for a poor man. It costs about \$5 per acre to raise wheat." Mr. Hamblet has

ence, and is liberal toward any proposi-tion that will help the community. JAMES R. NUNAMAKER

Is one of those great, big. fat, funny fel-lows who never get angry or let any one lows who never get angry or let any one clase. His jolly disposition is almost a fortune to him. Always looks on the bright side of life, and finds something worth looking at, too. At farming he is a success, and would be at anything else. He moulds into proper form anything he touches. There are about 1,000 acres anything he touches. There are about 1,000 acres in the moulds he garden for the proper form anything he touches. touches. There are about 1,000 acres inside of his garden fence. Says "it costs about 30 cents per bushel to raise wheat. Can recommend this country. There are piaces here for good, thrifty farmers, but scrubs and dudes will not find the surroundings congenial." S. E. JONES

Makes everything hum. He operates large farm and is meeting with satisfactory results. Average wheat crop last year, 31 bushels. Will harvest 200 acres fine orotard of 2½ acres in bearing, thou country. Fair prospect. Improved than is worth \$10 per acre. There is a fair profit in wheat when it will average in the server of the s 12 bushels per scre. One man, with three horses, can farm 125 acres.

G. C. CAVINESS Speaks from four years' experience in the most flattering terms. Wheat can be produced for 30 cents. The great ad-vantage in this country is in the econ-omy which can be practiced by farmers. One can work at farming a large part of

DAVID BAKER,

A hard-working farmer, thinks there will be a change in the general aspect of this country. The land heretofore has been be a change of the land heretofore has been worth at least \$1,000 per quarter.

wild, but by oultivation it will become subdued and bring even better crops that in the past. Average wheat crop last vear was 2234 bushels.

OMAHA, KANSAS CITY, ST. PAUL. been fenced up he has been devoting his time to grain-raising. Average yiel for the last four years, 20 bushels, Flowing is usually done between January and June, although many seasons will admit of plowing in November and December. Harvest begins July 10th and ends September 10th. Takes just pride in a fine orchard of nearly all varieties of choice fruit. Says: "Would not sell my place here, for I would not know where to go to better my condition."

D. H. GEABLEL.

deliars in money. Have two hundred acres fenced, small but comfortable buildings, and raised enough last year to pay all indebtedness and carry me through to another barvest.

Mr. Wbitman is blessed with a good, seesable woman, who would like to see the country settled up in order that there might be better schools. If the wife fruit says: "Would not know where to go to better my condition." St. Louis, EAST, NORTH AND ROUTH.

Colonist Sleepers Reclining Chair Cars

J. M. KEES Is just as plain as brown drilling. He is acre. Improved farm land is worth \$10 per acre. Fine young orchard in bearing. Mr. Kees would make an excellent land the settlers bere will welcome them any apology or fass. Among Mr. Kees possessions is a treasure in the form of s charming daughter whose conversational powers and natural wit bid far to make her the most attractive woman in the circle which she graces. What a pleasure of the state of the you about a whose lot of interesting at some fine borses, is a careful manager rairs. "Just think, Santa Claus brought me so many nice presents, and we have ever so many little chickens. I feed them and gather the eggs and take care of the baby and have plenty of time to play and learn to read. Yes, I can read. I have a nice pony and five little caives. Each one of them is named."

This young lady's name is Leelah Day Kees. Sha is a careful manager and has reduced a half section of bunch-grass land to a high state of cultivation. There is only one feature wanting to make George's the pleasantest home in the valley—enough said.

J. M. Dollarhind. Has laid the foundation for a good home, and is rapidly shaping his farm into a source.

wilson brothers,
C. J., C. C., F. H. and S. P., are slightly
interested to farming. Their ranch embraces 3,000 acres—one half of which is
in cultivation. "Had 1,000 acres in
grain last year, resulting in a yield of
over 20,000 bushels. Result on 220 acres,
5,800 bushels. Will harvest 800 acres,
Best prospect we have ever seen. Average grain crop for seven years, 17 bushels per acre."
