Did you ever
Read about the
Man who
Hid his
Light under
A bushel?
Yee? well
That is like
Doing business
Without advertising.
All the
Snile schemes
In the country
Will not accomplish
Half as much
As a good ad.
In a good, live,
Legitimate newspaper.
One that
Is read
By the people,
And that owns
Its own
Soul; that
Uses its space
Like merchandise,
Worth dollar
For dollar.

ELLIS' plurality in Wasco county is about 900. How is that?

Wasco county elected everything republican but one constable.

The Wilson bill is a "dead duck." It should never have been hatched.

KANSAS will have a hot fight this year and the republicans will get away with it.

BIMETALLISM is growing rapidly, and ere many years silver will have been restored.

Mrs. ALICE HANBAY, a niece of Andrew Jackson, died on the 8th inst. at Phoenix, Ariz.

ELLIS and HERRMAN were roundly cheered as the first republican congressmen to be returned in 1894.

It is estimated that fully 2000 were not out at the polls in Multnomah county owing to the flood.

LATE papers are not to be had, but figures so far received, show an unprecedented republican victory.

When Gov. Penneyer was asked to explain why Oregon had gone so overwhelmingly republican, he answered "Silence is golden."

BILL DALTON, the notorious train robber, was shot and killed recently near Ardmore, Indian Ter. He had a hand in the Longview bank robbery.

MAJOR E. M. MORRILL has been nominated by the republicans for governor of Kansas. The convention sent its congratulations to Oregon.

"The news comes that Jim Riley is gaining wonderful strength all over the district. In Multnomah county there is a revolution in his favor and it is safe to say that he will be the next congressman in the second district."—Democrat, Baker City, June 4, '94.

AFTER a hard canvass in Baker county Hon. J. H. Riley carried the county by about 100 plurality, the only county in the district voting that way. Ellis is a consistent friend of the white metal, so the silver men of Baker county will not be disappointed in Mr. Riley's overwhelming defeat.

OVER in Colorado, striking miners are raising "N. O. D." armed deputy sheriffs are after the strikers, Gov. Wolfe with the militia is marching onto the depots, and U. S. troops will eventually drop in and quell the whole business. Colorado is a sample of what populism can and will do in power.

MR. ELLIS has written a letter to the Bimetallic League of Oregon, pledging himself to support the free coinage of American silver. There seems to be great unanimity of free silver sentiment among the congressional candidates in Oregon. If the successful ones vote as they promise we are all right.—Telegram, May 28.

A NEWSPAPER in Illinois recently brought suit against 43 men who would not pay their subscriptions, and obtained their judgment in each case for the amount of each claim. Of these, 28 made affidavit that they owned no more than the law allowed them, thus preventing attachments. Then, under the decision of the supreme court, they were arrested for petty larceny and bonded over in the sum of \$300 each. All but six gave the bonds. The new penal law makes it petty larceny to take a paper and refuse to pay for it.

Down in Benton county where the republicans have a big plurality, the democrats got away with all the county offices worth a continental. Won't republicans ever get to understand that county officials have an opportunity to influence voters very much, and that their efforts are for the organization of their own party and for the disintegration of the opposing forces? A "fat" county office is a dangerous tool. You can wager that there's big politics in county offices, and yet republicans will vote for a smooth-tongued democrat whom they call a "good fellow," in preference to a good, square republican, because as they say, "there's no politics in it."

WITH the exception of Jayne, who ran for a non-political office, Ellis led the ticket in this county with 549 votes, giving him 101 plurality. Jayne had 562 votes and 279 plurality. Kincaid had 531 votes, yet he came out with 233 plurality. Phil Metcalf had 529 votes and 212 plurality. A little study of the "official returns" in our last issue will explain why those that have the highest number of votes may not always have the largest plurality. Waldrop gained some democratic support, his vote reaching 336, while Baley had only 210. Dufur received 265 votes and 258. Pluralities are counted in a three-handed race on the vote over and above the second highest, hence both Metcalf and Kincaid have larger pluralities than Ellis, yet their vote was much smaller. Jayne has only 13 more votes than Ellis, yet the former's plurality is 89 greater than the latter's. It is the division of the opposing forces that affects pluralities. Ellis got a very complimentary vote in Morrow county.

ELECTION NOTES.

Olympian: Oregon has stepped upon Coxeyism and buried populism.

East Oregonian: The enemy has captured the breastworks as well as nearly all the offices.

La Grande Chronicle: There is a vein of grim humor among the officials of the United States land office in this city. The flag surmounting the flag was ordered to half mast yesterday in honor of Oregon's deposed democracy.

Tacoma Ledger: Oregon is to be congratulated. Instead of being ranked hereafter with Kansas and Colorado it will deserve to be counted with Pennsylvania and Ohio and Illinois and Iowa.

Surrounded as they are by inexhaustible resources of nature's wealth its people have refused to declare themselves helpless dependents upon the munificence of an impossible government, and have manifested a confidence in the selves that will give the world new confidence in them.

Times-Monitor: Hon. W. R. Ellis will be re-elected to congress by a large majority, which will be an endorsement of that gentleman's action on political questions and also of the manner in which he has attended to the interests of his constituents. Two years simply introduces a man to the vestibule of congressional legislation, while the second term puts himself in a position to do beneficial work for his state. On all leading questions Mr. Ellis will be heard from during the coming session, and it will be in such a manner of which the people who supported him need not feel ashamed.

MULTNOMAH COUNTY'S VOTE.

Portland and Suburban Republican to the Backbone.

PORTLAND, June 8.—The official canvass of the vote of Multnomah county gives the following result: For governor—Lord, republican, 7,637; Pierce, populist, 4,444; Galloway, democrat, 2,669; Kennedy, prohibitionist, 333; Lord's majority over all, 221. Congressmen—Ellis, republican, 8,614; Riley, democrat, 3,354; Waldrop, populist, 4,186; Miller, prohibition, 400. Sears, democrat-populist, for sheriff, has 1,365 plurality. The republicans elect the remainder of the county ticket. Frank, republican, for mayor, has a plurality of 763.

FROM EIGHT MILE.

Ira Miller is suffering from the toothache.

Eight Mile is looking rather green at present, but will soon be of the golden color if we can only get some nice warm sunshine for a couple of weeks.

Fruit is going to be abundant this year; also grain, grass and gardens are in splendid condition.

We see by the last issue of your paper that some one who signs his name as "Humble" thinks that he is making himself quite prominent by scolding some of the Eight Mile converts, and throwing slurs in general at Christianity. Being as the said party is signing his or her name (as the case may be) "Humble," I believe they are serving the devil. I would like to see you come out on the other side and serve the Omnipotent who reigneth over all. About those Eight Mile converts—there is one who reigneth upon high that judges them, not man. There has been a great deal of talk about the Eight Mile converts, but it does not hurt them; knowing the source it starts from makes them truer Christians. It seems, however, that there is always some one that is ready to try to hurt Christianity, but we hope that they will endeavor to do better. Had Ingraham I am satisfied, if he has had the party's feelings well endeavor to make it all right with him if he will only ask him to. Hoping that people will quit trying to tear down Christianity and that the said party will see his darkness, I wish him prosperity. I am satisfied that the class leader will donate his hat to the said party if he will let his name be known.

J. S. Ingraham is on the sick list; also Isaac Knight.

Number of scholars enrolled at the Eight Mile school is 38, Miss Coulee as teacher. She is giving good satisfaction.

Being as our correspondent is writing up Christians, I will show up the world a little. It is rather surprising to see young men gather in a crowd at the Eight Mile school house after Sunday school and follow some fellow up that is going with a girl, and whoop and yell like Indians. Now boys, we kindly ask you to quit that.

Being as items are rather scarce I will close for this time.

EVERY NOW AND THEN.

EIGHT MILE, Or., June 9, 1894.

Who is the Wisest Man?

A wise man is one who always acts wisely. What wiser things can a man do than purchase a Hercules Gas Engine for his ranch, printing, office or machine shop? Send for catalogue. PALMER & RY TYPE FOUNDRY, Front & Alder Sts., Portland, Oregon.

CHICAGO'S FISH SUPPLY.

How It is Affected by the Financial Stringency.

Hard Times Have Caused the People to Economize on Their Meat Bills—Where the Fish Are First, especially Obtained.

The report of a shortage of 12,000,000 bushels in the oyster crop of Chesapeake bay does not disturb the equanimity of the Chicago dealers.

"Our business is mostly in fish this winter," one of them declares. "Hard times have caused people to economize on high-priced oysters and turn to fish as the staple food. Fish are very cheap and plentiful. Chicago eats 20,000,000 pounds of lake fish and 5,000,000 pounds of ocean fish annually. The lake fish were caught and frozen last fall, and so long as they remain in ice continue as fresh as when taken from the water. However, if anyone demands a newly caught fish, the Mackinac fishermen are sending down choice trout daily taken from the straits.

"As to oysters, the crop of Baltimore and New York might totally fail without embarrassing the public in the least or raising the price of the bivalve.

The Gulf of Mexico produces fully as fine flavored oysters as are taken anywhere. Many people like the gulf oyster best. New Orleans could easily supply the world with oysters, as its coast environment is enormously prolific in oysters, delicious crustaceans, and fishes. These gulf edibles are sent north in refrigerator cars which have conveyed dressed beef south. They also come by express. The failure of the fish and oyster crop would be a great boon to the gulf coast trade."

The fishmonger mentioned that the Pacific codfish had invaded the Chicago market to the detriment of the Maine-Massachusetts namesake. There is no difference in the appearance of the rivals, but epicures think the Pacific the choicer. The Pacific cod is now shipped to Massachusetts, salted and sent out as Atlantic cod. No one can tell the difference.

A popular fish in Chicago is the red snapper taken in the Gulf of Mexico, and called by many the gulf cod. It is a handsome fish that the cod and is much finer flavor. Large hotels engage in the catch of this fish and it is foregone its way into all the markets of the world.

Brook trout weighing from two to five pounds are plentiful in the local markets. They come from private fish ponds where they were taken out and frozen last fall.

The finest yellow perch are taken in the Detroit river at the St. Clair Flats. Muscalonge reach the market from the interior lakes of Wisconsin.

The lake trout varies in color, both of skin and flesh. The flesh is yellow from the southern to the northern waters of Lake Superior. In the northwest corner of Lake Superior the flesh becomes red and the skin a facsimile of the brook trout. This latter variety, which is the finest of trout, is believed by some to be a brook trout from the Nipigon river, which in times past left the stream and bred a deep-water variety of itself. It is scarce in the local market. There is a suspicion that the local dealer sells it as a large brook trout.

Wels, mostly come from Fulton, N. Y., where, on the Oswego river, is the largest eel industry in the world.

Ocean fish are not popular in the west, nor are lake fish popular in the east. The condition is natural.

Crawfish come from New Orleans, where they are the staple food of the French people. The crawfish makes the most delicious bisque known to the epicure.

INSOMNIA HELPS THE LATEST.

A Buffalo Hotel's Unique Plan of Working the Drowsy Guest.

A society young woman of Buffalo has devised a novel entertainment, which is shortly to be made public. It is to be a reception for people who cannot sleep at night. Among her friends, says the Medical Record, are a great many delightful people who are troubled with insomnia, and who confess to many nervous, irritable, wakeful hours, looking the floor, looking out of the window, rocking in easy chairs, trying to read or write in their useless and tiresome occupations. When her plans are fully matured this original young woman intends, on at least two nights in every week, to be at home to those distressed female friends from midnight until morning. The guests are requested to appear in any antique, respectable bedroom gown, bath robes not excluded; the lights are to be dim, soothing music and stupid conversation will be the only diversions permitted, hot chocolate and light wafers will be served, couches and easy chairs will be provided in abundance, and the insomnia victims are earnestly desired to fall asleep as soon as possible. It is whispered that prizes will be offered for the first snore, but this detail is not authentically announced. The reception is to be a fact, however, and an eager expectancy as to invitations is in the air.

Old Egypt's Slot Boxes.

The Alexandria correspondent of the St. James' Gazette thinks that ancient Egypt is "looking up" in every way. Some of its contrivances appear to have been quite up to date. Actually they had already, more than two thousand years ago, what we call "nickel in the slot," for the extraction of something useful, pleasant or otherwise serviceable. Heron, the philosopher of Alexandria, who flourished in the third century B. C., himself an inventor, describes an automatic machine used in the Egyptian temples for a long time past. By throwing a piece of money in the slot the worshippers received some consecrated object through a valve. The box, the two-armed lever, with its closing valve, and the other details of the machine are all correctly described.

MOMENTS OF MIRTH.

"Is your daughter fond of the piano, Hilda?" "No, she's very unkind to our piano. She beats it two hours a day at least."

"Hilda is going to teach me book-keeping," said young Jarley. "Well, he's just the man to do it," said Dawson. "I lent him a copy of Watson's poems a year ago, and he's kept it ever since."

"I HAVE enough to support you, Ethel. Will you be my wife?" "Well, Charlie, you must excuse me if I am cautious. But you say you have enough to support me. Who is going to support you?"

"GETTING money out of my congressman," said Rev. Jones, "is like pulling teeth."

Meals and Rooms at Popular Prices.

Mrs. TOM BRADLEY, Prop.

SPORTS AND PLEASURES.

MOUNTAIN sheep are protected by law in Colorado. Ten years in the penitentiary is the penalty for slaying one.

It is said that while a resident of Sault Ste. Marie, Mich., was duck shooting recently an eagle swooped down and carried off one of his ducks, similar and all.

MR. JAMES GORDON BENNETT is off on a yachting cruise in the Mediterranean which would seem to afford a gratifying indication that the state of his health is no longer precarious.

Mrs. ELLA DARTINGTON, of the Wes Chester (Pa.) Normal school, although only twenty years of age, is a graceful and fearless equestrienne. She sits in a man's saddle, with a foot in each stirrup.

The selling of antlered bucks' heads is just now one of the industries of the North Woods. The heads are sold a eight dollars each, and it costs sixteen dollars more to prepare one for use as a hat rack or wall ornament.

FIGS AND THISTLES.

LITTLE thinkers are big talkers. Good actions, like sheep, are apt to follow one another.

MAJOMER admitted bees to paradise, but barred out the hornet.

The love that is dumb until it speaks on a tombstone doesn't say much.

It is hard to convince a dyspeptic that the world is growing better.

Some men who start out to set the world on fire give up at the first thunder clap.

There are people who never accomplish anything because they undertake to do too much.

There are men who go to a gymnasium for exercise while their wives are sewing the wood.

An ancient English title.

One of the minor titles borne by the sovereigns of England ever since the accession of the house of Hanover is sacri Romani imperii, archithesaurus, arch-treasurer of the Roman empire. The title dates back to Frederick, the elector palatine, who held the office stated, but for ages after his time its duties were performed by a deputy. They do not relate to the treasury, but to certain matters connected with public ceremonies. It was originally the right of this official to carry the crown before the emperor at the coronation, and to distribute coin as a largess among the people during the ceremonies.

A Good Appetite.

Always accompanies good health, and an absence of appetite is an indication of a morbid wrong. The loss of a rational desire for food is soon followed by lack of strength, for when the supply of fuel is cut off the fire burns low.

The system gets into a low state, and is liable to severe attacks of disease. The strongest recommendation that can be urged for any medicine. Those who have never used Hood's Sarsaparilla should surely do so this season.

"Is this hot enough for you?" is a silly question; but if you meet a man who complains of suffering from the heat in one you will find, on inquiry, that he does not use Ayer's Sarsaparilla to tone up his system and free his blood from irritating humors.

It is now beyond dispute that

Beecham's Pills

(Tasteful) are a specific in all cases of Indigestion, Biliousness, Sick-headache, and kindred troubles.

at cents a box.

A NARROW ESCAPE!

How it Happened.

The following remarkable event in a lady's life will interest the reader: "For a long time I had a terrible pain in my heart, which refused to let me have any appetite, and I could not sleep. I would be compelled to sit up until I thought every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I couldn't sweep a room without sitting down and resting; but, thank God, by the help of a splendid medicine, I am past and I feel like another woman. Before using the New Heart Cure I had taken different so-called remedies and been treated by doctors without any benefit until I was both discouraged and disgusted. My husband bought me a bottle of Dr. Miles' New Heart Cure, and am happy to say I never regretted it. As I now have a splendid appetite and sleep well, I weighed 125 pounds when I began taking the remedy, and now I weigh 145 lbs. Its effect in my case has been truly marvelous. It far surpasses any other medicine I have ever taken or any benefit I ever received from physicians."—Mrs. Harry Starr, Putnam, October 12, 1893.

Dr. Miles' New Heart Cure is sold on a positive guarantee by 1 druggists, or by the Dr. Miles Medical Co., Little Rock, Ark., on receipt of price, 41 per bottle, six bottles \$2. Express prepaid. This great discovery is an eminent specialist in heart and nervous diseases and dangerous drugs.

For sale by T. W. Ayer, Jr.
