TOOK THEIR MEDICINE.

The Astoria convention was held under the combined auspices of the kids and crowd-esters. The latter ruled the roost.

The following endorsement of Cleveland is a part of the platform: "We again declare our faith in and advocacy of the imperishable principles of the democratic party as reaffirmed by the Chicago platform."

"We have an abiding faith and implicit confidence in the integrity, good faith and patriotism of President Cleveland, and we believe that he will accomplish, so far as his power, before the close of his term of office, all the pledges of the democratic party contained in the national platform, adopted at Chicago in 1892."

Then almost in the same breath comes this:

"We reaffirm the position that has ever been maintained by the democratic party, that gold and silver are equally the people's money. We are opposed to all measures of discrimination against silver, and demand free coinage to supply the demands of business, and that all money issued by the government be made a legal tender for all debts, both public and private."

We must at once conclude that the party has yet some very good adherents. The faithful, backed by the office-holders who dared not chide, made up this contingency, and so we have the endorsement to appease Cleveland and the half-hearted silver plank to satisfy the voters. But it won't work. Oregon is down on Clevelandism and democracy in any form, for both have proved untrustworthy. If we are to believe the signs of the times, the people of Oregon propose to lend their aid as a majority, to bring around the good old times of republican rule. They have had experience enough for one lesson, and they propose to have it end as soon as possible.

Hua and Geary are being denounced by the administration democrats, but not by the people. We want more democrats of the Hill Geary stamp in congress right now.

This county democrats spoke about "tariff reform" but not a word for the administration. Good thing they didn't try to endorse it. There isn't a corporation's guard of administration democrats in Morrow county.

When the democratic house is compelled to adopt republican rules to do business; when leading democrats come out in the halls of congress against democratic tariff ideas and in favor of the regime left behind, it seems to the bulk of our population that there is no further use to follow blindly what they know to be wrong in principle and practice. They see no need of remaining with the democratic party because of its name, but rather are going over to the party of prosperity, the party that leads all others and whose example must be followed even when the whole machinery from top to bottom is democratic, to prevent the country from going to total ruin. The democratic party has acknowledged its inconsistency and incompetency.

The editor of the Record misconstrues our position if he thinks that we compared him to York. That was not intended at all. We simply said that the Record's explanation of low democratic primaries were run, reminded us of York's explanation of his conduct in Heppner, and that they were alike in this respect, that the less said the better. If anything else was made out of our remarks, it was not what was intended.

MR. FRANK KELLOGG, of Heppner, has been chosen by the democratic party to make the race for joint senator, of Morrow, Grant and Harney counties. As a citizen, Mr. Kellogg well thought of in this vicinity, but he will have to meet constantly the record of his party. Protectionists could not expect him to vote for a protectionist U. S. senator, and that seems to be in opposition to the wishes of the majority in this section.

OUR ticket, state, congressional, district and county, is one of the best ever put into the field, and from the point of fitness the voter could not do better than support the republican ticket. But remember that behind the personnel of the ticket, there is a principle greater than any man.

HON. J. H. RALEY is certainly the best material that the democratic party could have mustered to make the race for congress. But Raley is a democrat, and the democratic policy has well-nigh ruined the country, so it is certainly an unpropitious time for Mr. Raley to come out.

Though Reed has been cursed and abused for his famous rules of 1890, he and his party have forced the present house to adopt them, long ago declared constitutional by the supreme court. This is right. If a quorum is present it should be counted whether voting or not.

Mrs. WILLIAMS, the wife of Ex-Attorney General Williams, died in Portland this week. She was formerly quite a society leader, but of late years was the leader of a peculiar religious society.

LAST week Portland was visited by Hon. Robert T. Lincoln, and this week Hon. Henry Waterson, the apostle of democracy, is in the metropolis.

THE populists refused to fuse. The democrats ditto. So what's the use of talking about local mongrel tickets?—Portland Telegram.

Our better halves say they could not keep home without Chamberlain's Cough Remedy. It is used in more than half the homes in Leeds—Sims Bros., Leeds, Iowa. This shows the esteem in which that remedy is held where it has been sold for years and is well known. Mothers have learned that there is nothing so good for colds, croup and whooping cough, that it cures these ailments quickly and permanently, and that it is pleasant and safe for children to take. 25 and 50 cent bottles for sale by Slocum-Johnson Drug Co.

RESOLUTIONS.

We, the committee appointed to draft resolutions on the death of Edward Saling, father of our esteemed brother, W. L. Saling, beg leave to make the following report:

WHEREAS, It has pleased the Supreme Ruler of the Universe to take away from our midst Edward Saling, father of our esteemed brother, Past Chancellor W. L. Saling, therefore be it

Resolved, That the sympathy of this lodge is tendered to our brother in this his hour of bereavement.

Resolved, That these resolutions be placed on record and that a copy of same be sent to the Gazette for publication.

LAND FOR SALE.—480 acres over in Wilson prairie. A good stock ranch. It will be sold cheap. Call at Gazette office for particulars and terms.

THE RIGHT PARTY.

This country is at present suffering principally from ill-advised tariff tinkering, and fear that the democrats will get through some of their free trade ideas. It is certainly true that the world at large is in a bad strait in the endeavor to do business on a gold basis. But to remedy this evil here we must return to a regime of unqualified protection to American industries with nothing in sight, either actual or threatened, to stop the wheels of industry and business. Then adequate silver legislation will be in order. It is absolutely necessary, but would be of no avail under a tariff system that would take out our good money faster than we could make it under the most favorable circumstances. In order to not get the cart before the horse, the Gazette endorses the republican party in its efforts to continue unimpeded an adequate protective tariff, knowing from experience that this is the only tariff system under which an American can live.

No one party, not even the populists, claim to be an exclusively silver party, for their endorsement of silver is generally understood by their adherents, is not from the standpoint of bimetallicism, but really on the principle of anything for money so long as it bears the government's stamp. They seem to care little as to which represents the medium of exchange fluctuating the least, and bearing the closer relations to the products of the farm and range. It is a mad cry for more money without regard to a kind, quality or condition of issue. In this, of course, we speak of the rank and file. But all political parties have within their ranks true bimetallicists, and when the time arrives to act it is expected that all will join hands, but at present it is useless to throw away all our opportunities to get at the real trouble, impending free trade, by leaving the republican party, the only one advocating protection to American industries, and joining any other party.

No, the Gazette never claimed the republican party to be an exclusively silver party, but it is hardly necessary to refer to such a statement, for our readers know better.

No one would think of calling the democratic party other than a free trade party, though they have Hill and Geary in their ranks, two protectionists. And the populist party occupies the same position, though they have two protectionists Puffer and Allen. If anything on the tariff question, as a party, they are free traders. But our local writers on populist ideas insist that they must not be humiliated by the standard which they insist on measuring others. And further, that every person must, without question, swallow what they read in their literature and papers, reiterated as original in our county papers.

The trouble here principally arises from democratic promises which the populists have shown themselves willing to assist in redressing. It affects every person in our midst directly or indirectly, and the only safe proposition is to vote for the party of protection from governor down to constable. If you believe in the principles of the republican party, you cannot safely vote the "sineews of war" into the hands of a single individual opposed to true republicanism. To bring about complete national success, our organization, locally, must not be made to suffer.

It is a campaign of principle ahead of men, and the republican party as a unit against any individual sentiment of personal preference. It has come down to a matter of hard facts, and Morrow county must be placed without exception where the interests of our people lie, in the hands of the party of protection. This party and no other can bring us back where we left off in 1892.

SCHOOL REPORT.

The following is the report of school district No. 46, Morrow county, Oregon, for the month beginning March 19, and ending April 13, 1894.

No. of days taught 19; No. pupils enrolled 13; average daily attendance 12; names of pupils who have been neither absent nor tardy during the month are: Battie Edwards, Bessie Edwards, Ernest Edwards, Sadie McCarty, Elsie McCarty, Loy Turner, Frank Turner, Elva Gentry, Iva Gentry and Freddie Crump.

School was closed on Tuesday, April 3, in memory of Director E. Saling.

NELLIE HOLT,
Teacher.

It will be an agreeable relief to persons subject to attacks of bilious colic to learn that such relief may be had by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy. In many instances the attack may be prevented by taking this remedy as soon as the first symptoms of the disease appear. 25 and 50 cent bottles for sale by Slocum-Johnson Drug Co.

Nervousness is from dyspepsia. Take Simmons Liver Regulator and be cured.

LEXINGTON ITEMS.

Miss Althea Leach has opened a new millinery store in the postoffice building. Thomas Reaney started to British Columbia, via Palouse country, last Monday. His family will go as far as Pullman, Washington.

Pomplour Jim seems to have given us the cold shake lately. Just why this should be we can't imagine, but brachy stock like to hover around poorly-fenced pastures.

J. D. Hunsinger and wife left on last night's train for the East. Mrs. H. will visit relatives in Illinois, while Jack will go in cahoots with Theodore Daner in the picture business in Arkansas.

Our irrepresible doctor still holds the fort and seems to be doing quite well. The month disease is rarely heard of any more, and with the exception of a few sore heads and hypochondria, Lexington is a model town.

The ticket nominated at Heppner by the democrats was well received here, Lexington has two chances for representative, anyhow. We will bet there will be less enough told between the three parties to sink them all before election time.

Dampman has returned from Arlington bringing great stories of trances, visions, etc. Don't know how many people he and the Elder succeeded in humbugging on the trip. What a pity that intelligent men should lead themselves out for such small business.

Some of our good people have an Elephant on their hands and would like to rid it upon some other community. We can't see the Elephant is so much to blame, considering the way in which the good people flattered and fawned upon said Elephant, and considering that it probably has feelings and passions "just like folks." Still, we should remember that a man's calling does not make him a privileged character nor entitle him to liberties which should be denied another. He has probably learned that the people who flattered him are always the first to despise and condemn him. Peace to his ashes.

LEXINGTON, April 14, 1894.

The Complexion of a Chinese.

Is not yellower than that of an unfortunate individual whose liver cannot be assumed the chronic form. The eyeballs of the sufferer assume a saffron hue, there is dull pain in the region of the organ affected, the tongue is coated, breath sour, sick headaches usually but not always occur, and there is sometimes dizziness on arising from a sitting posture. Constipation and dyspepsia are also attendants of this very common ailment, always in its aggravated form, liable to breed abscesses of the liver, which are very dangerous. Hostetter's Stomach Bitters wholly eradicate it, as well as the troubles complicated with it and which it originates. In chills and fever, a complaint which always yields to the Bitters, the liver is seriously involved. This fine alterative tonic removes costiveness and indigestion, rheumatic, nervous and kidney trouble and debility.

IONE ITEMS.

Mrs. A. Glock and son, Ed, departed Monday for Illinois, their old home. Ed will return again.

The democratic primary was held on Saturday, and on Tuesday Messrs. Tom Cagle, Joe and Tom Woolery, Frank Holland, Bev. Swift and others were in attendance at the democratic convention at Heppner.

The enrollment of the Pettys school numbers 19. Miss Ella Mason, a well qualified and experienced teacher who has charge of the school, gives excellent satisfaction.

It is the opinion of many democrats and populists as well as republicans, that our nominee for superintendent of schools will be elected. Having obtained a thorough education and active as a teacher since her fourteenth year, in graded as well as ungraded schools of several Eastern states and Morrow county, she, as to qualifications for the office, is without superior.

An entertainment was given at the Rhea creek school on Friday, April 6, consisting of songs, declamations, dialogues and descriptions of magic lantern scenes.

Irrigation implements will soon be at hand. The route of the irrigation ditch will then be speedily surveyed and active work will at once commence. It would be a good plan for each farmer interested to take shares as compensation for work. They would then have a voice in the general management of its affairs, according to their number of shares and not leave it in the hands of a corporation. Irrigation is the only salvation; it will be to the fullest extent. Lend a helping hand. It is your duty. Every farmer and business man will be benefited.

LEAVE, April 4th, 1892. If you are melancholy or down with blues you need Simmons Liver Regulator.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.
