BORN FOR THE PLACE.

The Washington correspondent of the Oregonian says: Henry Blackman, of Heppner, candidate for collector of internal revenue, has been here several days. He thinks now there is an opportunity for him to secure the place. There was a time when it looked as if the collectorship would go to a Washington man, but the quarrel which the Washington democrats have among themselves makes it possible for Blackman to win. The statement that Banker Bush made several months ago, when some other demagogue aspired to be collector of internal revenue, is in a fair way of realization. The old Oregon demagogue warlike said: "Why, don't he (the candidate) know that the little Jew up at Heppner was born for that place?"

GOVERNOR PENNOYER, in response to the World's query regarding a commercial division of the United States, telegraphed as follows: "The Southern and Western states are now really the bond slaves of the Eastern states. Between Eastern protected interests and the Eastern gold-bug, bond-holding oligarchy, they are enduring greater oppression than our forefathers endured when they rebelled against Great Britain. They ought to secure either fair play or commercial freedom. I cannot tell what result the proposed convention would reach, but I can tell what it ought to reach in one respect: If congress refuses to coin silver on the same conditions as gold, into full legal tender money, the convention should recommend that the states which are denied the right to coin money and to make anything but gold and silver legal tender, should meet the emergency occasioned by the refusal of congress to perform its constitutional duty of coining both gold and silver by making the Mexican dollar full legal tender in payment of all debts, as the necessary means of relief of their people."

The senate's refusal to seat Mr. Mantle, of Montana, which in effect excludes all the senators appointed by the governors of states, because of the failure of legislatures to elect, was a disappointment to the people of Wyoming. However, Governor Osburn has affirmed the report that he would refuse to call a special session of the Wyoming legislature to elect a senator. Some democratic adherents of the free-coinage men are trying to induce him to call a special session, but the governor says he would not be justified in putting the state to the expense. Besides, he fears that a republican senator would be elected.

The veto power should be taken away from the president. That he should be set up as wiser than a majority of both houses of congress, is giving too much authority to one man. Queen Victoria has no veto power, nor have governors in some states of our country. If a majority in congress pass laws, this should be sufficient. The president is but the executive, and his power should end in seeing that the laws are administered. This veto privilege has always been a menace to our government, and now that it is strictly a "one-man government," it becomes infinitely more dangerous.

W. R. ELLIS, the tall, black-whiskered member of Oregon, seems to be very well pleased with congressional life. For the present Mr. Ellis will not

bring his family to Washington, as he is not yet informed as to how long congress will remain in session. His family is now visiting old friends in Iowa, and he expects them to arrive in Washington in about six weeks. Mr. Ellis should make a very good impression in the house and be of great assistance to Hermann in securing legislation for Oregon.—Oregon's Wash. Correspondent.

SENATOR MITCHELL has introduced a bill to reduce letter postage to one cent per ounce. He has been a strong advocate of this measure, but the trouble in securing legislation of this kind heretofore has always been the opposition from the postoffice department, because there was not sufficient revenue from the postal system to carry on the postal business of the country, and congress refused to appropriate larger sums.

IT IS understood that Boies accepted the third term nomination as democratic candidate for governor of Iowa, on condition that he should go to the senate in the event that his party should have control of the next legislature. This he ignores the long established custom for the sake of being senator. However, we predict that he will get "neither" plum.

ABOUT 800 depositors of the suspended Portland Savings bank held a rousing meeting last Thursday evening. The gathering was a stormy and clamorous one, and condemned President Dekum and Receiver Thompson in no mild terms. It was resolved that a disinterested person be appointed in the latter's stead. J. W. Corbett was selected for the position. The motion to seat Lee Mantle as senator from Montana was defeated by a vote of 35 to 30. Ten republicans opposed the motion, while as many democrats favored Mr. Mantle. This decision virtually kills Allen, of Washington, and Beckwith, of Wyoming. Those states now talk of calling an extra session for the purpose of electing senators.

IT LOOKS now that the president has won over all the doubtful members of the senate, and that unconditional repeal is inevitable. If this is forced upon the country, without any provision for silver, there will be such a popular uprising of the people as will lay the old parties up on the shelf for all time to come.

REPRESENTATIVE GEARY, author of the Chinese exclusion act, called on Secretary Gresham recently and urged him to enforce the law with the small amount of money on hand for that purpose. It is understood Geary received very little satisfaction, as Secretary Gresham adhered, in his views, to the present policy of the administration in the matter.

WALL street bankers, the head of financial knavery, are advocating, yet, demanding the unconditional repeal of the Sherman law. When bankers get frightened, particularly Wall streeters, you can rest assured that they fear something is going to be done for the benefit of the people.

GOVERNOR PENNOYER has decided not to call a special session of the legislature for the purpose of passing a stay law. From the many letters and communications received by him opposing this step, it was quite clear that the country did not want such a law.

ALTHOUGH Governor Boies had firmly declined to be the democratic candidate for governor a third term in Iowa, he was re-nominated by acclamation by the convention last week. Before snow dies he may wish that he had adhered to his former resolution.

THE first of the suspended National banks in Oregon to reopen is the First National bank at The Dalles. That city rejoices because her bank was the first to receive orders to open.

AN ENTHUSIASTIC silver meeting was held in New York City last Thursday. Congressmen Bartine and Bryan, Gen. Warren and others addressed the gathering.

THERE is a report that Governor Penoyer affects a pink shirt. We do not care what color his shirt is if he will only keep it on.—San Francisco Post.

THE conditions of the Portland Savings bank is reported not very flattering. Depositors fear that they will never be paid in full. ZIMMERMAN, the champion cyclist, rounded the mile championship record 23.5 seconds at Indianapolis recently. HERMANN made a grand appeal for the free coinage of silver in the house

OREGON SCHOOL FOR DEAF-MUTES. To Parents and Guardians of Deaf Children: School will re-open for the next regular term on Wednesday, September 13, 1893. Parents will confer a favor on the teachers and officers of the school by returning the pupils promptly on the opening day, and it should be borne in mind that places cannot be reserved in the classes or in the dormitories for pupils who fail to arrive at the proper time.

With a view to encourage affections and strengthen family ties, as well as to break the monotony of school routine, it has been decided to grant a vacation of one week at Christmas. It will, however, be entirely optional on the part of parents to take their children home at that time, and those pupils who remain at the school during the Christmas vacation will share as far as possible in the gladness of the festive season.

Arrangements are being made to secure a library of about three hundred volumes, selected specially to meet the requirements of deaf children. It is hoped that every pupil, from the youngest to the most advanced, will find in picture or in text something at once interesting and instructive. The books are meant not only to while away an hour that might otherwise be given over to indolent listlessness, but also to the reading habit, and to foster in the minds of the pupils an enduring love for the society of good books.

It will be unnecessary for pupils to fetch bedding when they return, as blankets, sheets and pillow-cases will be supplied free of charge. Those pupils who have mattresses here will continue to use them till the close of the term and then take them home. On leaving home each pupil should be fully supplied with clothing and underclothing, and all articles should be plainly marked with pupil's name. Parents are requested to leave a sum of money for shoes, repairs, stamps, and incidental expenses, in care of the superintendent. Parents who leave money with their children must assume all responsibility as to the manner in which it is spent.

According to law, the State Board of Education, consisting of the governor of state, and superintendent of public instruction, now constitute the Board of Trustees of this school. Officers for the ensuing term have been appointed as follows: Superintendent, Mr. B. Irving; Teachers, Mr. J. B. Early, Miss Lizzie Early, Miss Winnie Emerson; Matron, Mrs. L. A. Irving; Assistant Matron, Mrs. E. T. McLean, who has held a similar position in the Wisconsin school for several years; Boys' Supervisor, Mr. G. A. Pierson; Printer, Mr. J. D. Bower.

A full attendance is anticipated, and all officers and pupils are expected to join unanimously in making a happy and successful term.

Respectfully, B. IRVING, Superintendent. Salem Oregon, Aug. 12, '93

MOKE ARRESTS.

The Holiday Causes the Arrest of Three of Heppner's Young Men—Examination Today.

The highway robbery of last week caused the arrest of three of Heppner's young men, Frank Sloan and Newt, and Frank Jones. The first-named and Frank Jones were arrested Saturday last, both giving bonds immediately. Newt Jones was apprehended Sunday, and like the others gave bonds without trouble.

Our readers will remember that Sloan was one of the parties held up, and it is charged that he was an accomplice to the robbery, while the Jones Bros. did the work of collecting the valuables. The warrants were sworn out by J. A. Thompson, the principal loser by the incident.

The examination began this morning at 10 o'clock before Judge Hallock, Judge Bennett defending and G. W. Rea on the prosecution. The friends of the young men, and they are legion, do not understand how they would take this means of getting a few paltry dollars when it was wholly unnecessary. The impression prevails that they will be discharged, though this is only a matter of conjecture.

NEW RESTAURANT. I have opened a first class restaurant at the old Matlock building called Holton restaurant. Mrs. G. W. Stewart.

AFTER HOUSE THIEVES—Geo. Harrington left last Friday with warrants of arrest for John Doe, et al., who are cattle thieves this time. Mr. Harrington will probably not be in for some time, as he proposes to catch the culprits if possible. These are the parties who are charged with being responsible for the disappearance of the Butte creek cattle.

Attempt at Suicide.

It Might Have Been Prevented.

[From the Boston Post.] While the walks in the Public Garden were crowded yesterday afternoon about 4:30 o'clock, the entrance gate at the corner of Beacon and Charles streets were reportedly to see a man suddenly plunge a knife repeatedly into his throat and fall to the ground.

While waiting for a conveyance an officer questioned the would-be suicide, who was about 50 years of age, as to his name, address, and reason for wishing to end his life, but the man steadfastly refused to give any information regarding himself. He was taken to the Massachusetts General Hospital and surgical attendance given him. Although the would-be suicide is probably in a weak from loss of blood it is probable he will recover. About 9 o'clock last night a hospital attendant got a little information from him. He said his name was Samuel D.—and that he came some weeks ago from New Brunswick. The last few days he had been feeling queer, and he had been wondering about the city, not knowing which way to turn. What impelled him to commit his rash act he was unable to say.

The above is the familiar but terrible story of the results of mental derangement caused by restraint of the nervous system. People who have dizziness, headache or back-ache, or who are troubled with melancholy or dependent feelings, are already well on the road which leads to insanity and suicide.

It Tastes Good. Scott's Emulsion.

One reason why Scott's Emulsion of Pure Norwegian Cod Liver Oil and Hypophosphites of Lime and Soda has had such a large sale is because it is "Almost as palatable as milk;" but the best reason is that its curative properties are unequalled. It cures the cough, supplies the waste of tissues, produces flesh and builds up the entire system.

Scott's Emulsion cures Coughs, Colds, Consumption, Scrofula, and all Anæmic and Wasting Diseases. Prevents wasting in milk. Get only the genuine. Prepared by Scott & Bowne, Chemists, New York. Sold by all Druggists.

PATENTS FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringing on others, submit the matter to us for a reliable OPINION before acting on the matter.
