CHRIS EVANS, the noted Californian outlaw, is now on trial at Fresno.

H. C. CALWELL has been appointed postmaster at Hubbard, Marion county, Oregon.

SINCE it seems to be the determination of the present administration to place wool on the free list, why not have free woolens also?

SENATOR TELFER has gone to Mexico on a tour for the purpose of making a study of the silver question from the standpoint of that country where free coinage prevails.

CLEVELAND may think he has the upper hand on the provisional government of Hawaii, but the jokers might assume a very serious nature should the provisional government turn the islands over to Great Britain.

A MOVEMENT is on foot at St. Louis to raise a purse of \$20,000 to \$25,000 to have the Mitchell-Corbett fight come off on Colonel R. C. Tate's racetrack at the City of Mexico, in case the Florida officials forbid it at Jacksonville. Col. Tate is favorably inclined to the project.

The schedules of the proposed democratic tariff bill were given out yesterday. The following articles are reported to have been placed on the free list: Wool, iron ore, coal, tin, hemp, jute, silver, lead, ore, copper, salt, crude borax, binding twines, cotton, ties and lumber, not advanced in preparation beyond sawing.

The wool and iron ore men have been defeated. Those who fought so valiantly to retain the duty on these two articles have been notified by members of the ways and means committee that they have decided to place them on the free list. It is possible however, that the fight will not end here, but will be carried out to the floor of the house.

IN AN address to a gathering of democratic leaders at Indianapolis, on his return from Washington City, Dan Vorhes declared he was a bimetalist. He spoke of his connection with the long fight in the senate, which resulted in the repeal of the Sherman act purchasing clause, and said he took pride in what he did. The repeal of the act was a necessity. The next step, he said, would be the adoption of a bimetallic standard. This sounds well enough, but it won't catch the people of Hoosierdom. They are used to the smooth talk. What they want to see is some active work in this direction.

A SECRET meeting of the Kansas populists was recently held in Kansas City. It has been learned from an authentic source that action which will probably result in a split in the party in Kansas was decided upon. It is said that among those present were Jerry Simpson and 60 others, all high in the populist circles. From authentic sources it is stated the meeting denounced in most unequivocal terms the Kansas administration of the populists as "rotten, entirely incompetent and silly." They then renounced all principles as put forth by the populists up to date, and declared for a new party, and from now on they will put forth every effort to obtain the free and unlimited coinage of silver, leaving other planks of the former party to be taken care of as might be.

ALTHOUGH the editors of the Portland Sunday Mercury have been indicted and the property attached and placed in the receiver's hands, yet this recorder of sensational and scandalous happenings appeared as usual last Saturday. How ever it has been greatly changed. The size of the paper has been reduced one half and the sensational features abolished. The famous column, "Over the Top," had disappeared, and the usual resume of scandalous happenings has given away to other items, some original and some taken from local papers. Receiver Rosenthal briefly announced his appointment and his intention to make a readable paper out of the Mercury.

It is reported that Cleveland intends to take a hand in the selection of congressmen to succeed those who have not followed his will during the election. If he keeps on with his bull-headedness he will have to make a general selection in order to have any followers. And while he may dictate nominations, yet he will be badly fooled if he thinks he can dictate elections.

Hood's and Only Hood's.
Hood's Sarsaparilla is carefully prepared from Sarsaparilla, Dandelion, Mandrake, Dock, Pipsissewa, Juniper berries and other well known remedies, by a peculiar combination, proportion and process, giving to Hood's Sarsaparilla curative powers not possessed by other medicines. It effects remarkable cures when other preparations fail.

COMMUNICATION.

EDITOR GAZETTE:
In the Gazette of Nov. 10th Justice Hogue, of this place, made a statement which he calls the facts concerning a meeting held here, and the actions of a committee appointed by same.

The undersigned having attended a meeting held in this vicinity on Oct. 30th and being parties whose names Justice Hogue took the liberty to use in the article referred to, would ask space in your paper to state what was done in this matter, why it was done, and to say that Justice Hogue did not state the facts in every particular, but instead made statements which were not true.

At this meeting there was a committee appointed to draft resolutions to be presented for adoption at another meeting to be held Nov. 1st. These resolutions were adopted at the subsequent meeting and by the favor of the publishers were printed in both the Gazette and Record. There was another committee appointed to see the officer of the precinct and ask them to use their influence to stop the instigation of suits or to resign, or to not issue any more papers. This committee saw Mr. Hogue on the morning of Oct. 31st and told him their business, and informed him that property attached and sold at this time would bring but little if any more than enough to pay costs.

He said that he knew that it would not, but he could not help it and that he was under oath to do his duty. He told him he could resign. He said that he did not "fear God or man, and if anyone wanted papers issued he would issue them." As to the committee making threats, such as have been reported, or warning him, as the justice says, they deny doing so. He further says that part of the committee denied going to see him, and that several of those who attended the meeting on the 30th of Oct. denied any knowledge of such a meeting. These statements which the justice makes are false. The committee and those who attended the meeting deny attending such a meeting as has been reported, or such a meeting as Mr. Hogue seems to want to make believe was held. This committee did not see Constable Meadows as he was away from home at the time.

The reason for this committee being appointed and for the action being taken was the fact that it was known that at least one and perhaps both of the officers of the precinct had expressed themselves as being in favor and anxious for a certain bankrupt concern here to sue the people so they could make enough out of the costs to pay their bills. These were thought to be very strange statements to be made at such time and under such circumstances as the present.

EAGLETS.
From our Long Creek Paper.
Wm. Hughes, of Heppner, was over this week on business.

Otis Patterson, of the Heppner Gazette, is visiting the Eagle ranch this week.

The first sleigh of the season ventured through the streets of Long Creek Tuesday morning.

Frank Metcalf and John Clement came over from Canyon City Wednesday on a few days sojourn in this city.

Walt Canaday leaves this week for Jewell, Oregon. He is accompanied by Newt Williams, an old time miner of Grant county.

Long Creek's public school has 113 pupils in attendance. Thus far, as the eagle has learned, this is the banner school of the county.

Gus Allen, James and Enmitt Cochran came over from Monument Saturday, each loaded with wheat for the Arcade mill. They returned home Tuesday morning with a fine lot of flour as ever manufactured by any mill in Eastern Oregon.

Ed C. Allen was over from the Black Butte mine Sunday. He informs the Eagle that he has ordered iron piping to convey water to his mill, and he hopes to soon be able to run again. A building is being constructed over the mill at present.

The O. A. C. foot ball team have proved quite a success in the game between Albany and the College. The score was 48 to 0 in favor of the O. A. C. In the game with Monument the score was 22 to 36 in favor of O. A. C. Next Saturday they will play with the team from Pacific University.

Prof. Loty, of Calhoun hall, is on the sick list. Some of the boys are also along with the professor. The group has been paying them a visit.

The Y. M. C. A. is doing good work. They meet every Sunday afternoon at Calhoun hall when they hold meetings.

The college band is doing very well with W. W. Loony as leader and Prof. Rosenbrock as instructor.

The literary societies of the college are doing excellent work this school year. The contest for the gold medal will be some time next term.

Nov. 20, 1903.
FIRST AWARD AT CHICAGO.
Sheepmen will be interested to know that there is no longer any question as to the relative merits of the different sheep dips upon the market. Christy & Wiese take pleasure in announcing that Hayward's Dips (paste and liquid) have secured the first award at the World's Fair, and last year these dips received the silver medal at California State Fair and gold medal at McBean Fair San Francisco. Every practical sheepman that owns Hayward's Dips, pronounced them the very best dips for the care of sheep, the general health of sheep and conditions of wool. 181 188 ss.

PATENTS!

NOTICE TO INVENTORS.

There was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of mankind in the factory and workshop, the household and on the farm, as well as in official life, require continual accessions to the apparatus and implements of each in order to save labor, time and expense. The political change in the administration government does not affect the progress of the American inventor, who being on the alert, and ready to perceive the existing deficiencies, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing disadvantages. No great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable inventions have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially in this advice applicable to those who adopt the "No patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F Street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, and general periodicals of the country, was so assisted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepare and prosecute applications generally, including mechanical inventions, design patents, trade-marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.
