Old Lawn.

UNEXPLORED AFRICA. A Portion of the Dark Continent Yet Unknown.

Objective Point of Exploring Par-ties from Various Nations.

There is yet an unexplored and un niarly from the time the grass and weeds appropriated section of Africa extend-are an inch high until the close of the ing from the scene of Stanley's explorations on the Congo northward to Lake season. A good rule, according to Amertean Gardening, is to cut every time the Tchad, says the Springfield (Mass.) growth reaches a height of about an Republican. It lies east of the equa-inch. The numerous weeds will be torial province and south of the new mostly annuals, the seeds of which were line of the French sphere from the in the numerous weeds with were line of the French sphere from the in the soil, and if none are allowed to Niger to Lake Tchad; it is a rich and grow and seed they will cause trouble fertile country, and said to be one of only for one season, and the grass, if the most desirable possessions in the vigorous, will soon crowd them down dark continent. The London Times

Such perennial weeds as plantain and gives an interesting survey of the man-dandelion should be removed with the envering on the part of France. Gerdandelion should be removed with the spud. These cause little trouble, how many and England for possession of this territory, which touches the spheres of all these nations. ever, in a lawn thickly occupied with thrifty grass. Once each year or second The French scheme is the most am the bet." year the lawn should be treated to a bitious, and it includes a railroad from coat of fertilizer of some sort.

Where an old lawn has a good coat of sward out is too uneven to admit of the may use of the lawn mower, it may be readily improved. The anthority quoted says: "Supposing that in such a lawnrepresented by figure herewith there are two slight protuberances at A A and two depressions at B B. take out a slab of sod at the center of each place, and from these points cut with a sharp spade diverging lines through the sod outward to the edge of the unevenness, as shown in the engraving. Then roll back each strip of sod until the entire surface is turned back Now cut the surplus soll at A A down evenly across the openings and put it into the depressions at B B Level the new surfaces with care, pack ing the loose soil quite firmly return the rolls and slabs of sod and beat well with the back of the spade.

Hybridizing Rosos.

It is only of recent years that efforts have been made to hybridize for distinct choses of roses. Meehan tells in his monthly that Mme. George Bruant which is a hybrid of Kamtchatka rose and the tea rose known as Sombrenil, is now well known and appreciated for its many useful qualities Recently, in the Old World the Austrian brier, which has brilliant golden flowers, has been made to cross with the sweet brier, and it is said that the varieties raised between this cross are singularly beautiful. sweet brier thrives remarkably well in the Atlantic states, in fact, in most of the northern states east and west, and it is a matter of surprise that it is not more generally met with 'There are few things more grateful than the odor of the sweet brier, especially from the leaves in the 17.50 protong the season of beauty to many

JIM GOT A NEW SILK HAT. He Sang "Annie Rooney" on a Chicage Corner Without Attracting Attention.

"Fil bet you a new silk hat that I can stand at Madison and State streets any Chapprontiated Parts of the Country the Objective Point of Exploring Paras three persons."

They were dining in a down-town restaurant, a young Chicagoan, whose name may be Jim, and his New England cousin, George. It was George's first visit to Chicago, and he had expressed simself delighted with all the marvels he had seen. They were talking about Chicago crowds and sipping their wine when Jim made the foregoing statoment. "Why! what do you mean?" asked the

Yankee cousin. "Just what I say-that I can yell 'Little Annie Rooney' at State and Mad-ison streets Saturday afternoon and that there will be such a crowd and roar that not as many as three persons will pay any attention to me whatever." "Pshaw! I don't believe it. I'll take

The next Saturday afternoon the bitions, and it includes group in that part Brazzaville on the Congo-in that part young men much their way to the cor-of lower Guinea given to the French by ner in question. It was rather late, the conference that fixed the boun The shoppers and clorks and typedaries of the Free State of the Conge writers and laborers were hurrying -northward through twenty-five de home. Newsboys whisked about the grees of latitude to Algiers. For five sidewalks yelling as loud as they could, carettes rumbled by, street car bells jangled and the cable gongs kept up a hundred or six hundred miles northward the road would pass through this unappropriated strip, then would come disputed ground, not intended to be in cluded in the French sphere, and which can only be annexed after a prolonged granic blocks. George was game. It was clear that he had never seen the il is before, but he got close to Jim's controversy with Germany and Eng land. The valley of the Shari, includ ing the province of Bagirml and parts ear and shouted:

Ing the province of Bagrani and parts enr and should: of Adamawa and Bornou, lie south of "Go ahead, old man!" Lake Tchad, and are in the territory Jim san; the first stanza ore rotundo, under the eye of the Royal British Niger Company, which would formally three his head back and yelled at the No top of his voice:

She's my sweetheart: I'm her beau; She's my Annie: I'm her Jo. Soon we'll marry, never to part, Little Ausie Rooney is my sweetheart.

One old man who was flung against the singer by the hurrying crowd looked extends castward to the fiftcenth degree at him in an annoyed way and moved of east longitude, and behind this on, and a hot tomale min who had

It is among the earliest of the grapes when in districts during a storm to com-municate with the shore, have been and ruens from two to four weeks ahead aggested. It would be a curious exof Concord.

Floral Notes.

Marshall P. Wilder is a rose of vigorons growth; the flowers are full, well formed fragrant and cherry carmine hue.

The horticultural department of the World's fair proposes to plant a rose garden of 50,000 plants, embracing near ly all known varieties.

Cattelya citrina is a fragrant orchid having the curious habit of growing its head downward. It is of a lemon hue the margin of the lip wavy and white. Eilwanger and Barry call special atten tion to the importance of planting builded roses sufficiently deep so that the june tion of the bud with the stock is from two to three inches below the surface of

the earth. The syrings is a valuable shrub, and where the late flowering sorts are planted the season is considerably extended. Famy gourds trained to trellis or pole are being introduced, with decorative

effect, in many gardens. The Dawson rose, it is claimed, is a valuable addition to the list of hardy
