THE PROFESSOR SWOONED.
Because the Young Ladies Laughed at His Attempts to Speak English.
A rather severe lesson in manners and hospitality was given by Sig. Macchi, commissioner-general of the midwinter fair for Italy, to the twenty or thirty stenographers who assembled in an office of the Mills building the other evening by listening to the views of Prof. Buzzoni, a teacher of shorthand in one of the leading institutions of Italy, says the San Francisco Examiner.
The object of the meeting was to take steps toward an exhibit of the different systems of stenography in this country at the fair, the ultimate aim being the perfecting of the system embodying the best elements of the leading systems now in vogue.
Prof. Buzzoni, who speaks very little English, began reading an address, but was from time to time interrupted by the younger female portion of his audience, who were unable to suppress a desire to laugh outright.
Sig. Macchi at last called attention to the professor's address, and the confusion of the latter's lack of proficiency in the English language, spoke of America's boasted hospitality and generosity to strangers, and so shamed his listeners that quiet was restored.
But his treatment had been too much for the teacher of stenography, who had been growing paler with anger as he proceeded, and withal at the conclusion of his comparatively short address swooned outright.
A doctor was hastily summoned and restoratives were administered, but it was over an hour before the patient recovered sufficiently to be conveyed to his hotel.
Much to the regret and mortification of the few who listened attentively to the professor's address, the meeting was adjourned indefinitely.
The outrage that has been committed to-night," said Sig. Macchi, "and the lack of manner and breeding shown would be hard to find in all of Italy and I am afraid that this proposed movement inaugurated by one of my country's most prominent teachers has received a death blow, as Prof. Buzzoni is a man of nervous disposition and must feel deeply the laughter and disorder that greeted his efforts."

Better Than Pills
As old as the hills, and never excelled. "Tried and proven" is the verdict of millions. Simmons' Liver Regulator is the only Liver and Kidney medicine to which you can pin your faith for a cure. A mild laxative, and a purely vegetable, acting directly on the Liver and Kidneys. Try it. Sold by all Druggists in Liquid, or in Powder to be taken dry or made into a tea.

Prof. Buzzoni, who speaks very little English, began reading an address, but was from time to time interrupted by the younger female portion of his audience, who were unable to suppress a desire to laugh outright.
Sig. Macchi at last called attention to the professor's address, and the confusion of the latter's lack of proficiency in the English language, spoke of America's boasted hospitality and generosity to strangers, and so shamed his listeners that quiet was restored.
But his treatment had been too much for the teacher of stenography, who had been growing paler with anger as he proceeded, and withal at the conclusion of his comparatively short address swooned outright.
A doctor was hastily summoned and restoratives were administered, but it was over an hour before the patient recovered sufficiently to be conveyed to his hotel.
Much to the regret and mortification of the few who listened attentively to the professor's address, the meeting was adjourned indefinitely.
The outrage that has been committed to-night," said Sig. Macchi, "and the lack of manner and breeding shown would be hard to find in all of Italy and I am afraid that this proposed movement inaugurated by one of my country's most prominent teachers has received a death blow, as Prof. Buzzoni is a man of nervous disposition and must feel deeply the laughter and disorder that greeted his efforts."

A MUSICAL BEAR.
The Novel Experience of a California Girl
Her Piano Playing Attracts the Attention of Bruno, and He Falls in Love with the Young Lady and the Instrument.

Mary Carter was practicing her music and was all alone in the house. But for some reason she was always alone when she did so. As soon as she struck the first note of her exercises everybody went outdoors and staid there regardless of the style with which she went over the scales. Mary, according to the Elmira (N. Y.) Telegram, was a San Francisco girl who had come to spend the summer with her sister, who married a rancher that lived away up in the mountains near the headwaters of American river. Her brother-in-law, Mr. Matthews, was well-to-do and fixed the little house to which he took his bride in fine style. Things were so elegant it was hard to imagine that the place was nearly fifty miles from civilization. When he was buying furniture he was persuaded to take a splendid grand piano, which in due time arrived at the ranch, and it was on this that Mary was practicing. She did not like the idea of being alone at first, but as she found it impossible to persuade her sister to stay with her she had to make the best of a bad job. She went over the scales carefully every few minutes, taking a look out into the garden to see that her relatives did not get too far away. After finishing one piece she rested a moment, thinking of what she would play next. Suddenly she heard a shuffling sound, and turning around, she saw a large, brown bear standing in the doorway leading to the back part of the house. She was paralyzed with fear and could neither move from her chair nor scream.

She saw the bear come nearer, and she trembled like a leaf. Oh, how she wished she could faint. But she was a strong girl and couldn't, and the bear kept coming closer, and soon had his paws around her. She gave herself up for lost as she felt the grip, which she knew was deadly, tighten around her and the warm breath of the creature on her face. Looking through the window she could see her relatives lounging around peacefully in the shade of the pines and tried to call them, but her tongue would not move and she closed her eyes, expecting to open them in another and duck. Moments require a heavy heart, as well as do brothers, tanners and those who force oil through it. An eight-pound is frequently used for air drills, great care is used in both duck and rubber, and canvas, wire or marine is wrapped around this variety. For air brakes the genuine of the rubber trade has been at work for years, and when it is understood that railway trains are long hauls, it is not surprising that the conclusion can readily be reached that there is room yet at the top for this improvement in the quality that gives varieties used for fire, wrecking, dredging sand, etc. Some of these are large enough in circumference to allow the crawling through of a full-sized man.

A TALL FEE.
One Hundred and Fifty Dollars for a Three Minute Job.
In the Bloomsbury county court, not long ago, Judge Bacon tried the case of Browne vs. Earl of Annesley, which was a claim for eighteen guineas, balance of an account, by Dr. Lennox Browne, for an operation performed by him on Lord Annesley, the defendant. It appears that Lord Annesley suffered from stammering. He was under the treatment of a Mrs. Baker, who recommended that Dr. Browne should be consulted. Lord Annesley took Lord Lennox to the plaintiff, who put him under chloroform. For that two guineas was asked and for the operation which followed a medium fee of thirty guineas was charged. Plaintiff said he was a recognized authority on matters of this kind and had received as much as fifty guineas for similar operations. In cross-examination Dr. Lennox Browne said that he never pronounced that Lord Annesley would be cured of stammering by the operation. Dr. Collier and other surgeons gave evidence as to the reasonableness of the charges. The defense was that it was understood that the operation would cure Lord Lennox of stammering. It had not done so. Lord Annesley paid the two guineas for an assistant and ten guineas for the plaintiff, which brought the claim down to eighteen guineas. Sir Andrew Clarke said he would charge ten to fifteen guineas for such an operation.
