

Give your business to Heppner people and therefore assist to build up Heppner. Patronize those who patronize you.

I. M. Cummins has resigned the editorial tripod of the Wasco News, being succeeded by Frank M. Dixy, a young man of some experience in the newspaper business.

The branch railroad from the Union Pacific line to the town of Union is at last completed, bringing Union in direct communication with the outside world. The first of this is due to J. W. Shelton, one of our leading citizens, president of the Union Electric Light Co., owner of the depot telegraph line, a resident of Union, and in fact one of the most enterprising men in Union.

A. J. Hicks, in his so-long-ago-to-remember issue of the Record, pompously stated that paper as the leading journal of Morrow county. We refer the public to the various newspaper annuals published in the United States, as to the consistency of the statement. Foreign ad-vertisers do not agree with Mr. Hicks, but if he takes any pleasure in this harmless hallucination, the Gazette is perfectly willing that he should enjoy it.

The Heppner Record has changed hands again. Since its birth, less than two years ago, it has changed ownership three times. This is not altogether complimentary to a would-be leading paper, yet we wish the present proprietor, Mr. Yawter Crawford, success in the venture. However, we shall take the privilege of our position to criticize his efforts when in our opinion they are not for the best interests of the public, yet we hope that nothing will appear which will mar the friendly feeling which has always existed between the present proprietor of the Record and the management of the Gazette.

THE GAZETTE recently received a notice of an appeal to the public to institute reform societies everywhere for the betterment of humanity. Now while many kinds of reform movements are commendable, yet too many of the reformatory efforts, thus far inaugurated, have been mainly devoted to trying to eliminate evils in others, by external appeals in the form of speeches and arguments to prove the efficacy of certain methods or theories to reform the race, while those advancing them do not seem to understand that reform comes from within, and must be evolved for one's self. In fact it is almost wholly through self-reform that anyone can ever hope to make any great degree of success in the reformation of the world at large.

Resolution and reform are closely allied, for without the first nothing can be accomplished in the way of reform. So let those who are anxious to inaugurate this movement, stand boldly out with resolute will and determined purpose and closely guard their own thoughts, that they only evolve good ones; that they neither think nor speak ill of another, no matter how great the provocation; and that they strive persistently to be the embodiment of love and good-will. Then when they have brought about this complete self-reform, you may congratulate yourself upon the inauguration of a wonderful reform upon the human race, and consider that the millennium is near at hand.

A Little Girl's Experience in a Light-house. Mr. and Mrs. Loren Trosser are keepers of the Gov. light-house at Sand Beach, Mich., and are blessed with a daughter four years old. Last April she was taken down with measles, followed with a dreadful cough and turning into a fever. Doctors at home and at Detroit treated her, but in vain, she grew worse rapidly until she was a mere "bundle of bones." Then she tried Dr. King's New Discovery, and after the use of two and a half bottles, was completely cured. They say Dr. King's New Discovery is worth its weight in gold, yet you may get a trial bottle free at Slocum-Johnson Drug Co.'s store.

KNIGHTS OF PYTHIAS. The Supreme Lodge meets and holds an interesting session.

The supreme lodge Knights of Pythias were in session at Kansas City last week, from the 22nd to the 26th inclusive, with fully 70,000 Knights in attendance. One of the most important things that came before the session, and one in which the entire Pythian world is interested, was the revision of the ritual which was adopted by the supreme lodge.

The following are the officers selected for the ensuing year: Supreme chancellor, W. W. Blackwell, of Kentucky; supreme vice-chancellor, Walter B. Ritchie, of Ohio; supreme pre-late, E. T. Blackmer, of California; supreme master of exchequer, F. J. Willey, of Delaware; supreme keeper of records and seal, R. L. C. White, of Tennessee; supreme master-at-arms, J. H. Lyons, of Kansas; supreme inner guard, A. C. Gardiner, of New York; supreme outer guard, John H. Thompson, of Washington, D. C.

The supreme temple of Pythian sisters also held a very interesting session at the same city. The records of this order now show a membership of 18,000, an increase of 7,000 in the last nine months.

The officers chosen by the Pythian sisters were as follows: Supreme chief, Mrs. Hattie A. Robinson; supreme senior, Mrs. Sarah J. Goff, Center Falls, R. I.; supreme junior, Mrs. H. W. Dadd, Fort Madison, Ia.; supreme mistress of records and seal, Mrs. M. D. Woods, Kansas City; supreme mistress of finance, Mrs. Emma Bacon, Dayton, O.; supreme guard, Mrs. Emma Hausmond; supreme protectress, Mrs. Sarah Wolf, San Francisco. The supreme trustees are yet to be selected.

### Oregon Press Association.

THE MEETING CALLED FOR OCT. 4, 1892.

Let There be a Full Attendance of the Members.

Official and unauthorized notice has been heretofore published to the effect that the Oregon Press Association would meet on the 26th of September, and had it not been for various and important reasons which have come to the knowledge of the president of the association since this announcement, he would have acquiesced in this date. But he finds that many of the counties will have their fairs during the preceding and same weeks; and, as a rule, nearly all the schools take up about this time, in which many of the editors and publishers have a local pride and desire to be at home. It was also the wish to accommodate the Portland exposition, as the management had designated September 24th as the time for "Press Day." In order that the members outside of Portland could make one trip, this date seemed the best that could have been selected, but the other considerations, for the good of the Press Association and securing a full attendance make it necessary to select some day that will not conflict with local interests, and notice is hereby given that the time for holding the next meeting of the Oregon Press Association will be on Tuesday, October 4th, at The Dalles.

We believe the date selected for the meeting of the association will prove satisfactory to all members and not interfere with any previous or more important engagements. It is also desirable that all newspapers in the State be represented at the meeting of the association, and those who have heretofore been members shall consider themselves such until the future action of the association, whether they have complied with all the requirements of the constitution or not. Let us have a full representation of the publishers of Oregon. It will do us all good to meet together, and we also hope that this session, while we do not propose that it shall be exempt from pleasure, will be one of business as well.

A. NOLZEN, President.  
ALBERT TOSIER, Secretary.

DR. PRICE'S BAKING POWDER. Supplying the Army, Navy and Indian Department.

Chicago Letter Given. The purchasing agents of the United States Government have ordered nearly one hundred thousand pounds of Dr. Price's Baking Powder in the first five months of this year, 1892.

The government exercises great care in selecting its supplies of all kinds, rejecting everything that is not of the best, and the very fact that it has adopted Dr. Price's Baking Powder is proof that it has found it the best of all the baking powders. Dr. Price's is peculiarly adapted for export, as neither long sea voyages nor climate changes affect it, this brand keeping fresh and sweet for years while other baking powders deteriorate rapidly. It is guaranteed to the government to be a pure cream of tartar powder free from ammonia, alum, or other harmful substances, and it is also the only baking powder prepared by a physician of high standing.

### HATTEE'S CONGO OIL.

Marvelous Cures Effected by its Use.

THIS wonderful medicine is the wonder of the nineteenth century, effecting a cure when all other remedies fail. It is distilled from plants growing upon the banks of the Congo River, in South Africa. The first knowledge we possess of this wonderful oil is found in some of the writings of Covillham, a Portuguese navigator and African explorer, who was sent out by the King of Abyssinia about the year 1483. He speaks of a wonderful penetrating oil that was in use by the Zimbos, a remnant of a once powerful African nation, and in some recent cyphers found upon some ruins in a very ancient city called Zimbao (meaning a royal house,) more evidence has been produced of this wonderful oil, or rather of the plants from which it is distilled, thus proving conclusively that the secret was sacredly guarded by these ancient inhabitants of the Dark Continent. As the world has progressed more explorations have been made into Equatorial Africa, and suffering humanity has been greatly benefited, as well as medical science being advanced by the rediscovery of this wonderful Congo Oil. It was first brought into civilized Europe by a member of the expedition sent out from London in 1859, under the command of Captain Speke, whose explorations reached far up the Congo River. The secret of its production was jealously guarded until upon the death of the party in whose possession it was, when it was given to a party named Hattie, who formed a company, known as the Congo Oil Company, having its headquarters at Zanzibar, South Africa, with a branch in New York City, and thus placing upon the market this most wonderful of all remedies. By its use all pain disappears, but it is particularly recommended in Sciatica, Rheumatism, Neuralgia, &c. It is wonderfully penetrating, and to use it once is to become a friend to it always. By its use, thousands who are suffering can be relieved. It is the cheapest because it is the best, and one bottle of it will go further than a dozen of the many so-called cures for these ills. It is purely for external use. Full and explicit directions are printed on each bottle. If you are afflicted, try a bottle; and before you have used it your aches and pains will disappear, and there will be no more use for crutches or canes. It is for sale by all druggists and dealers in patent medicines, or can be supplied by the undersigned, who are the sole Pacific Coast Agents for this wonderful oil.
