THE ELECTION.

Occasionally "sunthin draps". That was the case last Tuesday when everything went republican by majorities larger than at any time since the war. We say "everything"; the democrats yet have "old Foggy" and New York city. It was an overwhelming, spontaneous uprising which showed that the masses got what they did not want last fall. The cry was "change", and it has come after the old aliphathic plan. This country yet believes, and sincerely, too, in the protection of American industries, a system which has brought unparalleled prosperity and happiness. How the people could lay all aside for sure distress is more than can be comprehended, but they did it, and at this November election proved how willing they were to rectify the mistake.

In Ohio Gov. McKinley has been re-elected by a plurality which the Portland Telegram states will come up in the neighborhood of 100,000. His majority over all is large, and taking into consideration that he opposed all political parties, this is a victory worth talking about. As a candidate for presidential honors, this puts him before the people in a manner which cannot be mistaken, and which leaves no doubts as to their preference. Wm. McKinley, Jr., will be the next republican candidate for president, and his success is assured. McKinley is a clean man of ability, and the choice could not be better placed, or on a more deserving republican.

In New York it was a question whether the rotten Hill machine or the people should rule. It had become so intolerable that even self-respecting democrats voted against Maynard and the whole ticket, and the result is that New York state gives an overwhelming republican victory. Brooklyn even caught the spirit and rolled up 20,000 majority for the republican candidate for mayor.

In Chicago Goldie Gary was re-elected, Allgold and anarchism got their death blow. It is a just retribution and came at the right time.

Boies, too, has been shelved as a presidential possibility. Third term is not looked upon lightly, either. There is nothing wrong with Iowa.

Massachusetts democrats had for three terms chosen the popular democrat, Russell, though the state on national issues is republican. The party concluded that there must be something in a name, and nominated another Russell. The returns show that it was a Russell too many, and the majority is overwhelming.

All along the line comes similar news. It arrived none too soon to raise the drooping spirits of the people, who can now confidently look forward to telling and more significant victories in '04 and '06.

Justice Heppner of Hardman, in this issue states that both he and Constable Meadows were waited upon by a committee who warned them not to make any more attachments or proceed with foreclosures. We had hoped that there was no foundation in such report, but it seems our hopes are doomed to be ever lastingly annihilated.

How do Oregonians like a Georgia for Indian agent of the Unistilla? What is the matter with home talent? Oregon people dislike carpet-baggers as bad as any people on earth.

The price of silver is advancing, regardless of the slap given by the recent repeal. Stocks, however, have not fared so well, and the troubles everywhere are apparent. Now that the country so far as heard has apparently voted against the "tariff for revenue, only" policy, a general improvement all along the line may be noticed. But the country will suffer more or less till silver is given recognition as full legal tender money.

A Pacific mail steamer has been fired upon by Honduras authorities because the captain would not give up a fugitive wanted by the Honduras government. Some of these dirty, little half-breed republics ought to be wiped out of existence anyway, and unless full reparation is made such a course should be pursued with Honduras.

SENATOR VOORHEES now wants to re-deem himself by proposing a free coin age measure. He stood hand in hand with the enemies of silver to remove the last barrier between bimetallic and gold monometallicism, and now when it has done all the harm possible the country will look upon his subsequent moves with suspicion.

The Rocky Mountain News, in a late issue, gives Gov. Penner prominence in an illustration showing our executive as being crowned with a wreath by the West, South and Labor, holding in his hand the famous Thanksgiving proclamation. The wreath contains the words, "Government of the people."

SIDNEY BELL in a recent issue of the Oregonian argues for a silver standard, with the gold coin reduced in size to equal the bullion price of silver on a gold basis. Mr. Bell recognizes one thing, that it is not the fall of silver which is so harmful but the continued appreciation of gold.

The silver congressmen are being set down on by the administration because they would not stand in for unconditional repeal. This confirms the charge of one-man power at the head of national affairs. Just as well dissolve congress, disperse the supreme court judges and crown the king.

CHRISTIAN HESS on last Tuesday at Portland shot his uncle by marriage, Theodore Liebs the pioneer baker and president of the Oregon German Bakery Company. Hess then shot himself dying instantly. Mr. Liebs was 85 years old. It is the result of family trouble.

The secretary of the treasury thinks that he could use some of the silver, and may coin some. But it will be done sparingly, if at all. A good many breeches pockets are just aching for some of that despised silver.

This is an off year. It was an off year that made congress 152 democrats in one house, and it has remained so ever since. These off years are getting to be the forerunners of a general upheaval.

Both old parties declared for a double standard in the contest of 1893. It now transpires that the people at large put a wrong construction on the language.

Gov. G. W. PECK, of Wisconsin, with other state officers, is being sued for money advanced on a printing bill for the state.

HON. S. M. GILMORE, of Khekitat county, Wash., died on the 6th inst. He was a pioneer of Oregon and Washington.

EDITOR R. H. KINKAID, of the Eugene Journal, is reported to be a candidate for secretary of state honors.

The rumor that President Cleveland had been shot proved to have no foundation whatever.

It is now asserted that the big fight between Mitchell and Corbett will come off at Jacksonville, Fla.

The people of Oregon will give thanks this year on the Penneyer plan.

Beware of Quaternals for Catarrh that Contain Mercury. As mercury will destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is held to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

A TIDAL WAVE.

This Time it Was Republicanism and not Democracy.

THE OLD SAYING, EVERY DOG HAS HIS DAY.

Some Have Two Days But This Wasn't The Date for the Second.

COLUMBUS, Nov. 8.—The latest official returns from the state at the republican headquarters indicate that McKinley has carried the state by between 70,000 and 80,000 plurality, the largest in the history of the state since 1883, when Brough had 100,000 over Vallandigham, then an exile in Canada.

NEW YORK, Nov. 8.—The election in this state was a clean sweep for the republicans, and every hour adds to the thoroughness of the democratic defeat. Bartlett is elected to the court of appeals over Maynard by probably over 65,000, and the rest of the republican state ticket wins by 20,000. The legislature is republican.

DES MOINES, Nov. 8.—Frank D. Jackson, republican, for governor, is elected by about 30,000 plurality, or 6,000 more than Harrison for president in 1892. The republicans have the legislature overwhelmingly.

TOPEKA, Nov. 8.—Today's returns add to the overwhelming defeat of the populists in this state by the republicans.

CHICAGO, Nov. 8.—Returns to 10 o'clock indicate the election of the entire republican judicial ticket with the possible exception of Kraft, who was supposed to have some anarchist leanings. Judge Gary, on whom Governor Altgeld made a fight, is elected by 8,000 or more, and leads the rest of the ticket by 2,000 to 4,000.

LOUISVILLE, Nov. 8.—In Kentucky the democrats more than held their own in the state legislature.

RICHMOND, Nov. 8.—It will be some days before complete returns are in from the inaccessible counties, but the state is yet democratic.

JACKSON CITY, Nov. 8.—The latest returns increase the majority, and race-track candidates and winter racetracks are knocked out in one round. The legislature is republican.

PHILADELPHIA, Nov. 8.—The state as far as received, gives Jackson, republican, for state treasurer, 128,072; Osbourne, dem., 20,151.

BOSTON, Nov. 8.—Massachusetts has elected Greenhalgh by 30,000. All of the republican state ticket won.

OMAHA, Nov. 8.—Returns are still very meager and the result is still in doubt. Republicans claim the election of Harrison for supreme judge by a small majority.

ST. PAUL, Nov. 8.—Scattered reports from South Dakota confirm last night's reports of a decided republican victory.

MICHIGAN, Nov. 8.—In the first congressional district, Griffin, democrat, is elected by between 1000 and 1500.

PATENTS!

NOTICE TO INVENTORS.

There was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of mankind in the factory and workshop, the household and on the farm, as well as in official life, require continual accessions to the apparatus and implements of each in order to save labor, time and expense. The political change in the administration government does not affect the progress of the American inventor, who being on the alert, and ready to perceive the existing deficiencies, does not permit the affairs of government to deride him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable inventions have been lost and destroyed innumerable instances by the employment of incompetent counsel, and especially in this advice applicable to those who adopt the "No patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F Street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, and general periodicals of the country, was instituted to protect its patrons from the unwise methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepare and prosecute applications generally, including mechanical inventions, design patents, trade-marks, labels, copyrights, interferences, infringements, validity reports and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Heart Failure.

HOW TO AVOID IT.

The epitaph on many a tombstone is "Heart Failure." No wonder, when we consider the immense strain which is put on that small organ. Marvellous as it is, beating 100,000 times a day, exerting a force equal to 1,184,000 pounds daily, it has its limit—its endurance often is too severely tested. So common are diseases of the heart—though often for a considerable time without the suspicions of the afflicted person being in the least excited—until it is stated that one person in four has a bad heart. Dr. Franklin Miles, of Elkhart, Ind., has for years made a special study of all diseases of the heart, and his remarkable success has made his name a familiar one in all parts of our land. He has found the most common symptoms of heart disease to be pain, distress or tenderness in the chest, back, stomach, bowels, left shoulder and arm, shortness of breath, mothering spells, fainting, etc.

Mr. George K. Smith, of Byrnes, Yates Co., N. Y., writes:—"DR. MILES' NEW Heart Cure has worked wonderfully on me and my wife. I am doing a good day's work. I feel ten years younger and more interest in affairs. I had shortness of breath, palpitation, pain under left shoulder blade, pain around the heart, I could not sleep on my right side. Since I sleep well, and am no longer palpitated. It has made my heart stronger. Your Heart Cure would print this, because I want all to know what Dr. Miles' Heart Cure has done for me."

"For months my wife suffered with palpitation, smothering spells, and was unable to sleep on her left side. She tried several doctors without relief. Your Heart Cure was recommended. After taking three bottles, she fully recovered her health. Your medicines do what you claim."—CHAS. CURTIS, of Tolson, O.

Dr. Miles' New Cure for the Heart is sold by all druggists on a positive guarantee. It is safe, agreeable, effective, and does cure. Dr. Miles Medical Co., Elkhart, Ind.

BALD HEADS

What is the condition of yours? Is your hair dry, harsh, brittle? Does it split at the ends? Has it a lifeless appearance? Does it fall out when combed or brushed? Is it full of dandruff? Does your scalp itch? Is it dry or in a heated condition? If these are some of your symptoms be warned in time or you will become bald.

SKOOKUM ROOT HAIR GROWER

is what you need. Its production is not an accident, but the result of scientific research. Knowledge of the cause of the hair and scalp led to the discovery of how to treat them. Skookum contains neither minerals nor oils. It is not a dye, but a naturally cooling and refreshing tonic. By stimulating the follicles, it causes the hair to grow, dandruff and greasy hair on bald spots. It keeps the scalp clean, healthy and free from irritating eruptions, by the use of a Skookum Skin Soap. It destroys parasitic insects, which feed on and destroy the hair.

If your druggist cannot supply you, send direct to us, and we will forward promptly receipt of price. Grower, \$1.00 per bottle, 4 for \$3.00. Soap, 50c per jar, 4 for \$1.75.

PATENTS FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringing on the matter, submit the matter to us for a reliable OPINION before acting on the matter.
