Wm. Rush came down from the camp near the former site of Bishop & Bisbee's mill, Sunday, leaving all fairly well and enjoying the outing.
Geo. Brown, manager of Parker's mill, was in yesterday. Ye editor knows George from 'way back, and he'll do to "bank on" in any climate.
News: Crocker Creek and Greenhorn mining camps have about eclipsed the world by "Seven Devils" camp in Idaho. Baker and Grant counties will lead.
T. D. Matthews, of Galloway, called around while in the city Saturday. He informs us that sheep are now most all in the mountains, and are doing well.
John Harrington, Mrs. Geo. Harrington, Mrs. Manning and Chas. Manning, Homer Harrington and Gene Jones left yesterday for Teal Springs, to be absent some weeks.
Billy Potter returned Saturday from Hood River where he had been visiting relatives and enjoying a general vacation. Billy left this morning for a business trip to Long Creek.
The Portland Telegram, as an evening paper, is rapidly improving in a local sense; in fact it gives more local news than all other papers of Por land. They must have some live reporters.
Harry Bennett spent the past week or so up on the mountain ranch of Fred Thomas, hoping to improve his health, but the health-giving germs of the Blues didn't seem to fall his way.
C. Fuller was in yesterday, and is just convalescing from a severe attack of erysipelas in the face. His wife has also been quite ill with bilious fever and erysipelas, but is able to be around again.
Emil Voruz and wife and Sam Kinman and family went up to the mountain camp Sunday. The men folks returning yesterday. Emil left this morning for the valley where he will spend his vacation.
Allen Evans got in Sunday from the Greenhorn where he has two bands of sheep, one on Five Mile creek and the other on Desolation creek. He finds plenty of bear in that vicinity to menace sheepmen.
Rev. W. E. Potwin held services in the Baptist church last Thursday and Friday, but will not visit Heppner again till in November, as he will leave shortly on a visit to Eastern states and does not expect to return till then.
Tom Barnett dropped in Saturday while he was up from Lexington. He has sold his livery stable business at Lexington, but ye reporter didn't press Tom much for news on this occasion, as he had a very bad toothache.
Ayer's Pills promptly remove the causes of sick and nervous headaches. These Pills speedily correct irregularities of the stomach, liver and bowels, and are the mildest and most reliable cathartic in use. No one should be without them.

"When your heart is bad, and your head is bad, and you are bad clean through, what is needed?" asked a Sunday school teacher of her class. "I know—Ayer's Sarsaparilla," answered a little girl, whose sick mother had recently been restored to health by that medicine.

D. Cox, who has one of the best ranches in the county up on Hinton creek, was in Monday and like the average farmer, complains much of unreasonable weather, yet it is a bad year when Dew doesn't raise a pretty good crop.

The noble swish is hanging around Heppner more conspicuously this season than before, for the reason that the grand pastures and noble mountains of Grant county are devoid of him. The "Injun" had better keep out of Grant.

James Leach, of Lexington, was up Saturday to make final proof on his homestead before Clerk Morrow. He reports crop considerably damaged by the dry season, though thinks there will yet be some grain.

Harry Keyte is doing a rattling job business at Everett, Wash., and thinks the town has a bright future. He is a member of the jobprinting firm of Keyte & Hart. Give us another shake; may you succeed.

Amos Younger, brother of Mrs. Judy Mitchell, is on the sick list.

Dick Clinton is spending a few days with his friends here.

The World Enriched.
The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited, and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and efficient to cleanse the system gently in the spring time or, in fact, at any time and the better it is known the more popular it becomes.

A. F. Smith, Veterinary Surgeon, Riding Horse Castration and Cattle Spaying a specialty. Instructions given at reasonable terms. After eighteen years of active practice and teaching my methods, I have concluded to withdraw from the road and will teach any man to castrate the ridging or horned horse, spay cows, and all similar operations, together with many recipes, for \$50, only one-fourth the usual price. I guarantee to make you an operator, which is worth thousands, as there is not a good operator now traveling in this part. Write me for reference or ask that traveling Thom. Lloyd whom I started in part only.

A Machine.
From the Printers' Album

The country press, instead of being a leader and moulder of public opinion, has become a mere machine; several hundred newspapers, in as many localities, telling the same story, parrot-like, to the people all over the country. By the multiplication in the number of newspapers, they divide up among a lot of stragglers the patronage that ought to go to a few strong, influential journals, each of which would be a credit to its conductors and the community in which it is issued. The people of an obscure town think they must have a newspaper to maintain their standing among the greater or less Podunks of the same county, and set to work to induce some one to invest the amount necessary for the printing of the home side of the paper. This means—not the building up of a journal that shall be a help and a blessing to the community, but—the sapping of part of the lifeblood that should go to the support of the papers that have a real reason for existence, and which are so weakened by the sapping process as to be unable to do justice to their owners or the people who have a right to expect much of them. In other words, there are too many newspapers. Like grain sown too thickly, they choke one another, and the result is a mighty poor harvest for everyone.

A SUPERIOR DIP.—Our sheepmen will no doubt be pleased to know that a "dip" is being placed on the Heppner market which is certainly cheap and efficacious, and to be preferred to the old lime, sulphur and tobacco dip, as it does not injure the wool, while accomplishing all that can be claimed for any dip. We refer to the Cooper Sheep Dip, manufactured by Wm. Cooper & Nephews, Galveston, Texas, and whose ad. appears in this and subsequent issues. This dip is for sale by all dealers, through whom you can secure, free of charge, The Sheepman's Guide; or if not to be found with local dealers, address S. Koshland & Co., of San Francisco, or Wm. Cooper & Nephews, Galveston, Texas, either of whom will forward same to your address.

THE WOOL MARKET.—In conversation with Grant Johnson, wool buyer for S. Koshland & Co., of San Francisco, our reporter learns that the wools here are nearly all sold and pretty well picked over. What remains are not desirable from a buyer's standpoint, unless they can be secured at prices that will justify purchasing, having earlier in the season, secured about all they desire, most of them the choicest clips on the market here. However, we are informed that the buyers will remain in the field till August 1st, and, of course, are here to do business.

MINING TALK.—Dug Gurdane says there is more or less mining excitement at the head of Big Butte creek, over the discovery of some tolerably rich quartz croppings showing \$16 a ton in gold and silver. So far as prospected, the ore is free-milling. It strikes the mining editor of the "Gazette" that this is too good a thing to wait long for practical miners, for plenty of free-milling, \$16 ore is pretty good. We believe that these mines have been developed some before, but with what success we do not know.

A PRETTY GOOD REASON.—The accumulations of water and filth on the east side of Main and between May and Willow streets, has rendered it necessary that gutters be put in, so that the water will be carried away, and also rendering it an easy matter to clean them out occasionally. In their present condition, it is almost impossible to pass along the street in that vicinity, besides being a menace to the health of the residents who are compelled to do business there, the constitutional kickers of the town to the contrary notwithstanding.

DOING WELL.—Bert Gay is not hurt as badly as anticipated, though severely injured. One prong of the pitch fork pierced the left lung some four and one-half inches, entering near the nipple, while another struck a rib just to the right of the breast bone and was thus warded off. Dr. Fox thinks that the young man had a very narrow escape, not missing his heart but a small fraction of an inch. At last accounts (yesterday) he was improving, and hopes are entertained of his early recovery.

ACQUITTED.—Geo. Gray returned Saturday evening from Goldendale, Wash., where he was called as a witness in the Mackey horse stealing case. We learn from George that Mr. Mackey was acquitted from lack of evidence. Crops are fine in Klickitat county and the farmers feeling jubilant.

FOR PURE FOOD.
Laudable Advice for Boards of Health upon the Baking Powder Question.

Boards of Health can engage in no more commendable action than the examination of our food supply and the instruction of the public as to those articles which are found to be pure and wholesome, and which therefore consumers should use.

Action of this kind with the baking powder is particularly opportune. There are quantities of baking powder in the market to use which is certain detriment to the health of the consumer. They are made from alum, or improperly compounded from other chemicals so that they leave a strong alkaline residuum in the food. Many of these powders, having proved unsalable in the East, have been collected by their manufacturers from the dealers with whom they were left on commission, and shipped to the Pacific Coast. In the effort to gain a foothold in this market unscrupulous manufacturers of these cheaply made, low grade baking powders have indulged in extravagant statements both with reference to their own and other brands, claiming the most improbable endorsements for theirs, and defaming the brands best known and longest used upon the Pacific Coast.

The following extracts from the reports of some of our well known health authorities will be of particular interest:
The State Chemist, of Washington, Prof. G. A. Bethune, says: "There is, therefore, no question but the Royal is the strongest, purest and most wholesome baking powder in the market."
The Seattle Board of Health says: "Finding in analysis that it is made of the highest grade of cream of tartar and bicarbonate of soda, and is entirely free from any adulteration, we heartily recommend the Royal Baking Powder for its great strength, purity and wholesomeness."

The Tacoma Board of Health says: "In our judgment, the Royal is the best and strongest baking powder before the public. We confidently recommend it because of its purity and care of preparation."
The Spokane City Board of Health reports: "There is certainly no baking powder known to us equal to the Royal for strength and uniform quality, and we recommend it for its absolute purity and wholesomeness."

The Board of Health of the City of San Francisco, after extended tests, said of the Royal, that "it is absolutely pure and beautiful, composed of the best ingredients, of the highest strength and character;" the health officer of Los Angeles reported that it was "strongly demonstrated and proven that the Royal Baking Powder is pure and wholesome, and that it stands, as far as strength and purity are concerned, at the head of the baking powders of the United States;" while the State Chemist of California, Prof. Rising, found the Royal superior in strength and purity to all other brands.

It is the purpose of the stockholders of this company to conduct its business in a manner mutually advantageous to all wool and grain producers of this section, and to maintain the favorable home market which it has established. During the coming wool season we solicit the business of all wool growers and request them to send their clip to the "Wool Growers' Warehouse."
Having enlarged the Heppner Warehouse, and roofed all platforms, we have double the storage capacity of any other warehouse in Eastern Oregon, well lighted for the display of wool.
