NOTICE TO INVENTORS.

There was never a time in the history inventions and improvements in the arts and sciences generally was so great as of our country when the demand for now. The conveniences of mankind in the factory and workshop, the household and on the farm, as well as in official life, require continual accessions to the appurtenance and impliments of each in order to saye labor, time and expense.

The political change in the administraon government does not affect the progress of the American inventor, who being on the alert, and ready to perceive the existing deficiencies, does not ROUND THEFT TICKETS GOOD FOR permit the affairs of government to deter him from quickly conceiving the remely to overcome existing discrepancier Too great care cannot be exere's d in choosing a competent and skillfor attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employ ment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, se the breadth and strength of the patent is never con-sidered in view of a quick endeavor to get an allowance and obtain the fee.

Says Carrie E. Stockwell, of Chester-field, N. H., "I was afflicted with an extremely severe pain in the lower part of the chest. The feeling was as if a ton

weight was laid on a spot the size of my hand. Dur-ing the attacks, the perspiration would stand in drops on perspiration would stand in drops on my face, and it was agony for me to make sufficient effort even to whis-per. They came effort even to whis-per. They came suddenly, at any night, lasting from

thirty minutes to half a day, leaving as suddenly; but, for several days after, I was quite pros-trated and sore. Sometimes the attacks were almost daily, then less frequent. After about four years of this suffering, I was taken down with bilious typhoid fever, and when I began to recover, I had the worst attack of my old trouble I ever experienced. At the first of the fever, my mother gave me Ayer's Pills, my doctor recommending them as being better than anything he could prepare. I continued taking these Pills, and so great was the benefit derived that during nearly thirty years I have had but one attack of my former trouble, which yielded readily to the same remedy."
