OREGON was never better represented than she is now in both branches of congress. Both Dulph and Mitchell are able statesmen, and hold commanding positions in the councils of the nation. In the lower house, Hermann and Ellis are indefatigable workers and keep careful watch over Oregon's interests.—Times-Mountainier.

IS THIS issue, a populist, formerly a republican, explains that his party as a party, should be for protection for protection's sake. That is all right, but it is on record as a free trade party, and their record in congress proves it. If a populist wants protection for any reason whatever, he should go back to the party of protection and stay with them to victory. This is the great issue, because of democratic promises and tariff tinkering the country is well nigh ruined. A large per cent. of republicans are bimetallicists, and it is growing in favor. The tariff question once decided by the overwhelming victory of '96, then the matter of finance can be dealt with. As it is, the populists are getting the cart before the horse, for with free trade, or anything approaching it, we can put all the good money of the world in the United States and it will go out about as fast as it is brought in. The end, of course, will come and then nothing but bankruptcy will follow. Let protectionists get together and work for the common good.

It will take only \$812 to buy it; 480 acres, 200 acres plow land; one-half mile running water. Improvements: 40 acres fenced, 15 acres cultivated, 2 houses and stable, spring and minor improvements. Adapted to farming, sheep and hog raising. An extensive sheep range joining to Rock creek. Terms: \$110 down; remainder on long time. Location: On county road, two and one-half miles west of Rood Hill, Eight Mile, Or. 320 acres for \$510, or \$108 for ownership in 100 acre school land or will exchange for two good horses. Original cost of school land \$320. Apply at Heppner Gazette office Heppner Oregon. 199-17-sw.

Hood's and only Hood's. Are you weak and weary, overworked and tired? Hood's Sarsaparilla is just the medicine you need to purify and quicken your blood and to give you appetite and strength. If you decide to take Hood's Sarsaparilla do not be induced to buy any other. Any effort to substitute another remedy is proof of the merit of Hood's.

### BLAINE'S PROPHECY.

The following portion of one of James G. Blaine's speeches is now recalled, which reads like a prophecy. I love my country and my countrymen. I am an American and enjoy every day of my life that I am. I enjoy the general prosperity of my country, and know that the workmen of this country are the best paid, best fed and best clothed of any laborers on the face of the earth. Many of them have homes of their own. They are surrounded by all the comforts and many of the luxuries of life. I shudder, however, at the thought that the time must come when all this will be changed. When the general prosperity of the country will be destroyed. When the great body of workmen in this land, who are now so prosperous, will hear their wives and children cry for bread; that the day must come when the great factories and manufactories of this land will be shut down, and where there is now life and activity there will be the silence of the tomb. And the reason why this must be is this: The great southern wing of the democratic party are determined to establish the doctrine of free trade in this land. They will be assisted by their northern allies. The fight is now on. There is a great body of visionary but educated men who are employed day by day in writing free-trade essays and arguments in favor of that doctrine, which find their way to every democratic paper in the land. The great body of our people have never experienced, themselves, the sufferings which always result when the protective principles are laid aside. Poisoned and excited by the wild statements of these writers and demagogic appeals of democratic speakers, the result will be that in the near future these forces which are now working but strong enough to defeat at the polls the party advocating the doctrine of protection. It must inevitably follow that uncertainty and doubt will ensue. The business men of the country, fearing the destruction, will decline to engage in business, consequently mills will shut down and the workmen will be thrown out of employment. The people will then see, as they have never seen before, that they cannot be prosperous and have work while this principle is threatened. To the midst of this suffering they will learn that the only way that they can be prosperous and happy is to vote for the party that has built up the industries by which they have gained a livelihood; because they will then see clearly that when the manufactory is shut down there is no demand for the only thing which they have to sell, and that is their labor.

"Perhaps you would not think so, but a very large proportion of diseases in New York, comes from carelessness about catching cold," says Dr. Cyrus Edson. "It is such a simple thing and so common that very few people, unless it is a case of pneumonia, pay any attention to a cold. New York is one of the healthiest places on the Atlantic coast and yet there are a great many cases of catarrh and consumption which have their origin in this neglect of the simplest precaution of every day life. The most sensible advice is, when you have one get rid of it as soon as possible. By all means do not neglect it." Dr. Edson does not tell you how to cure a cold but we will. Take Chamberlain's Cough Remedy. It will relieve the lungs, and expectoration, open the secretion and soon effect a permanent cure. 25 and 50 cent bottles for sale by Slocum Johnson Drug Co.

"All signs fail"—except pimples and blotches. These never fail to indicate an impure condition of the blood, which may be thoroughly cleansed and renewed by the use of Ayer's Sarsaparilla. The most efficacious and economical of blood purifiers.

Give your pet dogs and cats Simmons Liver Regulator, when sick—it will cure them.

### PARTINENT TO THE PEOPLE'S PARTY

For the People's Party Voters.

For the benefit of your many readers, we wish to give a few facts from well-known authors for the purpose of showing to the real character of the people's party. There have been so many unwarranted statements charging us as a party with wishing to split the republican party that the Democratic party might once more come to the front, that we deem it highly important that the voting element should know the ground we occupy. We have not the time to discuss the entire platform, but we believe the Omaha platform in full, as only sixteen lines were two more planks added down solid upon which to stand, namely, tariff for protection's sake and prohibition for the sake of the protection of the people, especially as a safeguard for the rising generation and the women who have no say in our elections, but are held amenable to our laws. These two planks may not be endorsed by all, and especially at the first glance it does not look so when we take into account the vote cast by the party in the house on the Wilson bill, but we believe the vote was cast in favor of that bill only for the purpose of lowering the democratic party in the estimation of the people; we can but denounce the vote, though they were not committed in their platform while democracy was, but such a vote casts reproach on the entire party.

But in order to show the people that as a party we do not endorse any part of the tariff and democracy we quote from Advance Thought, a paper well endorsed, speaking of democracy it says, "It has the president, the congress, the senate and the supreme court all filled with its emissaries and janitors and now is fast filling the poor houses, the soup houses, the asylums and the streets with the victims of the financial and political mismanagements of the worst kind of our party ever had." Again the same paper says, "The more a man knows of the financial mismanagement of this country at the hands of both the old parties the more he kicks and the more he feels like kicking himself." Such statements show that our party is not endeavoring to lift either of the old parties into power, but firmly believes in the principles of the platform we endorse, not wishing to subtract from it, but would rather add planks containing principles of broadening philanthropy, just as a party claiming the patronage of the people should do.

One may generally judge a party by the out-spoken expressions of their leading organs. However, like all new enterprises of a political nature, our party is besieged by a class of adherents which are a disgrace to any philanthropic movement such as these who are anxious for war without counting the cost either in blood or mortality. But we steadily deny that the influential leaders of the party have any such object in view, but aim at the maintaining of the national integrity and the general upbuilding of the best interests of all the people. Hence our leading authors advocate the tariff for protection's sake, though they do not believe that protection ought to be so high as to build up the interests of one man, to the detriment of the masses. We do not believe the tariff to be the great issue upon which hinges American prosperity, but we believe that financial legislation has done more toward producing hard times than all other laws put together, though we are frank in admitting that tariff tinkering has contributed its share.

"In 1831 Gen. Jackson in his message congratulated the country upon its growth in manufactures, agriculture and commerce and the excess of revenues over expenditures had been for that year \$10,000,000. During all this time the country was under bimetallic, gold and silver both having been freely coined and both being of full legal tender since the opening of the mint in 1792." And during this time the country was under reasonable tariff, but when the tariff was cut so low as to admit foreign goods on our markets, then our gold and silver was soon taken from the country, because the output of our mines would not supply the demands. These things teach us to suppress neither gold nor silver, but keep them as full legal tender and look well for a reasonable protective policy.

If England should send her armies here to conquer us we would hand them back with a determination that would surprise the world. But her capitalists may dictate our financial policy and we bow to their gold as readily as the Israelites bowed to the golden calf, and let our congress chain us down with a ponderous gold chain that will draw us to destruction. Still their greed is not satisfied; we must hand our property in golden bonds until we can no longer sing the songs of freedom or chant the ode of American liberty.

WILL HOOKINS.
