REPRESENTATIVES Hermann and Ellis will not go to Oregon to take part in the campaign, neither will Senators Dolph and Mitchell, says the Oregonian. In the house the river and harbor bill may come up any time, needing the representatives' attention, and the tariff in the senate will hold the senators in Washington. This shows that our delegation fully appreciate what they have been sent to Washington for, and the voters will also appreciate their action.

IN REGARD to ye pert Record's question about our candidate for representative, we will say that Mr. Boothby has been in the county long enough to be identified with it. He was here when it was made a county, and in one of our permanent candidates, who has not been here quite two years and who, as a school teacher, could pack his grip and get out of the county in twenty-four hours, he is one of us. He served in the Union army and nobly did his part towards keeping the United States one country, and as an ex-soldier, citizen and neighbor, is entitled to be called a "grand old man," for such he is. Matters not how much the populists and democrats attempt to belittle Mr. Boothby, he will get the votes to elect him as a renominable representative from Morrow county.

THE democrats have at last succeeded in putting up a piece of a ticket in Multnomah county, and now expect the populists to retire part of their men and stand in together. It may act as a "fuse." The record of the democratic party is such that they can hardly hope to win in Multnomah county, even on the plan adopted.

THE Oregonian is asked why it has not criticized the demand in the state democratic platform for an income tax. Because it is a matter of no interest. Nobody has any income to be taxed, or is likely to have, so long as "democratic times" continue.—Oregonian.

THE "industrial" army is on the increase. With the different branches there are now fully 100,000 men enroute to Washington. They had better wait till '96 and march over to the polls to vote for a return of the old regime.

Deafness Cannot be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists.

AN OLD PRINTER.
Has Run Newspapers in Several Portions of the West—now Tramps From Place to Place.

Robert Bruce Smith, an old printer, dropped in our office last Friday evening. Mr. Smith began journalistic life by publishing a paper called the Herald in Eugene, Oregon, in the year '61. When the war broke out, Mr. Smith and his associates in the paper failed to agree, he taking the part of the north and they being in favor of slavery, so the publication of the Herald was suspended. Mr. Smith afterwards edited a paper at The Dalles, Oregon, and at other places in Oregon and California.

He is a good printer and a good writer; but, like many others, had not the good sense to keep that which he made when times were prosperous with him, but formed the habit of traveling from place to place, with the result that he is now an old man, growing feeble with age, without money or friends, and wandering aimlessly about, unable to get work at his trade. A few more years of wandering, and some day he will lay his body down never to rise again. It may be along some highway, or in some sheltered nook in the city. He will be found but will be unknown, unrecognized; and will be buried away in the potter's field, without a single friend to shed a tear over his grave or say a few kind words in honor of his memory. — Esparto (Cal.) Press.

R. B. Smith is well known here as "Rocky Mountain" Smith. Once he was employed by the Gazette till he collected together three weeks' wages, and then he bought a new suit of clothes, got drunk and proceeded to have a glorious time. In a few hours his funds were gone and as it took money to buy whiskey, there threatened to be a sudden shutting off of stimulants. However, "Rocky" kept comfortably full for several days thereafter. At the same time it was noticeable that the print shop was losing furniture and material somehow, and on investigation it was found that about one-half of the Gazette was "in soak" down at a neighboring resort for the "ardent."

The Spring Medicine.
"All run down" from the weakening effects of warm weather, you need a good tonic and blood purifier like Hood's Sarsaparilla. Do not put off taking it. Numerous little ailments, if neglected, will soon break up the system. Take Hood's Sarsaparilla now, to expel disease and give you strength and appetite.

SCHOOL ENTERTAINMENT.
To be given at the Opera House Next Monday Evening—Proceeds for Benefit of School.

The following is the program for the school entertainment, to be given at the opera house next Monday evening:
"Welcome song," by primary pupils.
"Words of Welcome."
Declaration, "Being a Boy."
Song, "Have One Kind Thought of Me."
Doll Drill, by twelve little girls.
Medley, by third room pupils.
Recitation, "Little Fox's Letter."
Recitation, "Erie's Soliloquy."
German song.
Declaration, "Mother's Fool."
Song, "The Shoemaker."
Hankered Drill.
Declaration, "Little Boy's Trouble."
Song, "A Farmer's Boy Am I."
Declaration, "Boy's Letters."
Song, "The Little Workers."
Recitation, "The Seal Little Girl."
Song, "The Seal Little Girl."
Dialogue, "Four Celebrated Characters."
Choreta, "The Enchanted Wood."
The last on the program, the operetta, can be best understood by the following synopsis:

Six children start out from school on an expedition into the woods, but after some quarrelling, separate and wander singly into the borders of an enchanted wood. Here, by order of the Fairy Queen, they are lured further on till they sink down exhausted, and are then thrown into a deep sleep by six fairies with poppy wands.

Mother Goose, who is a guest at Court, then requests the pleasure of transforming them into such characters of her own rhymes as they most resemble, and they are roused to find themselves Jack Horner, Bopeep, etc. Here they are kept at their tasks till a rescuing party of Boy Police, sent by the distracted teacher, comes to their assistance; but the Police fare little better, for, also lured on by fairy voices into the presence of the queen and Court, they are about to "charge" when suddenly transfixed by her potent wand, they are held as rigid as so many statues.

At length, however, all are released, and after wandering "through bog and brier" the livelong night, find their way back to their disconsolate teacher in the morning, thankful to be once more their proper selves, with a chance to correct their faults and resume their daily tasks in peace.

The Complexion of a Chinese.
Is not yellower than that of an unfortunate individual whose liver complaint has assumed the chronic form.

The eyeballs of the sufferer assume a saffron hue, there is dull pain in the region of the organ affected, the tongue is coated, breath sour, sick headaches usually but not always occur, and there is sometimes dizziness or arising from a sitting posture. Constipation and dyspepsia are also attendants of this aggravated form, liable to breed abscesses of the liver, which are very dangerous. Foster's's Stomach Bitters wholly eradicates it, as well as the troubles connected with it, and which originate in chills and fever, a complaint which always yields to the Bitters, the liver is seriously involved. This fine alterative tonic removes costiveness and indigestion, rheumatic, nervous and kidney trouble and debility.

FROM THE DALLES.
There has been but very little wool received at the warehouses here. What has been is of very fine quality and would command an unusually large price but for the agitation of the tariff.

Mrs. C. W. Johnson will visit Heppner in a few days. This will leave Chas. at home to learn something of how to be a man. Mrs. Johnson is a daughter of Mr. and Mrs. W. O. Gentry.

Walter Gentry is now located at Baker City, having secured a very nice position in a mine there.

The populists of Wasco county are so scarce that one never hears of them. That is, hardly ever.

The railroad around the rapids at Celilo is already laid quite a little distance, and everything is being gotten in readiness for an "open river to the sea." We have it from good authority that there has been subscribed \$400,000 for the furthering of this enterprise.

The Dalles Orchestral Union, consisting of twelve of the leading young men, have leased the new opera house, and have secured the St. Perkins Comedy Co. for the 25th, to be followed in a short time by home talent in "Enlisted for the War." The boys furnish music for all the traveling theatrical troupes, and render some very fine music. They intend giving a series of concerts in the near future, which will be heartily supported by the citizens.

Salmon are increasing but very little, but fishermen look for a heavy run in the near future.

Gro. Noble, Jr., leaves for Baker City in a few days, anticipating work in the mines there.

Miss Jennie Noble is visiting relatives and friends here.

The Dalles Orchestral Union intend in the near future to visit other towns near by and give some of their fine concerts. Heppner will undoubtedly be in it as we have assured them a hearty welcome there.

THE PANIC CIRCULAR.

Issued March 13th, 1893, by the American Bankers' Association to all National banks.

DEAR SIR:—The interests of National banks require immediate financial legislation by Congress. Silver Certificates and Treasury Notes must be retired and National Bank Notes, upon a Gold basis, made the money. This will require the authorization of from \$600,000,000 to \$1,000,000,000 of new bonds as a basis of circulation.

You will at once retire one-third of your circulation and call in one-half of your loans. Be careful to make a money stringency felt among your patrons, especially among influential business men. Advocate an extra session of Congress for the repeal of the prebidding clause of the Sherman law and act with the other Banks of your city in securing a large petition to Congress for its unconditional repeal as per accompanying form. Use personal influence with Congressmen and particularly let your wishes be known to your Senators. The future life of National Banks as fixed and Safe Investments depends upon immediate action, as there is an increasing sentiment in favor of Government legal tender notes and Silver Coinage.

The above circular explains the cause of the hard times, and it is not the tariff as the leaders of the two old parties will try to make people believe.

WILL 1896 BE TOO LATE?

While holding in view the great commotion in the body politic of these United States, we are inclined to think the above question one worthy of more than simply a passing thought. There never has been a time in the United States when there has been so much deep laid scheming, on the part of the backers of our government, for the purpose of pulling down the common people into abject slavery, as there is now going on; and such has been under headway and gaining momentum for the past thirty years.

The associated press system of dispensing news has proved to be a deep laid scheme for the blinding of the people, by suppressing real facts in finance, until there could be enacted such laws as were necessary in order to bring the common people under the money power, and where the necessary laws have been delayed, either through neglect or by misconceived ideas, at the proper time the press has only to uphold the disastrous conduct of the officials, and the main body of the people seem to think it all right, as was the case with Secretary Foster in the optional move in paying off the silver certificates with gold. And the same may be said of Secretary Carlisle in bonding the government for fifty millions without any authority for so doing, save that the associated press upheld him, and that press received all its news as dictated by one Henry Clews,

who is the hired attorney for London bankers, and is stationed in New York to manipulate the power of European capital towards the enslaving of the people.

It seems high time the voters of the United States were laying aside all party prejudices and looking stern facts in the face with as much boldness as our forefathers faced the British arms in the revolution. Starvation stared them in the face, and it has its keen eye in full glare on us.

But will 1896 prove to be too late to remedy the fatal errors now being enacted? I am rather inclined to think it will be too late to save the shedding of rivers of blood, for it always has taken blood to cover the sins of the nation, as it did to cover the crime of African slavery in the Southern states, and I believe that history will bear me out in the assertion that when a nation grows so notoriously wicked as ours, as is proven by the kind of legislation we have been getting for some years, and the kind of men we elevate to the highest positions in our government, that nothing short of total obliteration will satisfy the gods.

But if the voters will rush to the rescue, we think possibly our government may yet be saved the fate, which has so surely befallen other nations when they have followed after lust, avarice and greed. VILL HOUSMAN.

HARDMAN, Ore., April 5, 1894.

The Most Successful Gas Engine.

In the market is run without an electric spark battery. Theory is all very well, but the everyday experience of constant practical use is the best test of merit. The man who runs a launch and finds himself drifting with tide and wind because the "spark" fails to ignite the charge of gas in his engine; the man who prints a daily paper and fails to get it off on time because the "spark" again fails; the man who has fruit that is injured for lack of irrigation because the "spark" fails in his engine that runs the pump; not only such parties but others who have trouble from like causes should bear in mind that the Hercules Gas and Gasoline Engine is free from such difficulties. The ignition is simple and sure. Send for catalogue. If you want second-hand engines of other makes at cheap rates we can supply you. We have a number taken in trade and cannot take any more until they are realized on. FAIRMER & REY TIRE FOUNDRY, Front & Alder Sts., Portland Oregon.

Our better halves say they could not keep house without Chamberlain's Cough Remedy. It is used in more than half the homes in Leeds—Sims Bros., Leeds, Iowa. This shows the esteem in which that remedy is held where it has been sold for years and is well known. Mothers have learned that there is nothing so good for colds, croup and whooping cough, that it cures these ailments quickly and permanently, and that it is pleasant and safe for children to take. 25 and 50 cent bottles for sale by Slocum-Johnson Drug Co.

Increase the appetite by the use of Ayer's Cathartic Pills. They cause the stomach, liver, and bowels to perform their functions properly, do not debilitate by excessive stimulation, and are not irritating in their action. As an after-dinner pill they are unequalled.

Take Simmons Liver Regulator for headache, constipation, indigestion or biliousness.

Simple ailments neglected may grow deadly. A handy remedy is **Beecham's Pills** (Tasteful) in all cases where Liver and Stomach trouble is suspected. 25 cents a box.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.
