an intelligent, careful farmer. Has a good ranch and takes pride in keeping everything neat and orderly. Mrs. Parsons has a number of fine horse plants. Among them were some germaniums four

feet high. Mr. Parsons has a valuable library of ancient and modern literary gems.

G. L. CRANE. Is engaged in farming and stock raising. Fine orchard and plenty of water.

J. S. VAN CLEVE. Is devoting his entire attention to stock raising.

J. E. DEOS. Owns three quarters of land with a half section under the plow. Average wheat crop for eight years, 17 bushels per acre. Estimated cost of raising wheat, \$5.30 per acre. There are some rare opportunities to secure homes. Mr. Deos will take pleasure in showing people around and locating any that are anxious to settle here. Will harvest 250 acres. Had 3000 bushels of grain last year.

E. S. HILL. Is farming and like the business. An easy country to farm in.

Before crossing the divide let one word be said about

H. M. THORNTON. Who resides one mile below Ione. Mr. Thornton emigrated from Pettis county, Mo., ten years since and cast his lot among the bunchgrazers.

Mr. Thornton is engaged in the wool industry and making some money. His band of 3000 sheep lived on the range this winter with the additional help of three tons of hay. They came out in good shape for lambing which has resulted in an increase of his flock to the marvelous tune of 110 per cent. This looks like a "loaf and fish story" but it's just as true as any gospel ever "writ." Gives the following figures as to the cost of running a full band of sheep (2250):

Herding \$420 Camp tending 100 Boarding herder 100 Lambing expenses 200 Salt 50 Wool socks 25 Incidental expenses 25 Shearing (2,250) 180 Total \$1,250

Average clip ewes, 9 lbs.; average price for wool, 12¢; average shearing and marking, ewes and lambs sell for \$2.25 to \$2.50 per head. Mr. Thornton is a successful business man and a good estimator, but he is among a numerous class here who are not doing much to—well he has promised to amend and we hope ere long to know that he has forsaken his vows of bachelorhood.

JORDAN FORK. A Peaceful Valley—A Prosperous People—A Bright Future.

Leaving the creek at Ione one follows a winding road around the low hills that on the south, divide Willow Creek valley from Jordan Fork. The settlement of Jordan Fork takes its name from the title applied to a prong of the great Eight Mile canyon. It was named in honor of one of the pioneer settlers.

Passing over a few miles of an unoccupied country, you, from a brow of the Jordan Buttes can secure a birdseye view of the whole settlement. Sprung on the lap of Dame Nature, it looked like a prodigious patchwork quilt framed by the Fates. A section of bright green wheat, perhaps a square mile of yellow stable, glistering in the sun, fattier along the beautiful contrast of rich black soil. A pretty picture.

Says the country is all right; the present indications are for excellent results in farming during the present season.

A. H. SMITH. Is extensively engaged in farming, with flattering results.

W. S. SMITH. Owns a valuable farm, which he is cultivating—about 200 acres. Prospect is fair. Is paying some attention to stock raising and some attention to girls now, Walter!

J. L. KINCAID. In another four-handed farmer. Good fellow, but he is simply working too hard. Excellent results in farming. Raising some fruit. Says: "My wheat averaged 20 bushels last year. There is plenty of money in wheat when we can get 20 bushels per acre and sell it for 50 cents per bushel."
