Before Starting on a Journey A person usually desires to gain some information as to the most desirable route to take, and will purchase tickets via the one that will afford him the quickest and best service. Before starting on a trip to Chicago or any point East, you should provide yourself with a map and time table of the Wisconsin Central lines. The trains run on this route are vestibuled and equipped with Pullman's latest drawing room sleepers, elegant day conches and dining cars of latest design, built expressly for this service, and are exquisite in furnishings and convenient and comfortable in arrangement and so complete in every detail that they have no superior in comfort and elegance. The duning car service is pronounced by all the most elegant ever mangurated, and is operated in the interest of its pa-

and is operated in the interest of its pa-Fast trains via the Wisconsin Central

Past trains via the Wisconsin Central lines leave Minneapolis daily at 12:45 p. m. and 6:25 p. m., and 8t. Paul at 1:30 p. m. and 7:30 p. m., making favorable connection with all trains from the West and southwest.

For tickets, time tables, berth reservations, etc., apply to G. F. MeNeill, C. P. & T. A., Minneapolis, Minn., or to Jas. C. Pond, general passenger and ticket agent Chicaco III.

out Great Additional Cost.

Most farmers are familiar with the common construction of barns, but

THE BARN PLAIN AND SIMPLE To assist this latter class Country Gentleman makes these remarks concerning

the accompanying designs: We give two outgravings, one representing a barn where some attention is given
to the outside appearance, and the other
one of the plainest character. The interior arrangements of both are nearly
allike, except that the sandsome one, Fig2, has a basement which is partly occuised with cartle stals and toolroom. pied with cattle stals and toolroom, while Fig. 1 has them on the common floor. Fig. 1 may be overed with unplaned boards and vertcal battens, while Fig. 2 has vertical bards without the battens. The additional cost of Fig. 2, as compared with Fig.1, will not vary greatly from the folloing: Additional lumber, mail: and work for

Windows and shatters..... Previous planting of shae trees...

If the barn is 40 by 0 feet it will cost, together with the basment, about \$900 or \$1,000, covered withrough boards, or \$1,200 or \$1,500 if the they are planed and painted, and will more finish. A heavy coat of crude prolenm, put on the unplaned surface with a coarse brush by a common actve laborer, and requiring not more that two barrels of Mixes with either COLD or WARM WATER. the oil, will cost \$8.

Readers will decide mether they will

have such a barn as in 'ig. 2 for about

BARN WITH IMPROVE EXTERIOR.

> EXPERIENCE IN THE PORY YARD.

Remarks Made by a Van Poultry Raiser at a Farmerseting. At a recent meeting ofinsylvania farmers, Dr. C. Green, a van poultry raiser, read an essay, acts from which are here given:

The temperature of a dought not to be lower than 45 degs, inter, and should most of the tim up to 60 A Family Affair
Health for the Baby,
Pleasure for the Parents,
New Life (or the Parents) legs. If by neglect ver has been permitted to infect the biroost and house, get rid of the part at once. The application of sulpsprinkled upon the forms while rog will de-stroy the vermin, so also two or three drops of whale of the back of a fewl kill the lice I oil applied to the roosts in singuantities will rid the roosts of vernishe nests must be occasionally rene and straw is better than hay for neathe drop-pings must be frequently vei and the floors kept clean withering of loam or sand.

As heas require carbonal phosphate of lime for the ur of egg shells, this requirement be met with an austinted supply qplaster-ing, oyster shells, or, best l, fresh bones with some of the grad meat attached. These unaterinfuld be placed where they can be miently picked up by the fowls. can be increased in size and richn proper food and get excessively tirmy one kind. In winter green forch as turnips, beets, cabbage lear, are essential. Corn and wheatings, corn, oats and scraps fromhouse should all be fed off and duging the diet as often as thrice a

Hens require a great despater, but, as they drink only a smnitty at a time, it must be keptstant supply, fresh and clear. A its in The success of this Great Cough Care is without a parallel in the history of medicine. All drogsists are authorized to sell it on a positive guarantee, a test that no other care can successfully stand. That it may become knows, the Proprietors, at an enormous expense, are placing a Sample Heutle Free into every home in the United States and Canada. If you have a Cough, Sore Threat, or Bronschitts, use it, for it will care you. If you read the insulints, use it, for it will care you. If you read that insidious disease Consumption, are it. Ask your Druggist for SHIDUI's CURE. Price 18 cis. 30 ets. and \$1.00. If your Langs are sore or Back lame, use Shiloh's Persua Praster. Price 28 ets. For sale by all Druggists and Dealers. separate pens are much mortable and easily kept healthy than arge numbers are confined underoof. The sooner you begin settings in a rule, fare badly. Pullets rake good mothers. Three and foold needed for mothers, the quick to

The pumplins shown in the cut are mammoth affairs, grown on the result and farm, in Ulster country, N. Y. From an acre to an acre and a half of pumpkins are grown each year. These are planted on sod with plenty of stable manure and also some fertilizer in the bill. The hills are twenty feet apart. They are cultivated by horse and hand as long cultivated by horse and hand as long as the vines will permit. In time of the continuous residues plantage and entityation of as the vines will permit. In time of the vines will permit in barrels and some flowers.

SOTICE OF INTEXTION. many of them are at a loss when called upon to build barns of pleasing exterior. postuce but one big fellow. The largest

pointed around each hill. The flowers are pinched off, so that each vine will produce but one big fellow. The largest pumpkins yet grown there weighed 238, 331 and 347 pounds, respectively.

Mr. House, the manager of the Pelham farm, is not satisfied with these weights and proposes to reach 400 pounds next year. The raising and marketing of this crop shows progress if anything ever did, remarks the Rural New Yorker, to which thanks are due for the cut. The lesson is that individfor the cut. The lesson is that individ-

a sonanza crop of pumpkins, unlity pays. The man who grows pumpkins bigger than his neighbors and lets the people know it will have trade. The man who makes the pumpkins into first class pies and advertises them will have to put in new tables to supply his customers. "Get individuality or get out of the race" Mr. House says "there is no secret in raising big pumpkins." Of course not. Nature has no secrets. Her story is like an "open book" to those who have the will and the patience to learn to read it.

These big pumpkins are used by restantiant to attract a big trade in pumpkin nie. Every day, therefore, a dozen man who makes the pumpkins into first

kin pie. Every day, therefore, a dozen or more of these great fellows may be seen in front of the restaurant. These are the best advertisements they can alone used forty-five tons of pumpkins.

A New York farmer writes as follows: "I occasionally see the statement made that the keeping qualities of apples and pears will not be injured by freezing, provided the fruit remains undisturbed until entirely thawed out. Without any question where these fruits have accilentally frozen they should not be exposed to light and warmth, or they will \$1,000 or upward, or onlike Fig. I for rot almost as soon as they will thaw. If \$900, not counting the bament in either left to thaw slowly and gradually by a natural change in the temperature and These figures are collapproximate, and are liable to mucharisticn with the prices of materials is lumber, the come out sound, for they will not decay while in their frozen state. The best parts, the ability of the irpenter and thing to do when it is found they have frozen is to throw straw or hay over them, whether they are in bulk or in barrels, and thus delay the thawing and make it as gradual as possible. But the Cabbages, Swede turnit or common white turnips, long or ound, sugar beets, etc., may common be purchased of farmers—supposing or reader, that you do not raise your, and that they will rot sconer than would the man equantity of the same kind of apples or pears that have remained sound and unfrozen up to the same time. The best keeping conditions are to be found where the fruit is not only kept from where the fruit is not only kept from winter. Poultry confined close runs and houses four or five most during our cold northern winters roup good artifitions toward either extrems."
