

THE SAME TO THE PEOPLE.

SENATOR JONES, of Nevada, says: "A candid study of the silver branch of the money question leads to the conclusion that congress should immediately pass an act directing the secretary of the treasury to increase his present monthly purchases of silver so as to cover all silver in American markets ready for immediate delivery. Either that, or the passage of a free coinage act would, as far as the possible volume of intrinsic value money could, restore and keep up prices for farm products and give permanent prosperity to business in this country."

RECIPROCITY.

With the recollection of the reciprocity treaty of 1854, under the administration of President Pierce, made by Secretary Marcy on the part of the United States and Lord Elgin on the part of the British empire, in relation to the fisheries and trade of the United States and Canada, and in the face of the proposition for universal reciprocity made during the session of the present congress by so conspicuous a democrat as Mr. Breckinridge, it is incomprehensible that the democrats of the country make objection to the reciprocity plan incorporated into the McKinley bill and adopted into a law. The Marcy-Elgin reciprocity agreement was ratified by a democratic senate and adopted by the democrats of the nation. It is simply that Canadian fishermen should have stipulated privileges on American soil and in American waters, in return for which stipulated American products should be admitted into Canada free of duty.—Payallup Commerce.

An esteemed democratic contemporary claims that the supreme court should have an Eastern Oregon representative, and for that reason advocates the election of the democratic candidate for supreme judge. The producers and wool-growers east of the Cascade mountains do not expect any redress from extortionate freight rates from the judiciary; but the legislature is very necessary. It will make little difference to the people of Oregon in what portion of the state members of the highest judicial court reside, so that they are honest capable men. They can make no laws—simply interpret them. The greatest wants of Eastern Oregon are that the locks at the Cascades be completed at the earliest possible date, and that our next legislature pass a portage railway bill and grant a liberal appropriation therefor. These matters rest completely with the legislature and the executive of the state, and every voter should be careful that legislative candidates to be voted for next June should be so pledged. The judicial department of government should be separated from politics and from all sectional prejudices, and be honest and competent. With these requisites we care not where the members of the supreme court reside.—T.M.

As open river means wealth in abundance for Portland, and the metropolis is doing commendable work for the locks at the Cascades, and further improvements to the navigation of the Columbia. In last Sunday's issue the great duty of the North Pacific coast, the Oregonian has this to say regarding the portage road from The Dalles to Celilo, for which it should receive the unqualified thanks of the inland Empire, says the Times-Mountaineer: "The state of Oregon ought to put in a portage road at the Dalles. At the next session of the legislature provision ought to be made for this work and the railroad should be built next year. But this will not be the final solution. Oregon and Washington ought to press without ceasing their demands upon the national government for canals and locks at the Dalles. Till this work can be completed a portage road will be a help, and Oregon ought to build this portage road at once."

This editorial claptrap and soft soap in local campaigns is despicable, but there is one thing certain, the people of Morrow county should know that their representative will stand solid for a portage road between The Dalles and Celilo. We have learned from experience what the Cascade portage is worth to Eastern Oregon. A good route on the Oregon side has been surveyed, and let us all work for an open river. Let us elect a man to the lower house who has penetration enough to know when he is voting on his own bill, when the interest of the county demand him to say "aye" or "nay." Such a man should be chosen. Claptrap don't go this year, which the people will impress on the minds of all, about June 6th. The Gazette's columns are open for anything that our aspirants for legislative honors might have to say on the subject of an open river. The people want to know where the boys stand.

A FIGHT against Judge Moore is being carried on from the big papers down to the little, one-horse affairs that make more noise than a town bell, and don't do half so much good for their country. Moore is a clean and able man, and during his entire residence in Oregon not one word has been said against him until this present campaign, when the blood-sucking vampires have turned loose. Bennett, of The Dalles, is the able man, but all policy. He always manages to get on the side of a one where the public can land him to the skies as the opponent of corporations. But he never drops on that side of the fence for his health. Bennett is an able man, but never lived in Oregon, but he is no purer or better than Judge Moore, of St. Helens.

UNION county, the home of ex-Senator Slater, was for many years one of the sure democratic counties of the state. Year after year it came up with democratic majorities not inferior to those of Linn and Jackson. But since Mr. Slater began his crusade for free wool the democrats have never been able to depend on the county. Hermann carried it by good majorities in the last two elections, and it gave Harrison a good majority in 1888. No man has done more to make Union county republican than Mr. Slater, and now since he wants to go to the house of representatives to vote for free trade in wool as he voted for it in the senate, he will receive fresh attentions from the people of his county.—Oregonian.

Can't Cook as Mother Did!

How many a young wife's heart has been saddened by hearing the above remark! And yet how often the words are true; especially when cake, pastry or biscuit are in question! The reason is plain, yet it is "like telling a secret."

Our mothers used and are using Dr. Price's Cream Baking Powder. They cannot be misled into using any of the ammonia or alum powders. No dyspepsia no sallow complexions, when mother did the cooking.

The first symptoms of ammonia poisoning, says a New York paper, which appear among those who work in ammonia factories, is a discoloration of the nose and forehead. This gradually extends over the face until the complexion has a stained, blotched and unsightly appearance.

Dr. Price's Cream Baking Powder is the only pure cream of tartar powder that contains the whites of eggs.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact the purity of this ideal powder has never been questioned.

THE N. & G. TAYLOR Co., of Philadelphia, Pa., are manufacturing a fine quality of tin plate, and purchasers say it is even better than imported goods.

SENATOR PALMER, of Illinois, voted against the conference report on the Chinese exclusion bill last Monday. The Chinese content supporters stood solidly in favor of it.

Mr. L. W. Lewis, the nominee on the people's party ticket for representative, has challenged his opponents to a joint canvass of Morrow county. The boys ought to all get out now and show their metal.

The people of Rock Springs should get up a petition immediately for the much desired postoffice. By a little exertion the people can get this convenience. Everybody acknowledges that it is badly needed.

SPRINGFIELD, the free trade leader in congress, when asked how he proposed to supply the loss of revenue which would follow free wool, binding twine and cotton line, said that the increase upon woolen goods would be so immense as to insure as much revenue as before.

SOME of the newspapers are trying to kick dirt into the eyes of the voters regarding Judge Moore, of Columbia Co., candidate for supreme judge. Judge Moore is a good lawyer and as square a man as ever walked. He proved himself a friend to the farmer and laboring man while serving our state as senator, and everyone has a vote laid up for him. The arrangement of the Australian ballot under each head must be alphabetical. It matters not what our particular preferences are, the man who is fortunate enough to have a surname beginning with A, B or C, precedes the name of the man who is lower in the list. For instance for assessor, the order is as follows: Herman Caldwell, Peoples Party; R. L. Shaw, Democrat; Wallace W. Smead, Republican.

A CARD TO THE PUBLIC.

Ed. Gazette:—Will you please give public notice to the fact that I have this day resigned the nomination of county superintendent of schools on the bachelors' ticket, in favor of Miss Inez Vornz, of Heppner. Let us bachelors show to the feminine world that we are deserving of more attention than we have received in the past. Let us show by word and deed that we recognize them as an important factor in our civil government and justly entitled to a full and fair representation. Let each and every bachelor in the county work from now until June 6th for the election of this most worthy, competent lady to this important office. We firmly believe that if elected Miss Vornz will conduct the office and discharge the duties in a manner that will reflect great credit on the good judgment of Morrow county's electors. In the excitement the other day your reporter overlooked our nomination for sheriff. Tom Barnett was named for sheriff, with Bill Ingram, of Eight Mile, as running mate. Thanking you for past favors we remain, Very cordially yours, PATRICK QUINN, Ch'man Bachelors' Club Co., Heppner, Or., May 5, '92.

Rev. P. M. Bell and Jas. Adkins were callers at the Gazette office this afternoon. Settle your account at P. C. Thompson Company's, as they need money and must have it. Ed. Holloway and wife leave Monday for Yamhill, Lion and Benton counties. They will be accompanied by Mr. and Mrs. Reub Sperry. Wiley McBoe writes to friends from California that he has better health down there, but that he would rather live in Morrow county.

Bill Ingram, A. H. Hooker and son, H. E. old "Jayhawker" friends of the Gazette man, dropped in yesterday. The elder Mr. and Mrs. Hooker will likely visit the East ere long. The race track is in excellent condition now, and the signs are that the coming races will be well attended and appreciated. Several horses are stationed at the track, though many are kept in town. J. W. Beckett was in town this morning. His fall sown grain did not come up good, and is very thin on the ground. Thinly sown grain usually yields better, though, and perhaps this is another blessing in disguise.

ADDITIONAL LOCALS. Ruhl, the baker. Buy your bread and cakes and save money. Try it. See J. W. Cowins for Rock Springs coal. Leave orders at Gazette office. A Minor Bros. are now selling flour at best rock prices. For cash only. See new ad. A fine lot of imported Shot Guns at Thompson & Co's at bargain prices, no jobbers profits. M. Lichtenthal & Co. have just received a fine lot of ladies' kid, button and tie shoes. At bottom prices. H. Blackman & Co. have an exclusive General Merchandise store. Stockmen cannot do better than patronize H. Blackman & Co., of Heppner's Pioneer Block.

ARRINGTON NOTES. Jno. A. Brown has rented the Vendome hotel, vice G. T. Wells. C. A. Risen and J. Spray passed through Monday, bound west. Judge A. S. Bennett, of The Dalles, was in town a few hours Monday. E. Y. Judd, of Hartford, Conn., was in town in the interest of his firm several days last week. Wool is beginning to roll up in good style, but as yet few sales have been effected. Prices range low. Mr. Bott, of San Francisco, has accepted a position with H. Kalmann, the enterprising clothing merchant. The lucky number is "5818," obtained by the organ given as a premium by the above mentioned J. H. Kalmann. Bert Evans, who has been officiating at The Grande, left Monday to accept a position in the Palace hotel as waiter hotel. Curleton, the Fresno kid, arrested for shooting a brakeman at Marysville, Cal., passed through Tuesday in charge of Deputy Sheriff Single. A subscription list for improving the Wood Gulch road on the opposite side of the river, was going the rounds Saturday last and the \$100 desired was quickly obtained. S. G. Hawson is a proud and happy dad, a bonning boy making his debut Sunday last. Last bulletin stated that Sid was slowly recovering; mother and child doing well. John Morrison, who has had charge of Fred Dees' shop, was in town Saturday last, bronzed and bearded. We understand John has taken a position as manager with Smith & McAllister, Rock creek. J. Mayer, of Fleckenstein & Mayer, was a passenger on the cannonball bound south Tuesday morning. *

A Warning—Don't Use Big Works. In promulgating eoteric cogitations or arid, abstract, and unpractical generalities and philosophical or psychological observations, beware of platitudinous ponderosity. Let your statements possess a clarified conciseness, compacted comprehensiveness, coalescent consistency and a concentrated cogency. Eschew all conglomerations of flatteringly garrulous, jejune babblement and assinine affectations. In trying to impress upon others the superiority of the Wisconsin Central lines, and why you and so many others use this thoroughfare from St. Paul and Minneapolis and Duluth and Ashland to Milwaukee, Chicago and points east and south, it is not necessary to use jaw-breakers. Let your extemporaneous descriptions and unpremeditated expectations have intelligibility and variousness vivacity, without rhodomontade or trausonical bombast. Sedulously avoid all polysyllabic profundity, petteous vancuity, ventrosical verbosity and vascillating vagaries, when double entendres, prurient jocosity and pestiferous profanity, obscure or apparent. In other words talk plainly, naturally, sensibly and truthfully say the Wisconsin Central Lines is THE ROUTE, and that ends it. 4531.

THAT TELEPHONE LINE.

Late advice from Pendleton are to the effect that work on the telephone line to Pilot Rock will be commenced at once, and that the parties interested in this matter are favorably impressed with the practical idea of continuing the line to Long Creek.

This is undoubtedly encouraging news to the stockmen and business men of this locality. The Eagle has been informed by some of the leading men of Long Creek that considerable stock for such an enterprise would be subscribed by residents of Long Creek, and as soon as Mr. Fletcher or any other party interested visits this community, the enterprise will be begun to materialize.—Eagle. The people of Heppner will have to rustle some or Pendleton will capture the Long Creek trade.
