Queen Wilhelmins Doomed by Consumption-A Republic Possible Little Wilhelmina, queen of the Netherlands, is believed to be doomed to die with consumption, and the men who rearrange the map of Europe are both sexes. Our treatment for all diseases and deformatics are modern and scientific, acquired spy many year's experience, which enables us to Guarantee a Cure. Do not despair.

The discussing the possibilities, for Wilhelmina, who is but twelve years old, is the last direct reptwelve years old, is the last direct representative of the Nassau-Orange dynasty. There are some distant relatives of the young queen, including an aunt, who is grand duchess of Saxe-Weimer; but, according to the Rochester Herald, no one of them has the slightest claim to the throne. A plan for preserving the territory of the Netherlands will be frastrated if Wilhelmina dies. Her father, William HL, was grand duke of Luxumbourg. The cows became frightened at the buck's sudden appearance, and with their tails in the air they cantered to a corner of the pasture. The bull in the herd did not

When the buck saw the cows capering away he came to a sudden stop. The bull immediately faced the strange mimal, bellowed savagely and began to paw up the dirt. At first the buck noted as if he didn't know what to make of the noisy bull's actions. He backed off a few feet and the bull slowly followed him. Then the bull made a lunge at the buck with lowered horns, and the buck got out of his way by bounding to one side. This was re peated a number of times, the bull becoming more angry at each failure to gore the buck, while the buck eyed his noisy antagonist and kept out of his
