A Baltimore Freak.—A Baltimore freak is a frog of good size and a trade light in color, but apparently not different from any other frog. The freakishness developed when his frogship was worried, when instead of hopping off or giving utterance to the deep, sonorous note usually heard from frogs, he simply opened his mouth and cried. The frog is neither hot human, and suggests, not in tone and volume, a loud gavelstroke. The cry is not a single note, but several, and is continued even after the annoyance ceases.

Made Over New

Chronic Headache Cured—Weak Lungs Made Strong and Well.

"For years I had sick headaches every day, and I also had very weak lungs. Since I have been taking Hood's Sarsaparilla, I have been entirely cured of headaches, and my lungs are strong and well. Friends often say 'How Well You're Looking.' I tell them it is due to Hood's Sarsaparilla. I am—am small in stature—never weighed over 100 pounds before taking Hood's Sarsaparilla—and at the time I began taking it I had run down to 65 pounds, but now I weigh 115 lbs. My friends thought I would be dead—long ago, but I am perfectly well. I am unable to express my thanks for the good Hood's Sarsaparilla has done for me." Mrs. C. B. Mrs. Nourse is a comrade of the Patterson Bros. Hood River Glacier: It was thought for a while there would be no peach crop here this year, but at present there is promise of at least a fair yield. All other fruits promise to yield abundantly, though with present weather outlook the strawberries will not be ripe before the 25th.
