Honorably discharged soldiers and sailors who served ninety days or over, in the late war, are entitled, if now partially or wholly disabled for ordinary manual labor, whether disability was caused by service or not, and regardless of their pecuniary circumstances.

WIDOWS of such soldiers and sailors are entitled if not remartied) whether soldier's death was due to army service or not, if now dependent upon their own labor for support. Widows not dependent upon their own labor are entitled if the soldier's death was due to service.

CMILDREN are entitled if under sixteeu years in almost all cases where there was no widow, or she has since died or remarried.

PARENTS are entitled if soldier left neither widow nor child, provided soldier died in service, or from effects of service, and they are now dependent upon their own labor for support. It makes no difference whether soldier served or died in late war or in regular army or soldiers of the late war, panylored water or not be a late war or in regular army or soldiers of the late war, panylored water or not served.

y. Soldiers of the late war, pensioned under one law, may apply for **higher rates under other**

Soldiers of the late war, pensioned under one law, may apply for higher rates under other laws, without losting any rights.

Thousands of soldiers drawing from \$2 to \$to per month under the old law are entitled to higher rates under new law, not only on account of disabilities for which now pensioned, but also for others, whether due to service or not.

Soldiers and sailors disabled in line of duty in regular army or navy since the war are also entitled, whether disabled of disability or not.

Survivors, and their widows, of the Black Hawk, Creek, Cherokee and Seminole or Florida Indian Wars of 1832 to 1843, are entitled under a recent act.

Mexican Warsoldiers and their widows also entitled, if sixty-two years of age or disabled or descedent.

Mexican War soldiers and their widows also cannot be considered to depend and or dependent.
Old claims completed and settlement obtained, whether pension has been granted under later laws or not.
Rejected claims reopened and settlement secured, if rejection improper or illegal.
Certificates of service and discharge obtained for soldiers and sailors of the late war who

lost their original papers. end for laws and information. No charge for advice. No fee unless successful. Address,

Distant Travels of the Stork

An interesting proof of the distant travels of a stork was discovered this pring in the neighborhood of Berlin For a number of years a pair of stocks built their nest annually in the park of the castle Ruheleben. A few years ago one of the servants placed a ring with the name of the place and date on the leg of the male bird, in order to be certain that the same bird returned each year. This spring the stork came back its customary place, the bearer of two rings. The second one bore the in-scription: "India sends greetings to Ger-ial for beauty, these among the aris

MEN AND THEIR WIVES.

The Striking Contrast Sometimes Seen

What a contrast there is in the general appearance of some men and their Some of them look as if they had made a mistake and gobbled up a woman that ought to have been some other man's wife, and some women-a good many women-look like victims of some kind of a mistake. It is not uncommon, says the Chicago Herald, to see women dressed with all respect to As for the actual heat in the severest the latest designs sent out by Worth or Felix, while the husband seems grateful that he has enough money left to til "this article" was printed. At first dian flottla avouch that they have seen buy even "misfits." This attracts no I was soft-hearted and listened to these the glass register 200 degrees in the sun particular attention, but one's heart appeals, but soon found that I had more at Bushire. It was a long time ago, will get to aching for the little pallid manuscript on hand than we had col however, and there lies their excuse. faced and meck-looking woman who will get to aching for the little pallid umns in the paper. Then I grew hard Perhaps 150 degrees has been recorded, wears a plush clock and alapaca dress, bearted. For instance, I would ask one: for a brief space, under posuliar cir. while the husband is radiant in fresh "How many children have you?" If she cumstances. But when ido degrees is new suits, tan-colored gloves, silk hat said more than two I asked their names passed every fraction becomes horribly and red rose in buttonhole. I spent perceptible. Ten degrees above this is an hour in with the pale-faced weman diseases and she would tell me. I would not uncommon. The coolest place to be and radiant husband yesterday. It was take the story and label it, "Katie- found at Shikarpur sometimes has been in a steam car. There were four chil-messles." Then of the next applicant 140 degrees. But 120 degrees in the Iren with them, the oldest about six the same query. Then the label, shade may be regarded as the tempera-"Johnny—the mumps," and then I ture of the very hottest climates in the would lay the MSS away in a pigeon world—when no wind blows. Fancy gray veil. The children were dressed hole and occasionally I would look them that as a minimum, for forty-cight beautifully. How they loved her! One bole and occasionally I would look them that as a minimum, for forty-cight beautifully. How they loved her! One over and wonder how the invalid corps hours at a stretch. At Sukkur-the little fellow came back to kiss her were progressing. When I felt a little year round, mark—residents endure a about twice in five minutes. It was womanish in my heart I would select minimum of 27 degrees; happile there the "disease" which I thought was most dangerous and use it. And then I used this is in a time when no wind blows, never saw the announcement of the July. There is the Sula which rises, death of any of the starving ones whose as scientific persons allege, in the Kachi eat it until mamma had a "bite." The names were on the parchment in my desert; but ordinary mortule will not pigeon-holes.—Chicago Tribune.

desert; but ordinary mortule will not be persuaded that it has its origin in grand. He never got a kiss, nor a the upper world. All life withers be-"bite," nor a glance from those four fore it. But there is worse. The bad-is children. He paid their simoon kills outright everything it en- looked out of the window. He had his fine clothes, but the mother was rich counters: not only that—it burns up tissue and cartilage, so that the limbs can be pulled asonder when the storm has passed by. Of course it is rare and in all the love that could fill little hearts.

Where?

ANCIENT AMERICA.

a Powerful Empire.

In a volume entitled "The Lost At lantis," by the late Sir Daniel Wilson president of the university of Toronto an interesting study is made of the legends which suggest that America was known to the ancients. In two o Plato's dialogues, the Timseus and Critias, it is related that Solon, the great Athenian law-giver, during a visit he made to Sais, in Egypt, some thirty-four hundred years ago, was in-formed by the priests of the former existence, west of the strait of Gibraltar, of an island continent in the Atevent, "white with age."

pears, because the Atlantic, in the opinion of geologists, has been substantialfirst discoveries and to their acquisition of the greatest if not the first of the

maritime races of the Orient frequently made voyages far out into the Atlantic. In the reign of Pharaoh-Necho, 611-865 B. C., after the decline of Egyptian maritime enterprise, a Phoenician fleet was employed to circumnavigate Africa. Hanno, the Carthaginian, is said to have reached the Indian ocean by the route around the cape, as Vasco de Gama did later, in 1497. Enterprise has its pulsations-its periods of expansion and contraction. There are, it is seen, indications that the discovery of Amer-ica was within the reach of the Egyptians at the period to which the story of Atlantis refers.

and became a dim legend. Evidences of Egyptian intercourse with it are to be 63 This Company is managed by a combination of the ruined cities of Central America. Such evidences may yet be forthcoming. "It would not," he says, "in any degree surprise me to learn of the discovery a genuine Phoenician or other inscription or some hoard of Assyrian gryphons or shekels of the merchant princes of Tyre, 'that had knowledge of the sea,' being recovered among the empire of Montezuma or the long-de a discovery would scarcely be more surof the Azores. Yet it would furnish a other aggressive power in the western and equally vague traditions of intercourse with a vast continent lying be yond the pillars of Hercules." adds interest to the study of the antiquities of Central America.

Supposed to Have Been Atlantis

According to an Egyptian Legend th-Whole Continent Was Engulfed in the Sea by a Convulsion of Nature.

lantic ocean, says the Baltimore Sun. This continent, Atlantis, the seat of a powerful empire, according to the story, was engulfed in the sea by some convulsion of nature, with the result, of course, of destroying its hundreds of cities and millions of inhabitants. Already in Solon's time the destruction of Atlantis was described as a remote Has this legend a basis of fact? It

cannot be accepted as a whole, it aply what it is for many millions of years. Geology shows evidences of local up-heavals, but none of the submergence of extensive continental areas. Sir Dan iel accordingly feels compelled to rejecthe sinking of Atlantis as a detail of the story invented to account for the cessation of intercourse with it. The body of the story he is disposed to accept. Atlantis was America, which continent the earlier Egyptians had discovered during their period of adventurous maritime enterprise. There are many evidences of Egyptian domination around the Mediterranean before the Trojan war. Their ships sailed the Atfantic, visiting England for tin and ex-ploring the coast of Africa toward and eyond the equator in search of gold. Their vessels might readily have been carried westward by ocean currents to Brazil and Central America. In the year 1500 of our era Pedro Alvares de Cabral, the Portuguese admiral, while sailing southward along the west coast of Africa, was carried by the equatorial current so far out of his course that he secidentally discovered Brazil. What befell the Portuguese admiral in 1500 might readily, Sir Daniel thinks, have befallen Egyptian admirals thousands of years before. Egypt when first revealed to us in history was already far gone in its decline. Its people had lost the spirit which impelled them to their

incient empires. Sir Daniel uffirms that the ancient

When the Egyptians ceased to rove the sea Atlantis was lost to view at Sais sought, according to the author, among still unexplored treasures of the buried serted ruins of Central America. Such serted ruins of Central America. Such a discovery would seaveely be more surprising than that of the Punic hoards found at Corvo, the most westerly island of the Azores. Yet it would furnish a substantial basis for the legend of Atlantis. There is nothing improbable in the idea that it rests on some historic basis in which the fall of an Iberian or Mediterranean has mingled with other speculation is an attractive one and

"For Years,"

Says CARRIE E. STOCKWELL, of Chester-Says Carrie E. Stockwell, of Chester-Beld, N. H., "I was afflicted with an extremely severe pain in the lower part of the chest. The feeling was as if a ton weight was laid on a spot the size of my hand. Dur-

ing the attacks, the perspiration would stand in drops on my face, and it was agony for me to make sufficient effort even to whisper. They came hour of the day or night, lasting from thirty minutes to

half a day, leaving as suddenly; but, for several days after. I was quite pros-trated and sore. Sometimes the attacks were almost daily, then less frequent. After about four years of this suffering. I was taken down with billous typhoid fever, and when I began to recover, I had the worst attack of my old trouble I ever experienced. At the first of the fever, my mother gave me Ayer's Pills, my doctor recomme them as being better than anything he could prepare. I continued taking these Pills, and 50 great was the benefit derived that during nearly thirty years I have had one attack of my former trouble, which yielded readily to the same remedy."

and strength. introducing Prof. Harris Pastille to which commends itself to all

Our method of introducing Prof. Harris' Pastille restainent is one which commends itself to all sensible persons—for the reason that we supply it upon their judgment of its value. We asked our patrons nothing in the way of expense beyond a postal card and a two cent postage stamp. The postal card to be used in sending us their full adversa and the postage stamp for the letter returning the statement of their cases for which we supply them with a question blank, to be filled out and an envelope addressed to ourselves for use in returning it when filled.

When we receive the statement on the statement on blank we propure eight days' treatment and for eight days' treatment and for pasting the statement on blank we propure some. The treatment in no way interfered with a person's attention to business, and causes no way in the statement of the state

of our shilling to benedit their sexual condition we feel that they are more largely interested than curselves in continuing the use of the Pastilles. Even then we do not attempt to rob them by demanding high prices. On the contrary, we make the prices as low as possible, and the same to all. They are as follows: 18 for one month; 8 for two months; 8 for three munths.

These prices secure the delivery of the Pastilles by mail. If desired by express we leave the patient to pay the charges. For over ten years we
