Dy SPECIAL ARRANGEMENT WITH THE
publishers, see are able to obtain a number
of the above book, and propose to furnish a
copy to each of our subserficers.
The dictionary is a necessity in every home,
school and business house. If fills a vacancy,
and furnishes knowledge which no one hundred other volumes of the choicest books could
supply. Young and old, educated and ignorant,
rich and poor, should have it within reach, and
refer to its contents every day in the year.
Assome have asked if this is really the original Webster's Umbridged Dictionary, we are
able to state we have learned direct from the
publishers the fact, that this is the very work
complete on which about forty of the best years
of the author's life wern so well employed in
writing. It contains the entire vocabulary of
about 100,000 words, including the correct spelling, derivation and definition of same, and is
the regular standard size, containing about
100,000 square inches of printed surface, and is
bound in clisth half morocco and skees.

Unto turtner notice we will turnish this

Until further notice we will furnish this valuable Dictionary—
First—To any new subscriber.
Second—To any renewal subscriber.
Third—To any subscriber now in arrears who pays up and one year in advance, at the following prices, viz:
Full Cloth bound, gilt side and backstamps marbled edges \$1-bo.
Half Molocco, bound, gilt side and backstamps, marbled edges. \$1-bo.
Full Sheep bound, leather label, marbled

edges, \$2.00 Fifty cents added in all cases for express age to Heppner As the publishers limit the time an number of books they will furnish at the lo prices, we advise all who desire to avail there telves of this great opportunity to attend to

PRIZES ON PATENTS.

How to Get Twenty-five Hundred Dollars for Nothing.

The Winner has a clear Gift of a Small Fortune, and the Losers Have Patents that may Bring them in Still More.

Would you like to make twenty-five hundred dollars? If you would, read carefully what follows and you may see a way to do it. The Press Claims Company devotes much attention to patents. It has handled thousands of inventive tallent at large in this country needing nothing but encouragement to produce practical results. That encouragement the Press anticipate that there will be any radical

Claims Company propose to give. NOT SO HARD AS IT SEEMS.

A patent strikes most people as an appalling-ly formidable thing. The idea is that an inventor must be a natural gentus, like Edison or Bell; that he must devote years to delving in degree of perfection. This debusion the comthe head of the public a crear comprehension | legislation is seldom retroactive. There of the fact that it is not the great, complex, and expensive inventions that bring the best returns pheating be filed in the department as their authors, but the little, simple, and cheap ones-the things that seem to absurdly

to get into the house." "Yes. "No, that is not our dog barking: it's the one next door.'

"It is not necessary to go down and see if the cellar door is fastened. I know it is."

"That is nobody-it is only the wind rattling the shutters." "Well, I think that's about all. Yo. see, my wife asks me certain questions every night just as I am getting into bed, and if I had a printed list I could show to her it would save lots of out it. We will receive subscriptions trouble. Besides that it injures my at this office. Price only \$1 00 a year, lungs to answer them. Have the lists printed as soon as possible, please."-

London Tid-Bits. PANAMA PIRACY.

A correspondent of the Boston Bulle tin writes from Panama that the half has not been told of the condition of af

About half a mile from the roadstead at Colon is a point of artificial land on which stands the ruins of houses erected at a cost of one hundred thousand dollars for the temporary accommodation is guaranteed to give periest satisfaction of De Lesseps and his son. The foun-or mass refunded. Price 25 cents per dations for the houses and most of the point were made by dumping into the mud machinery purchased for the canal and covering the whole with earth and sod. De Lesseps is credited with hav-

ing spent two weeks at his house On the tops of the hills may be seen the houses built for the engineers and their servants, all elaborate, all dismantled, all decaying. At Colon are some forty or fifty tugs going to decay. On the sidings and special tracks stand lines of abandoned dump cars and locomotives. The common report there is that there are enough abandoned dump cars and locomotives to reach twice across the isthmus (forty-five miles). Vines grow over these rotting vehicles, and the locomotive boilers are so eaten

with rost that they may be broken with an ordinary hammer. Acres and acres are covered with parts of cars that have never been set up and large sheds are filled with locomotives, both cars and locomotives being of a special gauge and useless elsewhere. The fields are full of abandoned ma

chinery and supplies and cars with hoisting engines. Considerable work has been done on the canal in patches, but, as apparently the cuts were not even made on a level. the soil is fast filling in. Dredges are A Fabalous Mountain.

Some time since wide publicity was of the canal No blasting or difficult given to the reported discovery in New | work has apparently been done what-Guinea of a mountain higher than any ever. All along the route from Colon other in the world. Mount Hercules, are graveyards and hospitals, and at
