Fond of Cats.
 Newark has a most eccentric woman
 She is old, and is said to be just as
 she is eccentric. Her sole compan-
 ions are cats, and the house fairly
 swarms with them. She holds an idea
 that her feline pets are more human
 than men, and, therefore, she rolls up
 the money she receives, when rolls up
 small packages and gives them to her
 cats, saying: "Here pussy, put this
 away for me." Her home is littered
 with money, it is said. Under the car-
 pets, in the corners, in rat holes and in
 every conceivable place bills and coins
 are stowed.

World's Fair
 The World's Fair will be opened
 promptly on Monday, April 15, and
 every report to the contrary, every-
 thing except, possibly, a few minor
 details, will be completed and in readi-
 ness for inspection by the public.

More than \$16,000,000 has been paid
 out thus far by the Exposition Company
 alone in preparation of the Fair. An ex-
 penditure of six or seven millions more
 will be made.

Tjeldie, the Norwegian sculptor of
 Minneapolis, will represent Hiawatha
 bearing Minnehaha in his arms across
 the water during the Exposition, to be
 in the form of a statue for the Minnesota
 building at the World's Fair. The con-
 ception is said to be exceptionally fine,
 and, after being produced in plaster for
 presentation during the Exposition, it
 will be cast in bronze and placed at
 Minnehaha falls in the state park. The
 ladies have gathered the sum required
 for this sculptor by means of penny con-
 tributions in the seasonal. Mrs. H. T.
 Brown, of Minneapolis, one of the lady
 managers for the state, has been par-
 ticularly active in the enterprise.

Italy, which for a long time declined
 to participate in the World's Fair, has
 made an appropriation of 27,500 lire, or
 about \$55,000, for its representation.
 The Italian Chamber of Commerce and
 other financial interests have also
 supplied funds with liberality.

Visitors to the World's Fair will have
 the opportunity of going to the roof of
 the Manufacturers building—the largest
 in the world—and enjoying there a
 half-mile promenade. Four elevators,
 with a capacity of 600 an hour, will take
 the people to a great platform, 200 feet
 above the floor, from which a magnificent
 bird's-eye view will be afforded of the
 entire of the mammoth building with
 its acres of exhibit beneath. From the
 platform the visitors will pass to the
 promenade on the roof, where an un-
 surpassed bird's-eye view of the entire
 grounds and buildings will be unfolded.

The women of Mississippi, who are
 patriotically endeavoring to have their
 state creditably represented at the
 World's Fair, will build a fortification of
 cotton bales on the grounds, represent-
 ing Vicksburg during the siege. One
 hundred bales of cotton will be used in
 building the fort, and on the inside will
 be exhibited all the products of the
 great staple. The women will ornament
 their cotton fort with numbers of historic
 cannon, flags, and other relics of the
 war.

The 40,000 souvenir quarter-dollars,
 which Congress authorized to be minted
 for the benefit of the World's Fair, will
 be put into circulation by the Treasury
 department on Monday, April 15. These
 coins are of a peculiar interest for
 several reasons. In some respects the
 Isabella quarter is a much greater
 novelty than the Columbian half-
 dollar, as the coins bearing the Spanish
 Queen's portrait are more numerous in
 number. The act of Congress authorizing
 their issue only provides for the
 mintage of 10,000, or 40,000 quarters,
 hence there is every reason to believe
 they will be extremely rare. They are
 certain to command the attention of
 women the world over, since they are
 the first recognition by a government
 of the position that women are attaining
 in art, industrial, and social movements.
 Undoubtedly the women of the country
 will regard this as their special honor,
 and, as few will be proportionately
 great. The coin itself will be a work of
 art. The same care and painstaking
 attention will be devoted to this issue
 as was given to the Columbian half-
 dollar. The coins bearing the Spanish
 Queen's portrait are more numerous in
 number. The act of Congress authorizing
 their issue only provides for the
 mintage of 10,000, or 40,000 quarters,
 hence there is every reason to believe
 they will be extremely rare. They are

It should be in Every House.
