A L. Guerin has been hired as janitor for the school building, also acting as night watch during its completion. In this connection it might be well to state to those "poorhouse complainers" who have been making their semi-occasional, nocturnal tours to that building, that they can find a "better place" on the hillside near by, besides they would not be disturbed A. L. from his slumbers.

**How A. A. Jayne Was Shot.**—The accidental shooting of A. A. Jayne, a well-known attorney at The Dalles, a brief account of which was given in Tuesday's issue, happened about 7:30 Tuesday morning, while hunting above the Willows. Mr. Jayne, in company with a party of seven, had gone up the river hunting, the evening before, but at the time of the accident was in a sailboat alone. As the wind was blowing a gale he experienced some difficulty in keeping his boat from shore, and in attempting to push it off by the use of an oar with his left hand, he accidentally discharged his gun, which was loaded with two bird shot, the load taking effect in his right wrist, tearing it up very badly. Mr. Jayne began ballooning and jumped from the boat and made for the shore, where he was met by the remainder of the party, who after a time stopped the flow of blood, then wrapped up his hand and took him to the Willows, where they remained until the arrival of the Heppner train, when he was taken to Arlington, arriving about 11:30. Dr. Geisendorfer was immediately summoned, and after the afflicted man was removed to his home he dressed the wound, Dr. Rinehart, of The Dalles, was once telegraphed for and arrived on Tuesday evening's train, and after a thorough examination and consultation, the two doctors decided that he must lose the limb. Accordingly the hand was amputated just above the wrist. The patient was getting along very nicely at latest reports.

**ACCIDENTAL SHOOTING.**—Yesterday morning Chas. Mann, residing on Butter creek, while handling a 22 Colton pistol, accidentally discharged the weapon, the ball entering the palm of his hand and ranging upward, striking one of the bones in the hand, fracturing the bone, and thence glancing upward towards the wrist joint. Immediately after the injury he came to town for medical assistance, and Dr. E. T. Gagen, assisted by Drs. Swinburne and Shipley, opened the wound and probed the offending missile, but all attempts to locate the bullet failed. Mr. Mann is doing well at present, and another attempt will be subsequently made to locate and remove the bullet.

**OBSTRUCTION AT HEPPNER.**—Dr. L. F. Shipley was indicted by the grand jury and arrested Wednesday evening, on charge of obstructing meeting at Liberty school house. The case was set for trial yesterday morning, when Dr. Shipley pleaded guilty to the charge, saying however, that was not his intention at all to disturb the progress of the meeting, but was simply discussing a question which had been brought before the gathering. On plea of guilty, the judge fixed the fine at \$20, which was settled.

**A LONG TYPE RECOVERING.**—W. C. Reininger came down from Hardman this week to look after business. Our reporter was surprised to know that he was still carrying his hand in a sling from the effects of the accident he met with up at Parker's mill, by letting his hand come in contact with the saw, which necessitated two fingers being amputated, and the bones taken out back to the wrist joint. But several weeks afterward it was that one of the bones of the forearm was broken, which had given him great pain all the time, though he did not know the cause of it. Now that every part has been fixed up he is in fair shape for recovery, though it will be some time yet before he can use his hand.
