Announcements.

FOR JOINT SENATOR.

At the earnest solicitation of my friends, I have decided to become a candidate for joint senator, for the counties of Harney, Grant and Morrow, subject to the will of the convention for the senatorial district, April 11, 1894.

FOR REPRESENTATIVE.

Through the solicitation of my friends, I wish to inform the republicans of Morrow county, that I will offer myself as a candidate for representative.

FOR SHERIFF.

Among the possibilities for sheriff, I desire to be considered subject to the decision of the republican nominating convention, March 24, 1894.

FOR TREASURER.

Being afflicted with the office itch, and desiring to finger in the county funds, I hereby announce myself a candidate for the office of county treasurer subject to the pleasure of the regular republican county convention.

FOR SCHOOL SUPERINTENDENT.

By the request of my friends, I have decided to become a candidate for county school superintendent, subject to the will of the republican nominating convention, March 24, 1894.

EX-DETECTIVE DAN COUGHLIN, famous as one of the Cronin murderers, has been discharged.

THE Brazilian rebellion is at an end, and yet the great dynamite cruiser, Nichitro, didn't get to live a shot.

GERMANY has appointed a commission to look into the merits of the silver question. It is composed principally of internationalists, and is a hopeful sign.

Gov. PENNOYAN's alleged Seattle "snuff" story consisted of a comparison in which he likened a certain move of the old parties to the fault and slip of a girl which she hoped would be excused because it was such "a little thing."

IN the course of a speech in the upper house of congress a week ago Thursday Senator DILL used these words: "But I wish to say to my democratic friends that a day of reckoning is coming. The handwriting is on the wall. The people of this country will repudiate you as soon as they get an opportunity. The next house of representatives will be overwhelmingly republican as the present is democratic. The next president will be a republican. The people of this country will never rest until by their ballot they have placed the party of protection in a position to undo the mischief which this congress has already done and will yet do."—Statesman.

The republicans are, perhaps, aware that tomorrow is the day appointed for primaries, and one week from that date the selection of candidates for county officers and for representative occurs. Our best material, in the judgment of the convention, should be chosen. No one should feel sore over the result, but bear in mind that the candidates of the convention should be the candidates of the party. This year is decidedly propitious for republicans, and united effort will succeed. If you work against one nominee, even, you weaken the ticket. Then let all join in one grand effort to bring in Morrow county solid in June, a goodly part of that 2,000 majority that belongs to the republicans in the great commonwealth of Oregon.

A VALLEY exchange very truthfully remarks that Ellis is the only logical candidate for congress from this district. Yes, it would be worse than folly to substitute anyone for Ellis. As The Dalles Chronicle suggests, Ellis is doing well enough, and will do better right along as he familiarizes himself with the work. He has already got through some important bills, and has shown that he is a vigorous worker. Oregon may as well not have a representative as to change every two years.

AT MANY of the populist county conventions held in this state last Saturday they decided, notwithstanding the efforts of the democracy to receive recognition, to adhere strictly to one of their cardinal principles by "keeping in the middle of the road" and nominating a full ticket composed only of those who forewear allegiance to all other parties and subscribed to the Omaha platform. So it seems that the democracy's courtship has as yet availed nothing in the line of union.

OF the populist ticket selected for Morrow county it might properly be called "The Great Unknown." As Mrs. Partington would say, the nominees are obscure celebrities. Yet that may be in their favor. It is sometimes a candidate's advantage to be little known. But, however, little celebrity the nominees may have, it is a safe guess to say they will poll the full populist vote.

A DEVALO, N. Y., man has been selected to succeed Stage as receiver of the Oregon National Bank at Portland. The fight against Stage was made by parties in this state with a hope that they might be appointed. But Cleveland became suspicious of them all and will appoint a man from his own state on whom he can rely. This gentleman will also pass on all appointments in Oregon where the boys can't agree.

THERE may have been times when independence in politics was consistent, in a measure, but now it is out of question. The only course left is to vote the republican ticket straight, "early and often." Principle before men every time. Besides the republican party has as good citizens as can be found anywhere.

The editor of the Record starts out a little enthusiastic for a fresh haul. A few months' labor in this section of the vineyard, under a democratic administration, will cool his ardor somewhat.

ORGANIZERS, republicans, and stay with it. Remember that organization begins in the precinct, county and district, and if we ruin the foundation of the structure, the whole will fall.

BOB JOHNSON has been appointed postmaster at Corvallis. Bob was for several years editor of the Times, a staunch democratic paper of that place.

R. S. SHERIDAN has been appointed by the president as receiver of public moneys at the Roseburg land office. Another plum.

C. A. JOHNS, of Baker City, announces in the Oregonian that he positively will not be a candidate for congress from this district.

DE GAMA has at last surrendered to Peikoto and thus ends the Brazilian farce.

HENRY BLACKMAN INSTALLED.

The New Revenue Collector Assumed his Duties Wednesday.

Henry Blackman, the newly appointed internal revenue collector, was installed in office Wednesday afternoon. At that time he announced the following appointments:

For local offices—Temporary chief clerk and cashier, J. Emmett Bollinger; office clerk, Randolph Harrison, and stenographer, John Rodgers, all of Portland. Traveling deputies—E. L. Mims, of Pendleton; J. B. Mullay, of Portland; A. J. Barlow of Gold Hill. United States city gauger—Howard C. Dodson, of Heppner. Chief Clerk J. Frank Davis, of the Weilder administration, will be retained as instructor.

For Washington the traveling deputies are: John Nestor, with headquarters at Spokane; John Lenby, with headquarters at Walla Walla; store-keeper and gauger, M. S. Hellman, of Tacoma, with headquarters at Unawatona. So far no appointments have been made for Seattle and Tacoma, Wash., and for Medford and Grant, Or., as those places are to be filled by the secretary of the treasury upon the recommendation of the collector. And at present the Chinese registration department also will remain undisturbed.

"The Blood is the Life."

Rena the old saying, and everything that ever makes part of an organ of the body must reach its place therein through the blood. Therefore, if the blood is purified and kept in good condition by the use of Hood's Sarsaparilla, it necessarily follows that the benefit of the medicine is imparted to every organ of the body. Can anything be simpler than the method by which this excellent medicine gives good health to all who will try it fairly and patiently.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringing by others, submit the matter to us for a reliable OPINION before acting on the matter.
