Hollins has signed papers transfering to his firm, H. B. Hollins & Son, representing the Vanderbilts, of the syndicate holdings of W. W. Gibbs of this city.

That syndicate, which was really hos-tile to Austin Corbin, the late president of the Reading railroad, was held in check by the voting trustees, Austin Corbin, John Wanamaker, John Lowber, Welsh and J. Pierpont Morgan, who obtained control of the Reading stock at a cost of not less than \$8,000,000, and interest at 5 per cent, to the present time would increase that cost to \$8,330,-

In Angust, the syndicate agreement will expire. Long before then the syndicate members hope they will be able, especially with the new Vanderbilt alliance as an anchor, to raise the value of their holdings so as to close out at a 5

DYNAMITE CARTRIDGES.

New Invention for Their Successful Use Developed.

SYRACUSE, N. Y., Oct. 29-This city eems destined to become identified with the development of dynamite cartridges. This was the first and only independent nomination so far filed with the secretary of state. The secretary of state also rejected the certificate of nomination of Frederick Bennetts, of Yonkers, and the secretary of the concern, have successfully continued in the field now. Edward Lefevre, of the Lefevre Arms Company and John Brimer, an employe of that concern, have successfully continued in the field now. ducted an experiment of discharging dynamite cartridges from a two inch

The experiment took place on the old Wadsworth farm near Geddis. Three shells were fired at a range of one-quar-ter mile into the hillside. Each shell sped safely and exploded only when it

These shells in no way infringe on the patent of Dr. Tustin, the only similarity being the use of an outer and inner shell. In the Justin shell the air is used as a custion; in the LeFeyre shell the custioning for the inner sheather which ioning for the inner chamber, which contains the explosive, is accomplished by springs nicely graduated.
