#### BOOM OUR INDUSTRIES.

The Salem Statesman rightly remarks that Congressman Ellis, of the Second Oregon district, interjected a few appropriate words in the serial tariff debate just ended in the house upon the Wilson bill. He spoke of the injustice of the proposition to place wool on the free list. He compared the cost of producing wool in Australia, Argentina and other foreign countries with the cost in our own country, using consular reports as his unquestionable authority, giving preface to the paragraph of his remarks, which we quote: "I am free to say that the Western wool-grower cannot continue in this business if this bill becomes a law. Its effect is already being felt, and that effect upon the people whom I have the honor to represent is dire indeed. In 1892 they were able to realize at home some 14 cents for their wool. Today wool is a drug upon the market at 7 cents." Mr. Ellis then quoted from a letter of one of his Primeville constituents, showing that the loss on wool for Crook county, Oregon, alone last year was \$105,000, and on the value of sheep \$500,000, making a total loss in one year to the flock owners of one Oregon county of \$605,000—and this by the passage of any bill giving free trade in wool, but the mere promise of the enactment of such bill. Mr. Ellis received the highest compliment of hearty applause from the house upon the conclusion of his remarks, as follows: "And now Mr. Chairman, I think that the time has come for us to put an end to boomeranging, which is about the only thing that has received a boom by reason of the probability of this bill becoming a law. I believe in charity, but would much prefer that there were no necessity for it. The time has come when we should quit boomeranging charity and monetarize and do something to boom American industries and furnish work at remunerative wages to the American workman."

J. C. LEASURE, of Pendleton, bids up again for the republican congressional nomination for the second district. The first is our district, but it may not be out of place to say that such a nomination would be a great mistake. There are several other men of Eastern Oregon worthy and able—among them Hon. W. R. Ellis, the present incumbent—to say nothing of a man in Astoria (who probably does not want it) and many in Portland—Salem Statesman.

THREE more lucky democrats of Oregon have been favored by Grover. Monday he sent the following nominations to the senate for Oregon positions: F. S. Harding, postmaster, McMinnville; Robert M. Veach, registrar of land office at Roseburg; and Vincent Snelling, receiver of public moneys at Lakeview.

The house committee on Indian affairs made a favorable report Tuesday on the bill to extend for three years the time allowed for the Umatilla Irrigation Company to construct its ditch across the Umatilla Indian reservation. Congressman Ellis asked unanimous consent for consideration of the bill which was granted. The bill was passed and now goes to the president.

The appointment of Frank S. Harding as postmaster at McMinnville is a recognition of the newspaper men of Oregon. Mr. Harding is editor of the Telephone-Register at that place, and judging from the manner in which he conducts his paper we believe him the right man in the right place.

SEN. MATTHEW QUAY, of Pennsylvania, has added a free silver rider to the Wilson tariff bill. The Wilson bill will get some decent points worthy of consideration, even if it does ruin the business of our country by one-sided tariff provisions.

Our valley exchanges say there is a candidate for some office up in Eastern Oregon behind every sage bush. Why that's nothing. Down in Marion county you can find one behind every hop pole. About a standoff, isn't it?

BLAND'S seigniorage bill may pass the house, and in that event will have no trouble in going through the senate. But the veto power will yet be in the way of it becoming a law. The president should not have that power.

It is reported that ex-President Harrison, who is soon to deliver a series of lectures before the Stanford University, will while in California be married to Mrs. Stanford. However, the report is denied.

The dates for the three state conventions have now been fixed. First come the populists on March 14th, then the republicans on April 11th and the democrats on April 17th.

The Oregonian throws the populists, silverites and financial scoundrels all into one bunch for condemnation. We can stand it, even if it does come from the great Oregonian.

Herr, leader of the republican minority in the house, made a righteous stroke the other day when he called Queen Lil a woman of vice, folly and extravagance.

Mrs. SCHUYLER COLFAX is left penniless by the failure of an Indianapolis bank, and a movement is on foot to relieve her financially.

Will Cleveland veto the Wilson bill with its free silver provision should it become a law? Cleveland is liable to do anything.

Masons may be fined \$10 or imprisoned for using cigars, cigarettes or tobacco in any form in public under the new Gill law.

The Salem Democrat has turned up its toes to the daisies. The plant is now offered for sale.

OREGON will have no exhibit at the Midwinter fair, so our commissioners have decided.

GEO. W. CHILDS, the veteran journalist, is dead. He was the printers' friend.

VALENT, the French anarchist, has been executed for bomb throwing.

The gold balance in the U. S. treasury has got down to \$85,000,000.

G. F. RUSSELL, School Supt. of Linn Co., is a defaulter.

#### This is Meant for You.

It is truly said that half the world does not know how the other half lives. Comparatively few of us have perfect health, owing to the impure condition of our blood. But we rub along from day to day, with scarcely a thought, unless forced to our attention, of the thousands all about us who are suffering from scrofula, salt rheum and other serious blood disorders, and whose agonies can only be imagined. The marked success of Hood's Sarsaparilla for these troubles, as shown in our advertising columns frequently, certainly seems to justify urging the use of this excellent medicine by all who know that their blood is disordered. Every claim in behalf of Hood's Sarsaparilla is fully backed up by what the medicine has done and is still doing, and when its proprietors urge its merits and its use upon all who suffer from impure blood, in great or small degrees, they certainly mean to include you.

To grow old gracefully, one must live temperately, calmly, methodically; be interested in all that is going on in the world; be cheerful, happy, and contented, and above all, keep the blood pure and vigorous by the use of Ayer's Sarsaparilla. Be sure you get Ayer's.

#### LEXINGTON ITEMS.

What about squirrel poison and what will the county do?

What is the matter with politics? There don't seem to be any candidates for the various offices.

Mr. E. E. Willis, of Clarks Canyon, goes today to commence work for the season with Ed Ashbaugh, of Eight Mile.

Mr. Thomas Boothby attended a party Friday evening at Douglas, at the home of T. J. League. A good time was had by all. Tom took a young lady from the neighborhood of Mr. Tier's, and was three days making the round trip. How is that for a bachelor? Tom is in it.

J. S. Boothby is the choice of quite a number of the republicans for representative. He is a time-tried republican, and is thoroughly qualified. He was an old soldier who went through the war from beginning to end, and was in many hard-fought battles, and has never offered himself as a candidate for any office. Now, we, his friends, ask a fair consideration of his case.

Muscle and Vigor—A Difference.

Many muscular men encumb to fatigue borne with ease by persons for their inferiority in physical strength. Muscle does not imply vigor. In fact, it is not difficult of proof that athletes do not live as long nor enjoy as good health as weak, no less than upon those debilitated—that is to say, whose digestion and sleep are unimpaired, whose nerves are tranquil, and who has no organic tendency to disease. These requisites of vigor are conferred upon those inherently weak, no less than upon those debilitated through wasting disease, by a thorough, persistent course of Hostetter's Stomach Bitters, the leading national tonic, endorsed and recommended by physicians of eminence. It will not endow you with the muscle of a Cohan, but it will infuse energy into your system, and renew the active and healthful performance of its functions. It averts and cures malarial, rheumatic and kidney complaints, and overcomes dyspepsia, constipation, liver trouble and nervousness.

#### FIRST AWARD AT CHICAGO.

Sheepmen will be interested to know that there is no longer any question as to the relative merits of the different sheep dips upon the market. Christy & Wise take pleasure in announcing that Hayward's Dips (paste and liquid) for which they are sole P. C. agents, have secured the first award at the World's Fair, and last year these dips received the silver medal at California State Fair and gold medal at Mechanics Fair, San Francisco. Every practical sheepman that ever used Hayward's Dips, pronounced them the very best dips for the cure of scab, the general health of sheep and conditions of wool, 181-183-sv.

#### SHEEPMEN, TAKE NOTE!

Some dip makers are publishing false statements concerning awards granted at the World's Fair. Awards were not given for comparative merit—no practical tests took place—and no dip received a "first award." The Cooper Sheep Dip exhibit gained a medal and diploma—the highest award obtainable—and over 300 premiums were secured by Cooper-dipped sheep. No other dip established a record approaching this, which confirms the claims of the long-established Cooper Dip and pronounces it the champion dip of the world. Used on 100 millions annually. Coffin & McFarland, agents. 204-6

#### \$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one cure for that disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

## PATENTS!

### NOTICE TO INVENTORS.

There was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of mankind in the factory and workshop, the household and on the farm, as well as in official life, require continual accessions to the aptitude and implements of each in order to save labor, time and expense. The political change in the administration government does not affect the progress of the American inventor, who being on the alert, and ready to perceive the existing deficiencies, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially in this advice applicable to those who adopt the "No patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F Street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, and general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in the line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepare and prosecute applications generally, including mechanical inventions, design patents, trade-marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Ask Your Friends

Who have taken Hood's Sarsaparilla what they think of it, and the replies will be positive in its favor. Simply what Hood's Sarsaparilla does, that tells the story of its merit. One has been cured of indigestion or dyspepsia, another finds it indispensable for sick headache or biliousness, while others report remarkable cures for scrofula, catarrh, rheumatism, salt rheum, etc.

#### STATE TREASURESHIP.

Hon. W. F. Matlock will be in the Race say his Friends.

From the E. O.

Lines are now being drawn more closely as dates are fixed for state conventions. Hitherto the candidates mentioned for state offices have not been so very plentiful. Eastern Oregon has a strong pull this year and there is a disposition among all the parties to select men from this end of the state to make the race for office. It has just now leaked out that Pendleton has a name to offer for the state treasurership. The gentleman is known in every portion of the commonwealth. He has been prominent in the senate and has proved capable and efficient. His friends propose to get in and drill from now on until the end of the campaign to the end that he may secure the election. They think that pitted against any men the republicans and populists can put up, their favorite will come in under the wire ahead of all. One of them said today:

"Just whisper in the ear of the public that Hon. W. F. Matlock is going to scoop in the office of state treasurer, provided the democrats place him on the ticket. That I am sure they will do. Bill, (you know we all call him Bill for short), will be a thundering good candidate and run like a New York Central world's fair locomotive."

When asked who the republicans in his opinion were likely to nominate, he said: "Phil Metcham, I guess. Phil has a pretty strong republican following and probably can have the nomination."

Senator Matlock being in Portland, could not be seen to give assent or denial to the foregoing.

## PATENTS

### FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.
