Several parties have come down from the mountain in slush and snow. They report very good sleighing up there, though they find it very slow on our streets.

A few sleds are seen now but the amount of snow remaining is not sufficient to make good sleighing. In fact, in most places in the roads about Heppner there is no snow at all.

The error in the National Bank report, published in our last issue, should be charged to our proof reader and not to the bank. Anyone with reasonable judgment should know that a bank official would not knowingly send out such a statement. Such talk is ridiculous, and say the least.

Antelope Herald: The three parties who were examined at Fossil last week on a charge of cattle stealing, were bound over to appear before the next grand jury in the following sums: Elbie Clarke, \$1,500; bondsmen Chas. and E. J. W. Clark; Oat Zehary, \$700; bondsmen, Doll Zehary and F. C. Hoffington; Jim Barnett, \$700; bondsmen Ed Nelson and ———— Sankay.

Some boys with no manners and less brains stood in Stewart's stable on the evening of the New Year's dance and smoked cigars with growls. Ladies were not spared. This was so cowardly as it was unmanly, and is condemned by all who witnessed it. Boys, you will keep on in this way until some of you will get seriously hurt. You should know that there are some people who will protect their rights and in due season, too.

Condon Globe: Attorney T. R. Lyons went over to Fossil Thursday to attend another session (or since) of justice's court. We are informed that some more of the boys over in that section are suspected of printing a scurrilous and Mr. Lyons has been engaged to prosecute them. Judging from the result of his work last week—securing three "convictions" (bound over) out of four—he is no slouch himself at expounding law. He is working up a good practice.

WILL PROBABLY LOCATE—The report of the branch asylum committee, consisting of Superintendent L. L. Rowland of the state insane asylum, Dr. W. T. Williamson first assistant physician, and Dr. J. A. Richardson of the consulting board, was not reached at the meeting yesterday. This will probably be read and considered at the meeting of the trustees today. It will, very likely, settle the matter of a location of the branch insane asylum for Eastern Oregon as the committee was sent to that section recently to look into the sanitary condition of the many sites offered. The report will cover all the points taken into consideration by the trust of physicians, and it is anxiously awaited by the cities contesting for the location of the new institution. Wednesday's Statesman.

LOOKING OVER THE FIELD.—Harry C. Wise, a son of a member of the commission firm of Christie & Wise, of San Francisco, accompanied by H. Clarke, arrived from Pendleton Thursday. Mr. Wise is in Eastern Oregon in the interest of the firm looking over the field for the coming year. He expressed himself as confident that the passage of the Wilson bill would bring relief to the workmen in the way of a firm, brisk market and good prices. We sincerely hope that the gentleman is correct in this belief, though very few in this section care to bank on it. Mr. Wise and Mr. Clarke departed this morning for The Dalles from whence Mr. Wise goes to Portland and thence home.

BEYOND CONTRADICTION—The Baker City Democrat is responsible for the following, says the E. O.: The Heppner Gazette of Tuesday, December 26th, charges Prof. M. V. Birk, state lecturer of the Farmers' Alliance, with having an unnatural mania for indulging in crimes against nature and challenges him to seek for proofs of the charges made. If persons in Baker City speak the truth, and they are reliable men, the statements of the Gazette are beyond contradiction.

A SPEEDY JOKE—The ringing of a fire bell in Athens by some practical joker, one night last week, made a raving maniac of a lady that town, whose nerves had already been shattered by a long period of ill health. She was taken to Salem for treatment, while the idiot who rung the false alarm is enjoying perfect freedom. However, should the villain be captured it is likely that he would be dealt with in an appropriate manner.

ANOTHER STOCK SHIPMENT.—E. Mays came up on Tuesday's train to receive another shipment of cattle and sheep from this section for the Union Dressed Meat Co. Sam Kinsman furnished four car loads of cattle and one of sheep from this point, and three car-loads of cattle furnished by Geo. McKay from his feeding place at the mouth of Willow creek, were loaded at noon. The shipment was made Wednesday.

BIRTHDAY PARTY.—Little Nellie Forwood was six years old yesterday, and on that occasion invited in a number of her young friends to celebrate it. There were present besides the older people, Edna Van Duyn, Blanche McNay, Willa Minor, Bessie Gillson, Luella Nelson, Gertrude Waldridge, Lattie Rasmus, Ralph Swinhart, Ralph Bishop, Glen Forwood and Z. C. Patterson. It is needless to state that all had a fine time.

TO REGISTER CHINESE.—On Jan. 11th, Rosa T. Chamberlain, of the internal revenue department, will be in Heppner to register all Chinese. They should remember that they must accompany the application to register with two unmounted photographs, representing the entire face, the head to be not less than 1 1/2 inches from base of hair to base of chin. Further mention will be made in our next issue.

A LAND OF CONTRASTS.

Some of the American Peculiarities Which Struck an English Traveler.

There is a very amusing paper in the Arena, in which, under the title of "The Land of Contrasts," Mr. Muirhead endeavors to give his impressions of America. His most abiding impression is, he declares, that there is no abiding impression at all, as the facts on which today he builds a theory in Massachusetts are shattered to-morrow by the facts he encounters in Michigan. The United States seem to him preeminently the "Land of Contrasts"—the land of stark, staring and stimulating inconsistencies.

"I have hailed with delight the democratic spirit displayed in the greeting of my friend and myself by the porter of a hotel as 'you fellows,' and then had the cup of pleasure dashed from my lips by being told by the same porter that 'the other gentleman would attend to my baggage.' I have been parolled with sailmakers who seemed to find no inconvenience in a room temperature of 80 degrees, and have been night-frozen to death in open-air drives in which the same individuals seemed perfectly comfortable. American travelers grumble for at least are dissatisfied; no American grumbles—American travelers are dissatisfied if the velvet pile carpets at their hotels are not at least two inches thick, and yet endure without a murmur the hideous noises of a steam-heating apparatus which causes its 'bubble and squeak' only to emulate the exertions of Alexander the Coppersmith. Americans invent the most delicate forms of machinery for their manufacturing processes and back their meat with their plated hoop iron knives hardly calculated to tackle anything harder than butter. Men appear at the theater in orthodox evening dress, while the tall and expensively-hatted of the ladies who accompany them would seem to indicate a theory of street toilet. From New York to Buffalo I am whisked through the air at the rate of fifty to sixty miles an hour; in California I traveled on a train on which the engineer shot rabbits from the locomotive and the fireman picked them up in time to jump on the baggage car at the rear end of the train. At Santa Barbara I visited an old mission church and convent which vied in quaint picturesque-ness with anything in Europe; but, alas! the old monk who showed us around, though wearing the regulation gown and knotted cord, had replaced his sandals by elastic-sided boots and covered his tonsure with what we call a chimney, but which in correct Bostonese is, I believe, a 'Derby.'

Heart Failure.

HOW TO AVOID IT.

The epitaph on many a tombstone is "Heart Failure." No wonder, when we consider the immense strain which is put on that small organ. Marvellous as it is, beating 150,000 times and exerting a force equal to 5,810,000 pounds daily, it has its limits—its endurance often is too severely tested. So common are diseases of the heart—though often for a considerable time without the suspicions of the afflicted person being in the least excited—that it is stated that one year in four ends in heart failure. Dr. Frank Miles, of Elkhart, Ind., has for years made a special study of all diseases of the heart, and his remarkable success has made his name a familiar one in all parts of our land. He has found the most common symptoms of heart disease to be pain, distress or tenderness in the chest, back, stomach, bowels, left shoulder and arm, shortness of breath, smothering spells, fainting, etc.

Mr. George R. Smith, of Byrnes, Yates Co., N. Y., writes:—"DR. MILES' NEW HEART CURE has worked wonderfully on mind and body as I can do a good day's work. I feel ten years younger and take more interest in affairs. I had shortness of breath, palpitation, pain under left shoulder blade, pain around the heart, I could not sleep on my right side. Since I have taken Dr. Miles' New Heart Cure I sleep well, and have no palpitation. It has made my heart stronger. I wish you would print this, because I want all to know what Dr. Miles' Heart Cure has done for me."

"For months my wife suffered with palpitation, smothering spells, and was unable to sleep on her left side. She tried several doctors without relief. Your Heart Cure was recommended. After taking three bottles, she fully recovered her health. Your medicines do what you claim."—CHAS. CHRISTMAN, Toledo, O.
