THE SELVER QUESTION.

Full information concerning rates, time injures the colored citizen more than the whites, of trains, routes and other details it means hordes of deputy marshals at every the state wank tax. olling place, armed with the Federal power of turning boards appointed and controlled by the Federal authorities; an outrage on the elect-oral rights of the people in their states; the subjugation of the colored people to the control of he party in power, and reviving the race antag eril to the safety and happiness of all. It is a easure deliberately and justly described by leading republicans as the most infamous bill that ever crossed the threshold of the senate. such a policy, if sanctioned by law, would mea the dominance of a self-perpetuating oligarchy of office-holders, and the party first entrusted with the machinery could be dislodged from power only by an appeal to the reserved rights of the people to resist oppression, which is inherent in all self-governing communities. Two years ago this revolutionary policy was emphatically condemned by the people at the polls; but in contempt of that vertice the republican party has defiantly declared, in its latest author Itative utterances, that its success in the coming elections will mean the enactment of the force bili and the usurpation of a despotic control over elections in all states. Believing that the reservation of republican government is de-endent upon the defeat of such a policy, legalized by force and fraud, we invite the support of all citizens who desire to see the constitution maintained in its integrity with laws pursuant thereto, which have given our country 100 years of unexampled pro

THE TARIFF PLANE. We pledge the democratic party is able to defeat the force bill, but also to offer a relettless opposition to the republican policy of profligate expenditure, which in the short space of two years has squandered the enormous surplus and emptied the overflowing treasury, after lling new burdens of taxation upon the aiready vertaxed labor of the country. We reiterate the oft repeated doctrines of the democratic party that the necessity of the government is the mly justification for taxation, and whenever a tax is unnecessary it is unjustifiable, or that when a custom-house taxation is levied upon articles of any kind produced in this country the difference between the cost of labor here and labor abroad, when such difference exists, fully measures any possible benefits to labor, and the rmous additional impositions of the existin tarifffall with a crushing force upon our farm ers and workingmen, and for the mere advantage of the few, whom they enrich, exact from the laboring class a grossly unjust share of the expenses of the government, and we demand such a revision of the tariff laws as will remove their iniquitous inequalities, lighten their of pressions and put them on a constitutional and equitable basis. But in making a reduction of taxes it is not proposed to injure any domestic industries, but rather to promote a healthy rowth from their foundation. Government axes, collected at the custom-houses, have been the chief source of Federal revenue. Such they must continue to be. Moreover many indus-tries have come to rely upon legislation for sucnust be subject, in its execution, to this plain dictate of justice. We denounce the McKinley pendents, but we demand that the work of the tariff law, as the columnating atrocity of class pension office shall be done industriously, imlegislation; we indorse the efforts of the demo-

We denounce the policy which fosters no in cantages to the countries participating is timewantages to the countries participants at the honored doctrine of the democracite faith, but we denounce the sham reciprocity which juggles with the people's desire for enlarged foreign markets and for freer exchanges, by pretending to establish closer trade relations for a country whose articles of export are almost exclusively gricultural products, with other countries that are also agricultural, while erecting a custom-house barrier of prohibitive tariff taxes against the richest countries of the world, that stand ready to take our entire surplus products and xchange therefor commodities which are ne saries and comforts of life among our people

We recognize in trusts and combinations, which are designed to enable capital to secure more than a just share of the joint product of capital and labor, the natural consequences of prohibitive taxes, which prevent free competi-ion, which is the life of honest trade, but be-leve their worst evils can be abated by law, and we demand a rigid enforcement of the laws made to prevent and control them, together to the Union as states of the territories of Newith such further legislation in the restraint of Mexico and Arizona, and favor the carly admit their abuses as experience may show to be sion of all territories having the accessary po-necessary.

THE LAND QUESTION.

The republican party, white professing a pol ley of reserving public lands for small holdings by actual settlers, has given away the people's heritage, till now a few railroads and non-resident aliens, individual and incorporate, possess a larger area than that of all the farms between the two seas. The last democratic administration reversed the improvident ami unwise THE NATIONAL DEMOCRATIC PLAT- policy of the republican party touching the public domain, and recialmed it from corporations and syndicates, alien and domestic, and restored The representatives of the democratic party of to the people nearly 100,000,000 acres of valuable the United States, in national convention assem- land, to be sacredly held as homesteads for our bled, do reaffirm their allegiance to the princi-ples of the party as formulated by Jefferson and exemplified by the long, illustrious line of his ly held shall be reclaimed, and restored to the

We reaffirm the declaration of the democratic national convention of 1876 for the reform of the civil service, and call for an honest enforcemen of all laws regulating the same. The no tion of the president, as to the recent republicaconvention, by delegations composed largely on his appointees, holding office at his pleasure is a scandalous satire upon free popular institu tions and a startling illustration of the method by which a president may gratify his ambition We denounce the policy under which Federa o reform these and all other abuses which breaten individual liberty and local self covernment.

OUR POREIGN POLICY.

The democratic party is the only party that has ever given the country Proreign policy consist-ent and vigorous, compelling respect abroad and spiring confidence at home, while avoiding entangling alliances. It has simed to cultivate friendly relations with other nations and escontinent, whose destiny is closely linked with our own, and we view with alarm the tendency of a policy of irritation and bluster, which is liable at any time to confront us with the alter native of humiliation or war.

27% Difference

The "Royal" the Strongest and Purest Baking Powder.

Whether any other baking powder is equal to "Royal," let the official reports decide. When the different powders were purchased on the open market and examined by Prof. Chandler, of the New-York Board of Health, the result showed that Royal Baking Powder contained twenty-seven per cent. greater strength than any other brand.

When compared in money value, this difference would be as follows:

If one pound of Royal Baking Powder sells

for 50 cents, One pound of no other powder is worth over

If another baking powder is forced upon you by the grocer in place of the Royal, see that you are charged the correspondingly lower price.
