HARD TO BELIEVE.

LESTER ARNOLD of Fenwick, Mich., weighs only eighteen pounds, and is twenty-seven years old.

JAMES HENDERSON, an old sailor at Norfolk, Va., has an image of a full-rigged ship tattooed upon his arm which is so small that it cannot be fully distinguished without the aid of a magnifying glass.

In 1868, Robert T. Barker, of New Bedford, Mass., read the Bible through, for the first time. Since that date he has read it ninety-nine times.

A FLY caused the death of a man at Vienna. He was walking the street when the insect suddenly took a position on his forehead.

A PALMYRA woman could not believe her own eyes recently when she found a strange creature measuring six inches in length...

WHY? Why are the authors of books that teach how to get rich invariably poor? Why does a restaurateur-keeper take his meals, when he can, at some other's restaurant?

WHY does a man speak broken English to a foreigner who cannot understand him?

WHY does a man who cannot make another agree to his arguments shake his fist when a second time?

WHY does a man turn his head to observe a pretty woman, while a woman merely turns her eyes to observe a handsome man?

WHY does a caller in an office building, hotel or tenement house begin his inquiries for some one he is seeking at the top story instead of the basement?

WHY does a squirrel and a snake engaged in a battle near Springfield, O., and the squirrel come off victorious, killing his opponent?

WHY does a California lioness recently killed by a hunter in Fresno county, find its whole body was arched, as if it were being torn by the tip of its tail?

WHY does a parrot in New York have had more than twenty owners, and has scared each one out of his wits by screaming "Hurry!" at an early hour in the morning?

WHY does a Vienna doctor have declared that cancer can be arrested by an injection of one of the coal-tar derivatives, methyl violet?

WHY does a new antiseptic called microcidine have been discovered. It is a powder, composed of sodium and soda. It is also most harmless, and is neither poisonous nor irritant.

WHY does a scientist who has demonstrated by facts and figures that most people have always believed, that colds are fostered by those who wrap themselves up and avoid the severity of the weather rather than by those who dare to brave the elements?

WHY does a man consist simply of water divided into minute globules or drops. They differ in no essential respect from the atoms emitted by a teakettle, or the mist and fog that fill river valleys at sunrise.
