Soc ety Man. "Why on earth," said a New Yorker the

A New Yorker's Plan as Described in The American Agriculturist. Corn should be cut for fodder as soon other day after an hour's walk on Broad-way, to a Shoo and Leather Review coras the kernels begin to glaze on most of respondent, 'do women who havon't got the larger ears. At this time, if no pretty feet, and who know they haven't frosts have occurred, the leaves are got pretty feet, if they know any thing at all about themselves, wear just the at all about themselves, wear just the footgear that puts their foot at their very wornt? A woman with big, shape-less foot or crooked foot can afford to wear but one kind of boot-a laced one-and never a low shoe under any circumstances. A button bood does all very well for the first few days while it still buttons trim and saug about the ankles, but every woman knows that it does this for a fow days only; then it loosens and begins to take on the shape good condition. The juices in the well tied at the top the fodder will cure in good condition. The juices in the stalks will be sufficient to ripen the un-matured ears, so that husking may com-mence in earnest in about fifteen days. In dry sunny weather it will pay to leave the corn fodder spread on the ground for a day or so to dry out and harden, more especially if to put away in large bulk. It will also be foand a loosens and begins to take on the shape good plan to sort the corn when husk-of the foot, exaggerating its peculiaritics every day just a little. And by and by, before the bost is half worn out, it is a kind of car cature of her foot, with every defest and imperfection exagger-ted. The best is calibed without removing

SECURING THE CORN CROP.

ated. The laced boot doesn't do this, because it can be drawn up every morn-ing like a new boot, halding the foot always firmly and securely and so acts as a corrective against any tendency the foot has to be ill-shaped and spreading. and short they are not bound in the bun-But women do not seem to have discov-ered this at all, or in very few cases, and weather beaten, dirty and useless as fodso they go on buttoning up their street boots with as much satisfaction as if they weren't giving the best possible opportunity to their feet to be as pulpy and spreading and crooked us they choose." weather center, birty and screes as four der; hence caution should be exercised on this point. The best ears should on selected for seed. As the stalks contain a vast amount of moisture they should not be placed in large stacks or in close barns until late in the season, as they will be quite certain to heat and mildew choose.

THE TOLEDO WEEKLY BLADE.

unless a layer of dry hay or straw be placed between each layer of bundles. The most popular and best knows weekly newspaper printed in this country is the Toledo Blade. For more that twenty years it has had a circulation of 100,000 to 200,000, going regularly int every state and territory of the union From fifteen to twentyfive tons of prinpaper is consumed in each week's edition and is regularly mailed to more than half the postoffices of the United States half the postoffices of the United States It is a peculiar fact that the Blade is the of stores, and the variation is so great only weekly newspaper published that has regular subscribers in all parts of the of honey may be spared from those that United States. It is edited with special have plenty to supply the needy. reference to the wants of all people in all sections. It is also made to interest every member of the family. Besides all the news of the world, it has Seriaand Short Stories, Wit and Humor, P -etry, Campfire, Farm, Sanday School Lessone, Young Foiks, Poaltry, Puzzles, candy may be "run" directly into the Lessons, Young Folks, Poaltry, Puzzles, Household, Answers to Correspondents, etc. As a special feature for 1893, Mr. Robison Locke, editor and proprietor of the Blade, has just sailed for Japan, and will contribute a series of illustrated letters on the manners and customs of that peculiar country and its people. Tress articles will be commenced some time in February or March, and will be worth to the readers of the Blade many times the subscription price. Every reader of this paper is invited to send for specimen copy. The publisher of the Blade would be glad to send a specimen
