Two narrow escapes from fire last week should be chronicled—both from the use of coal oil at the Palace hotel and the Gazette office. Fortunately they were discovered before any serious damage was done. Chas. Ashbough was in from Eight Mile yesterday morning. In conversation with him Charley informs our reporter that the train is now all in out with them, and never before in the history of the country, was such an area snow.

How to save money is a problem that interests every body. One way to investigate the system is with Ayer's Sarsaparilla. Being a highly concentrated blood medicine, it is the most powerful and economical. It is sold for a dollar a bottle, but worth five.

Owing to the fact that job stock has advanced about twenty per cent from reasons which will be explained elsewhere, we are compelled to make a slight advance on all printing. A reduction will be made as soon as prices of material will justify same. Mr. J. H. Dexter, the traveling advertising man, who just completed a deal with Heppner's merchants last week, returned to Portland last Friday. Mr. Dexter is the man who has ever struck this country, and his work here is giving satisfaction.

Hattie's Congo Oil is rapidly coming to the front as a leading medicine. J. A. Harrison, the Fossil constable, applied it to his legs, which were recently kicked by a horse, and next day he was able to walk. It's the best Harrison says. Lyman Brown tried the oil for rheumatism with which he has been troubled for years, and this is what

he says: "It knocked it after two applications." 54-tf.

Ashbough Bros. were in from Eight Mile yesterday. Mrs. H. Mathews and child left yesterday morning for a short visit with relatives at Centralia, Wash.

Farmers have finished wheat sowing almost everywhere, and are now laying in their winter supply of wood. Troy Phillips made final proof on his pre-emption Saturday, W. W. Hale and Geo. Phillips acting as his witnesses.

The Gazette extends best wishes. It is no easy thing to dress harsh, coarse hair so as to make it look graceful or becoming. By the use of Ayer's Hair Vigor, this difficulty is removed, and the hair made to assume any style or arrangement that may be desired. Give the Vigor a trial.

We have repeatedly requested the settlement of overdue notes and accounts, but without avail. We now give fair warning that we will not be trifled with any longer. So please govern yourselves accordingly, as we must have money to settle our obligations. J. C. Thompson Co. 23

A BIG RUNAWAY.—On Friday evening just before 6 o'clock, the Gazette force was startled by a loud noise near the intersection of August street with Main— which proved to be the windup of a runaway. Lew Smith was on his way to town with a four-horse load of hay, and just north of Tim Bisbee's place was overturned, covering Mr. Smith up. As he could not handle the lines, the team ran away, delivering parts and parcels of the wagon here and there, and when the team had reached the Gazette corner, there was nothing left of the front part of the running-gears except a shattered tongue, an axle and one disintegrated wheel, the wreck having been made more complete by a collision with an electric light pole at the point herebefore mentioned. One of the leaders jumped over into the Gazette's yard, but the remaining horses were still hanging to the vehicle, one of the wheelers being down. Mr. Smith was assisted by two or three others and got his horses out without serious injury.

A GOOD TOWN.—Editor Barnhart, of the Yamhill (McMinville) Reporter, has these pleasant words to say of Hillsboro: "The writer had the pleasure of spending a few hours in Hillsboro one day last week. A very pretty and thriving borough is Hillsboro, not quite as large nor so growthy at the present writing as our own town, but a fine one nevertheless. She possesses a water system that might be the envy of any town. The supply is pumped from deep wells into an elevated tank of 35,000 gallons capacity, which gives a steady pressure of about 40 pounds to the square inch in the mains. When the direct pressure of the pumps is applied to the mains, in case of fire, it can be raised to 300 pounds, as determined by actual test. The plant is owned by a company, and if we are rightly informed, the citizens are served at less cost, both for water and lights, than our own people."

RECIPE FOR SCANDAL.—The following is said by those who claim to know to be a first-class recipe for the manufacture of a pure article of scandal: "Take a grain of false hood, a handful of rumour, the same quantity of nimble tongue, a sprig of the herb backbite, a spoonful of don't you tell it, six drops of malice, a few drachms of envy; add a little discontent and jealousy and strain through a bag of mis-antraction; cork it up in a bottle of malevolence and hang it up in a skein of street yarn; keep it in a hot atmosphere and shake it occasionally for a few days and it will be fit for use. Let a few drops be taken before walking out and the desired result will follow."

A SMASHUP.—On Saturday while on his way home from Heppner with a load of provisions, Lime Swick met with an accident on Little Wall creek in which one of his horses had his neck broken and the vehicle was more or less damaged. Mr. Swick escaped unhurt. In proceeding down the big hill his brake refused to work right and he stopped to repair it, checking the wagon with a rock. This proved too small an obstacle, and the wagon rolled on over. The team could not hold the vehicle, and a smash-up was the result, ending as heretofore mentioned.

EVERYTHING BUT THE COOK STOVE.—Notwithstanding the natural disposition of the people to hold fast to that which they have, particularly at this season of the year, there was considerable betting in Arlington on the result of the election, ranging from twenty-dollar pieces by the handful, down to horses, cows, suits of clothes, hats and boots, while our friend Phil Heppner was ordered and lost to Mrs. Easton a dozen chickens. By the way, we learn that these chickens are to be in the pot for the democratic snapper this (Friday) evening.—Arlington Record.

TEMPERANCE CAUSE.—Mrs. Harford, state lecturer of the W. C. T. U., who was billed for a lecture here Saturday evening, did not make her appearance, owing to the fact that the train was two hours late. However, she filled the appointment Sunday morning at the Baptist church, apologizing for her failure to appear the evening before by saying that it was impossible even for temperance lecturers to make all dates, when the trains didn't run. Sunday afternoon

Mrs. Harford spoke to the ladies of Heppner at the M. E. church, South, also organizing a W. C. T. U., which starts off in flourishing condition, with more than twenty-five members. In the evening, she delivered a lecture on "Compensation," at the Baptist church, to a crowded house. During the course of her remarks, other matters that are now agitating the minds of the American people, were discussed. The Mormon, the race and women's suffrage questions were not forgotten. At the close of the lecture, which was very interesting, a collection was taken up, amounting to \$8, making a total of \$15 collected here. From the many remarks heard on the street yesterday morning, one could not help being convinced that Mrs. Harford had stirred up the minds of many of the people on both the temperance and suffrage questions, as Heppner now has several strong advocates of both. Mrs. Harford is a talker rarely excelled in her line, though the weight of her remarks were slightly affected by the political cast with which she closed her Sunday evening's lecture.

ITS EFFECT ON WOOL.—Instructions have been received at Arlington from Boston wool men to the effect that they will not carry any more advances on fleeces. The prospect of free wool has knocked the bottom out of the market, and those who have made advances will be happy when they see their coin again. The Baldwin Sheep & Land Company are rejoicing that it disposed of the greater part of its clip before the trouble came, and is now figuring on cutting down expenses, and looking forward to marketing more mutton sheep. This company employs 30 or 40 handers, and has one of the largest herds of sheep in the country. It believes it to grasp the situation by the wool.—Oregonian.

FROM THE TRAIN.—George and Uzz French got in last night from Colorado. The boys report a tough trip, striking quite a blizzard over this side of Cheyenne. They fed for a day or so, when the snow became crusty and they drove into the capital city. George says this is his last trip over the trail, but our reporter did not interview Uzz on the subject. Dan Neville is also expected in quite shortly.

TURNED LOOSE.—T. C. Stearns, who was brought up from Eugene Friday by special deputy, Johnny Keeney, to answer to a charge of being implicated in the attempt to swindle Sheppard, was examined Saturday and turned loose. It could not be proven that he had anything to do with it, and besides he had all of sale for the team claimed by Sheppard. It would now seem that Jones would be left to bear the whole burden and do the whistling.

THOSE BLANKETS.—Purchasers are finding great bargains in those single and double blankets that Fell Bros. are offering at such low figures, for they find them neither shoddy nor part cotton, but what we say—all wool. Why they sell them so cheap is easily explained. They give the purchaser a bargain when they get one. The blankets sell themselves. 542-tf

FIRE.—Roub Sperry brings up word from home that the residence of John Long, who was married recently to an estimable young lady of that neighborhood, was entirely destroyed by fire; also saving nothing of the contents but some bedding. The loss will foot up about \$500 on which there is no insurance. This falls pretty hard on the young couple.

A NEW NEIGHBOR.—Geo. W. Lord has moved into the former art gallery over Messrs. Brown & Hamilton's office, and has taken over the architect's work. He is prepared to contract for all kinds of buildings, or will supervise construction, and purchase material for the same, giving his customers the benefit of his experience and percentage. 532-tf

STRAYED.—A four-year-old steer, branded H P on the ribs on right side; also same brand on right hip and on right still; but split in right ear. Any information leading to recovery of same will be cheerfully rewarded by Bob Dexter, Heppner, Or. 538-sw

MINOR PIE TIME.—P. O. Thompson Co., have received a fresh supply of Seedless London Layer and Muscoville raisins; citron, orange peel, Zante currants and sweet corn. So eat minor pie, laugh and grow fat. 23

ROUGH DIAMOND COALS.—Without an equal, and for years the leading coal in the city, is sold at Mac Francisco wholesale prices, by lots of 100 or 5,000 at J. Cobb's. 35 44
