- Did you ever Read about the Man who Hid his Light under A bushel? Yes? well That is like Doing business Without advertising. FROM CHICAGO.

I left Heppner on Monday, April 10th, and after a tedious, though pleasant trip, arrived in Chicago on Friday, April 14th. Chicago is a world within itself one of the busiest places I ever saw. Everyone seems to be in a hurry. Men women and children rush their way through the streets as though they were just a little late for the only train that is about to start for the only gold mine on earth, and in which they are to have a fortune simply by going and calling for it.

The weather is about as disagreeable as weather can be—rain and mist and clouds. Portland weather at its worst would have to be ashamed of itself when compared to Chicago weather.

The city seems to have a great attractive power for all the moisture in Northern Ill. They will not have settled weather here until the first of June, so I am told. I went to Jackson Park to witness the ceremonies of opening the World's Fair. With rain, sunshine and mud on one side and Grover Cleveland on the other, I managed to get in a pretty good day. When "Old Grover" touched the button, the flags of all the nations of the earth were unfurled, the cannons boomed and the machinery in the great machinery hall was set in motion. The crowd of people was simply immense. It was impossible to move, except with the crowd. The mud was ankle deep. A simple sandwich on the grounds was sold for the modest sum of 40 cents. Whoever buys "grub" on the fair grounds, ought to appreciate what he gets, for he will have to pay enough to make him think he had an elegant meal.

The fair, so far as the present is concerned, is a failure. I advise no one to come here before July or August. It will take until that time to get the exhibits in order and the buildings finished.

The way they have it here now, is like moving into the summer kitchen, which is just being built with nothing but the frame up. Again I say, do not come here before July if you don't want to be disappointed. The best time will be September and October.

Well, I found the American College of Dental Surgery all I expected and more. I am thoroughly pleased with the institution. The facilities they have for studying and teaching practical dentistry are all that could be desired. I expect to return in a few weeks.

CHICAGO, May 3, 1893.

CARLENE HARRIS was electrocuted today, and the outraged law has been satisfied. Whether guilty of the crime of murder or not he has suffered the extreme penalty of the law, and if innocent, the wrong done him and his family can never receive just reparation. It is in order now for the papers that have loudly demanded his death to feel fully satisfied, and in their post-mortem editorials not to draw the frailties of Harris "from their last abode."—T. M.

The Astoria Budget says: "Samuel L. Simpson, by all odds the best news paper writer on the Pacific coast, has just finished a course at the Enos Institute at Portland, and next week will take a position on the editorial staff of the Budget. The liquor habit was Sam's only failing, but he now feels confident that he will never again taste it. He is a man of acknowledged ability, high attainments and can obtain a high salary, or higher, than any

writer on the coast." All persons who have been, or are now associated with the newspapers of the Northwest, will be delighted to learn of Mr. Simpson's good fortune in being restored to a position where he will command respect by sustaining the dignity of his position and ability as a writer. Mr. Simpson's greatest effort was his poem "The Willamette."

LITTLE is now heard of "tariff reform" except among our sheepmen. Sheep and wool are showing the effects of the tariff agitation, at last. Free wool is not what the sheepmen should be clamoring after, and we doubt if they will endorse it, even though some of them are life-long democrats.

THROUGH the kindness of the West, the gold reserve is again intact. Wall street, on the other hand, is holding back in order to force the government to go deeper in debt. Use the gold reserve; and the silver too; it is of no use hoarded up.

GEN. CORSE, noted for his saying "I can fight like a—yet," after he had had his cheek bone shot away in an engagement during the war, died a few days ago. The general was one of the bravest who took up the cause of the Union.

It is generally understood that Heppner and Pendleton are not "in it" for the asylum. The race, so far, seems to be between The Dalles and Union. Both places, in the minds of the commissioners, offer splendid sites.

RECIPROCAL relations between the United States and some of the South American countries have been discontinued. This is the first step toward the degradation of American labor.

CONTINUE the single standard idea and America and the whole world will be bankrupt. There is not gold enough to go 'round, and silver should be restored to its old place.

O. A. R. NOTICE.

We take this opportunity of informing our subscribers that the new commissioner of pensions has been appointed. He is an old soldier, and we believe that soldiers and their heirs will receive justice at his hands. We do not anticipate that there will be any radical changes in the administration of pension affairs under the new regime.

We would advise, however, that U. S. soldiers, sailors and their heirs, take steps to make application at once, if they have not already done so, in order to secure the benefit of the early filing of their claims in case there should be any future pension legislation. Such legislation is seldom retroactive. Therefore it is of great importance that applications be filed in the department at the earliest possible date.

If the U. S. soldiers, sailors, or their widows, children or parents desire information in regard to pension matters, they should write to the Press Claims Company, at Washington, D. C., and they will prepare and send the necessary application, if they find them entitled under the numerous laws enacted for their benefit. Address PRESS CLAIMS COMPANY, JOHN WEDDERBURN, Managing Attorney, Washington, D. C., P. O. Box 385.

FROM TEXAS.

I have been in Texas three years, growing cotton. We have a reasonably good climate, fair health. Yet we (myself and family) are not satisfied with some things here. We do not have the fruit and vegetables we would like, we can grow some vegetables very well when we have rain sufficient, but we can not keep them till winter. We also dislike the cyclones and hail storms to which this country is subject.

I might enumerate many other objections, but some one would, perhaps, say, "he is a chronic grumbler." I frankly acknowledge that Texas has many advantages; but would like to change to a country where one can grow and keep fruit and vegetables. So I ask the readers of the Gazette to give

through its columns, all the information they are concerning that part of Oregon. It would be of interest not only to me, but to others who would like to produce what they consume, and not depend so much on the grocery stores. There are many here renting land on which to grow cotton, working themselves and families hard to make a support, who would gladly go to the Northwest if they were only sure they could stand a chance there to work out a home, without a capital to begin with.

TEXAS. STEPHENSVILLE, TEXAS, April 25, 1893. EIGHT MILE MATTERS.

Early gardens are looking green. We are having fine spring weather at present, which is beneficial to crops. We are looking forward to a pleasant time on Decoration Day at Lexington.

Mr. and Mrs. J. H. Jones spent last Sabbath with Mr. and Mrs. Case Fuqua. J. S. Young is in want of a farm hand. Anyone wishing employment should call on him.

We are pleased to hear that Henry Adkins has recovered from a severe attack of rheumatic fever.

C. B. Stanton is busy breaking up the farm which he recently purchased of Mr. Polly, of Washington.

Chas. Edward Sevenocks is willing away his lonely hours at present herding sheep for Ashbaugh Brothers.

The farmers are not at all down in the mouth. The bright, green smile of the wheat field at present cheers them.

Mr. Oliver Cox has removed to Hardman, on his farm which he recently purchased of Mr. J. Miller. But we are pleased to hear that he expects to return to Eight Mile soon.

Rev. R. C. Motor preached at the Eight Mile Center school house on April 24, 25 and 26. His first subject was, "The Kingdom of Christ"; second, "Continued Existence"; third, "The Sabbath."

The people of Eight Mile are talking of having another Fourth of July celebration at Eight Mile. The last one was such a grand success that they feel encouraged to try again. Though a few have married since last Fourth, yet we are not all dead.

U. N. O. EIGHT MILE, May 2, 1893.

"I Am So Tired" Is a common exclamation at this season. There is a certain bracing effect in cold air which is lost when the weather grows warmer; and when Nature is renewing her youth her admirers feel dull, sluggish and tired. This condition is owing mainly to the condition of the blood, and its failure to supply healthy tissue to the various organs of the body. It is remarkable how susceptible the system is to the help to be derived from a good medicine at this season. Possessing just these qualities, building up qualities which the body craves Hood's Sarsaparilla soon overcomes that tired feeling, restores the appetite, purifies the blood, and, in short, imparts vigorous health. In thousands of friends as with one voice declare "It Makes the Weak Strong."

THE WESTERN PEDAGOGUE. We are in receipt of the May number of our state school paper. It exceeds any of the former numbers in value. The paper this month contains many new and valuable features. The illustrated series on the schools of the state is introduced by a paper on the Friends Polytechnic Institute at Salem, Oregon. These papers cannot fail to be of great value both to the schools and to the public.

There are also several fine articles by our best writers and the departments, "Current Events," "Saturday Thoughts," "Educational News" "The Oracle Answers, Correspondents," etc., each contain much valuable reading for teachers or parents. The magazine has about 50 pages of matter, well printed and arranged. We pronounce the Western Pedagogue the best educational monthly on the coast.

Everyone of our readers should have the paper if they are at all interested in education. No teacher school director or student can get along well without it. We will receive subscriptions at this office. Price only \$1.00 a year. When desired we will send the Western Pedagogue and Gazette one year to one address for \$3.00. Call and examine sample copies. Teachers, directors and parents, now is the time to subscribe. If
