The shadows of free trade is still hovering over our country. It is doing more damage than one hundred Sherman laws.

The election of U. S. senators by a direct vote of the people, an income tax and the "initiative and referendum" are gaining ground with the masses. Less burdens and purer government are needed.

The story has gained ground that Dr. Graves is not dead at all, but that he is alive and well in a foreign country. It is said that the body found was made of wax, and that the coffin contained a pine log. Holy Denver officials are said to be implicated.

The Grange is indebted to the Oregon Farmer's Alliance, Oregon Knights of Labor, Oregon State Grange and Portland Federated Trades Assembly for J. W. Sullivan's little book on "Direct Legislation by the Citizenry through the Initiative and Referendum." It is a most interesting volume, worth the perusal of anyone.

The gold reserve is still going lower. Until the country goes to full and absolute bimetalism, this so-called reserve will still grow smaller. As our country with a free hand further encourages the world to adopt the single standard, against our own interests, just so long will there be a clamor for the scanty supply of Shylock's gold. With our present laws it would take a gold reserve of a billion dollars to keep us up. As long as legal tender paper of gold notes are issued, and all other forms of currency are redeemable in the yellow metal, it will be an easy matter for the gold broker to drain us of our twenties. The Sherman law, administered by a gold-bug, is bad enough, God knows, but it is the only barrier between complete monometallism and a double standard. With wheat and cotton sold in competition with India, and the purchasing power of our money augmented one-half, it is no wonder prices of products are low. And the more we lend a hand to the further debasement of silver, just that much lower will all of our products go. Wages, through the efforts of organizations and our protective features, are higher in proportion than anything else. But they, too, are catching the general depression, and will go down. It isn't the silver that is hurting us, but it is the enhanced value of the gold dollar.

POMEROY'S ADVANCE THOUGHT is red hot for free coinage of silver into full legal tender money for the payment of any and all debts maturing in the United States. During the past summer its editor has been a day and night student in the Library of the British Museum, in London, and has dug out several chapters of important facts of history relating to the coinage of gold and silver, the making and use of money in England, and many other matters of commanding interest that will appear from month to month, from copy already prepared, and commencing with the October number. He has learned who is benefited by gold coinage. Why the coinage of silver here in the United States is so opposed in London, by Jews and other money-lenders, and why the American laborer is so much better as a mechanic, and does so much more work than an English working man. Advance Thought is sent one year, one year for one dollar. Ten copies ordered at one time for five dollars. Address M. M. Pomeroy, World Building, New York City.

Why don't Mr. Cleveland suspend the purchase of silver until the bullion now on hand is coined into dollars and save all this twaddle about the repeal of the Sherman act? He suspended the enforcement of the Geary act compelling the deportation of Chinese who failed to register, and he has the same right to suspend the purchase of silver. Send the senators and congressman home, Mr. Cleveland, and run the government in person, not by proxy.—Arlington Record.

Life is misery. To many people who have the taint of scrofula in their blood, the agonies caused by the dreadful running sores and other manifestations of this disease are beyond description. There is no other remedy equal to Hood's Sarsaparil for scrofula, salt rheum and every form of blood disease. It is reasonably sure to cure.

Messrs. C. V. Brock and C. J. Bright, representatives to the Grand Lodge from Aurora Lodge No. 54, returned Friday. They speak in the most complimentary terms of their entertainment during their sojourn at Heppner. It was expected that the citizens of a little town would display considerable lack in making the visit of the Knights pleasant, but their anticipations were completely eclipsed in the treatment received. It seems that everyone in the city constituted himself a committee to extend a welcome to the visitors. Not only was the freedom of the city extended to the grand body, and everything possible for the enjoyment of the guests was done in a liberal manner. The representatives will always have a warm spot in their hearts for the citizens of Heppner.

From the Woodburn Independent. The people of the city of Heppner deserve a great deal of praise for the splendid manner in which they entertained the members of the K. P. Grand Lodge last week. There was nothing left undone that could add to the enjoyment and comfort of their guests, and the occasion is one that will long be remembered by all those who attended.

From the Roseburg Review. F. W. Carroll returned a few days since from Heppner where he attended the K. P. Grand Lodge. He introduced a resolution naming Roseburg as the next place of meeting and secured 63 out of 115 votes in its favor, but Portland was victorious. It is virtually settled, however, that the Grand Lodge will come to this city the year following that.

AGRICULTURAL COLLEGE NOTES. The annual reception to new students was held in the college chapel Friday evening, Sept. 29. The opening exercises of the evening consisted of music by the band, a short address by Pres. Bloss, followed by a vocal duet. The students then retired to the library and upper rooms where games of various kinds were indulged in, but social conversation was the feature of the evening. Later the band gave a short concert. After nearly all had gone out of the boys started to put out a large hanging lamp in the middle of the room, but accidentally released it from the hanger and it fell to the floor and exploded and for a short time it looked as though the fire might be serious but after a vigorous fight with overcoats and water it was so far extinguished that the lamp could be carried out. The damage did not amount to much.

The College Young Men's Christian association has resumed with a membership of twenty-five. The officers for the year are, E. R. Doughty, president; J. B. Andrews, vice president; J. H. McFet, recording secretary. The meetings are held in Caithorn hall every Sunday afternoon.

A large fire plug is placed midway between the college building and the mechanical hall; one is also to be placed outside of Caithorn hall. These buildings have sufficient means to fight fire.

The blacksmith shop now presents a lively appearance. All the forges run in full blast nearly all day. Blacksmiths will soon be numerous.

The college societies will meet this week to elect officers for the ensuing term.

Seventeen ladies' room reside at the ladies' hall, and sixty-two boys at Caithorn hall.

The work of grading the ground around the new mechanical hall is well under way.

There are now 210 students enrolled. CORVALLIS, Oct. 9, '93. CONTRIBUTOR.
