ELECTION RETURNS.

Returns from different parts of the county indicate that the state and congressional ticket has carried the county by from 150 to 200.

Hon. A. W. Gowen, candidate for joint senator, has carried the county by a plurality conceded to be not less than 150.

Boothby and Harrington are there by from 10 to 25 over their opponents. Hallock has lost by about the same plurality.

Howard and Gilliam have won by not less than 175 plurality.

In the six district, Morrow county, Freeland is elected by 46 majority justice of the peace, and N. S. Whelstone 31 for constable.

Miss Balsiger and Willis are elected to the offices, respectively, assessor and school superintendent by from 75 to 100 majority.

Owing to the fact that the wires are down, it is impossible to get returns from the outside. In any event the republican ticket is "in it" big, so far as our section is concerned.

Boothby has scooped the combination in great shape, and Gowen has the county by a safe majority.

The wires being down, news cannot be gotten below, but it is safe to say that the entire republican state and congressional ticket is elected.

It is said that some people "forget," but the Gazette wants it understood that its memory is good and that it will take the opportunity to refresh it occasionally.

The entire republican county ticket is elected except Hallock, and if the party had done its duty, he would have gotten there by a good majority. But there's another day coming.

It would be wise for the populist to stop and ask himself the question: "If free coinage were in operation what have I got to give in exchange for money?"

The government will not distribute its coin through the community without receiving an equivalent in labor or something produced by labor.

There is an abundance of money in the country now if capitalists had sufficient confidence in the government to invest it in industries. The people are discouraged and are becoming hopeless of any betterment in their condition. Let congress re-affirm its faith in the best gas and gasoline engines in the market, and results prove it. A Miracle of Today. A STORY THAT EQUALS THE MIRACLES OF OLD. A Little Girl Suffers Terrible Agony for Years—Physicians Said She Would Die—Cured at Last—Her Mother Says it is a Miracle.

The following story needs no comment whatever. It is the town talk in Wrenham, Mass., and the child's mother tells it as follows:—Mrs. Fuller said: "My daughter is now eight years old. When she was four years old she had rheumatic fever, and at once she was stricken helpless; she went from bad to worse until we all despaired of ever seeing her again."

I employed at various times physicians of Forbush, Franklin and Atleboro, but all to no practical benefit. I gave her all sorts of medicines, and this spring I barred over two bushels of empty bottles which she had emptied from time to time. One doctor who attended her said that she had liver complaint and dropsy, and that she was going to die. I had given up all hope myself when last March I happened to get hold of an Albany, N. Y., paper, and there I read of the wonderful cure of a man up that way by a medicine known as Dr. Williams' Pink Pills, the patient having been afflicted as my daughter was. At that time her legs were drawn up behind her, and her arms were almost helpless. Her head was drawn down on her shoulders and she was a pitiful sight, I tell you.

I sent and got two boxes of Pink Pills and when she had used them up I thought I could see just a bit of improvement. Then I got two more and she began to lift herself in bed, and to help herself in other ways. She kept on taking the pills, and now she is able to go over to the neighbors, and is bright and smart. She was a living skeleton; there was nothing to her but bones, and they were all out of shape. When she was first taken sick she was out of her head, and for three years, if you will believe me, it was an utter impossibility for me to catch more than five minutes sleep at a time, so much care was she, and such constant attention did she require, and I was the only one she would let wait upon her. But I am glad I did so, and now I am getting my reward."

patient, faithful little woman glanced with pride and pleasure to the spot where the little girl was playing with her sister in the shade, just outside the window. "I have spent more than \$500 on her, and although I never begrudged it yet I did want to see my child improve faster than she did. Today she eats more in one meal than I do in two. When I commenced to give her the Pink Pills she was afflicted with a skin disease which was very annoying. Now that has all gone, and I think the pills are responsible for that. Before I started on the Pink Pills I wrote to a specialist in Buffalo, and described her symptoms; he said she had blood poisoning, due to bad milk, and wanted me to bring her there for treatment, although he said that he didn't believe she would ever get over it. She had been given up by four doctors, who were certain that they could not cure her. Why, she couldn't open her mouth, and I actually had to force the food into it. Her mouth was all sores, and, oh dear, what a looking child she was, and such a care! Nobody but myself knows what a trial we both have been through, for she was too young to realize it. If my statement will do anybody any good I shall be glad to have it published, and if those who read it will only come to me, if they are skeptical, I can convince them in very little time that I know what I am talking about. People around here say it was a miracle, and I believe it was."

The neighbors bore witness to the condition of the child previous to the use of Dr. Williams' Pink Pills, and were enthusiastic in their praises of the splendid work which had been accomplished by them in this case. Pink Pills contain, in a condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effect of a gripe palpitation of the heart, pale and sallow complexion, all forms of weakness either in male or female, and all diseases resulting from vilitated humors in the blood. Pink Pills are sold by all dealers, or will be sent post paid receipt of price, (50 a box or six boxes for \$2.50) —they are never sold in bulk or by the 100) by addressing Dr. Williams' Medicine Co., Schenectady, N. Y., or Brockville, Ontario.

OLD SETTLERS anticipate very high water for The Dalles this year. High water today carried off a fish wheel causing loss of about \$800. The Columbia river is within a foot of high water last year and is raising very fast.

Row boats are rustling for drift wood. One crew yesterday securing about six cords. Mitchell, Patterson and Jayne left on the afternoon train for Hood River where they held a republican meeting tonight.

A. A. Jayne, nominee for Dist. Atty., is in the city on his return from Crook county. Mr. Jayne thinks the situation very favorable for the republicans in Crook next month.

The hardware store of Mayes & Crow was burglarized last night by a gang of local thieves securing revolvers, rifles and ammunition to the amount of about \$150. Sheriff O. W. Ward, and an organized posse of eight deputies, are in close pursuit. Trouble is feared when they meet, as it is rumored they are a tough set.

The nip of a poisonous snake is but a slight remove from being more dangerous than the poison of scrofula in the blood. Ayer's Sarsaparilla purifies the vital fluid, expels all poisonous substances, and supplies the elements of life, health and strength.

Persons who sympathize with the alleged will rejoice with D. E. Carr, of 1235 Harrison street, Kansas City. He is an old sufferer from inflammatory rheumatism, but has not heretofore been troubled in this climate. Last winter he went into Wisconsin, and in consequence had another attack. "It came upon me again very acute and severe," he said. "My joints swelled and became inflamed; sore to touch or almost look at. Upon the urgent request of my mother-in-law I tried Chamberlain's Pain Balm to reduce the swelling and ease the pain, and to my agreeable surprise it did both. I have used three fifty-cent bottles and believe it to be the finest thing for rheumatism, pains and swelling extant." For sale by Slocum-Johnson Drug Co.

THE KAISER DID NOT LIKE THE WAY THE MARCH WAS GOING. A Berlin letter says: There is, of course, nothing that Emperor William cannot do. He knows everything, and can give the most learned a good start and an easy beating in all branches of art, literature, music, soldiering, or, in fact, any other matter that mortal man knows anything about. The military band of the Foot guards, which is about one of the best in Europe, was playing a march in the courtyard of the Schloss a few days ago, but the time did not suit William. He thought he knew more about it than the conductor, so he straightway emerged from the palace, stopped the music and, taking the baton from the bandmaster's hand, conducted the piece himself to his beating. The musicians were in a state of terror, but he warmed them up to a galop time, and when he had finished returned the baton to the conductor with the remark: "Next time you play that march play it properly. I have given you the correct time. Now dismiss the band, go to the barracks and play nothing else for a week." This order was religiously carried out to effect, and for a whole week the guards knew no other melody but that eccentric march, which no man could keep step to.

Another matter which has upset William's equilibrium is the fact that the people stare at him in church. He doesn't like it, and has now ordered that whenever he attends divine service all seats of which he can see the occupants, or from which he can be seen, shall be filled by soldiers, so that he may not be disturbed in his prayers. The soldiers are compelled to look straight before them, and any deviation of the head from the "eyes front" is punished by confinement to barracks and heavy punishment.

Although he does not imitate his great-grandfather in criticizing a sermon in the pulpit during the progress of its delivery, William nevertheless follows in his footsteps with regard to limiting its length, and shortly after his accession issued strict commands to the effect that none of the court chaplains should preach more than ten minute sermons. The kaiser says by enforcing this rule he has contributed in no small degree to the extraordinary revival of religious sentiment throughout Prussia that has dignified his occupancy of the throne. Certain it is, he asserts, that a ten-minute sermon is far more effective and beneficial than one of twenty, thirty, forty or even sixty minutes. It forces the preacher to be concise and to concentrate all that is best and strongest of his argument in that brief span instead of scattering it over a longer period of time—a process that naturally diminishes its vigor and its force.

Symptoms—Moisture; intense and stinging, most at night; worse by scratching. It allowed to continue in more form, which often bleeds and ulcers, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

An Irish Bull at the Door. That was a real Irish conclusion of the man who, a wife under the "influence," was attracted by the lights and music of a fancy ball and managed to slip in past the negligent doorkeeper. Up he went into the ballroom, and planting himself against the wall fairly purled with delight at the loveliness around him—music, dancing, "fair women and brave men," all going merrily as a married bell. In a little while feeling that he was hardly re-creating for such a wealth of unexpected pleasure, he pranced out into the middle of the floor during a brief lull in the festivities, and tossing up his hat to the chandelier, gave a loud, estate "W-h-o-o-p!" and then, feeling happy in having done the graceful thing, he toddled back to his former position. Instantly the indignant "booming committee" rushed at him and, clutching him by all available points, started to throw him out. The manifest injustice of this cruelty roused every combative fiber in his offended body, and firmly bracing himself for best resistance as only a drunken man can, he growled out: "Ye're goin' to throw me out? Well, I'm firmly and deliberately, I didn't come here and I'm not goin' away."—Washington Post.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.
