Cout tails are no object of these times, especially when a man gets badly scolded. If reports are true, there is one man in this town who will set the wagon in the future, or at least he should endeavor so to do, or he compelled to seek new pastures.

Joe Salting, of Eight Mile, asks the Gazette to state that he was not the author of certain correspondence from that place, which he was accused of writing. In justice to Mr. Salting we will say that he was not the writer, although we can see nothing objectionable in the correspondence in question.

Dr. Gagen was called to Douglas on Sunday to attend an old gentleman by the name of J. B. Cottrell. Some 8 or 10 ago Mr. Cottrell had an arm badly broken, and the limb being impaled, set, did not heal, and it is now thought that amputation will be necessary. The man is quite old, and the injury may prove fatal to him.

Simmons Liver Regulator has never been known to fail to cure dyspepsia.

to get the line in repair down the river as rapidly as possible. They are paying all the men to work they can get hold of, but the damage is so great that it will possibly be from 40 to 60 days before the road is open to Portland. In the mean time it is feared that some of our inland towns will have to go on "short rations," unless orders for groceries and provisions now wanted can be more rapidly filled.

A MEANS OUT OF THE DIFFICULTY.

Any strain or bending of the back for any length of time leaves it in a weak condition. A means out of the difficulty is always handy and cheap.

Do as was done by Mr. Herman Schawaygel, Aberdeen, S. D., who says that for several years he suffered with a chronic strain in the back, and was given up by doctors. Two bottles of St. Jacobs Oil completely cured him.

Also Mr. John Lucas, Elmore, Ind., says that for several years he suffered with pain in the back, and one bottle of St. Jacobs Oil cured him.

WANTED—PAPER—Newspaper men all through this region and in fact in Eastern Washington are experiencing great difficulty in securing sufficient paper with which to print their issues.

Especially is this true of the dailies which consume wagon loads in a very short time and for one of which even a carload does not last through so very many editions. Cut off from all depots of supply, the stocks on hand have been brought very low. Spokane has been drawn on and has sent out all the dealers there can spare.

To get it from Portland is impossible and will be for weeks to come, in all likelihood. It will soon be necessary to use straw paper. The Tribune was compelled this morning to print a portion of their edition on manilla, a very good substitute, indeed, for news, but rather expensive. This society of paper is causing publishers to pray for railroad communication.—E. O.

As to His Appearance.

"Can you describe the man you saw hanging about the house the day before the robbery?" inquired the detective.

The Perkins Junction storekeeper whose place of business had been broken into and robbed of a considerable quantity of plug tobacco, canned tomatoes and dried peaches, together with the entire contents of the cash drawer, amounting to one dollar and fifty-six cents, reflected a moment and then asked:

"Do you know Bill Quinn?"

"I don't think I do."

"Lives down in the Wallack neighborhood."

"I don't know him."

The merchant shifted his quid to the other cheek, chewed thoughtfully awhile and said:

"Know Si Roberts?"

"No."

"Auctioneer. Hangs 'round Thompson's a good deal."

"Never heard of him. But as to this man you saw loafing about here before the robbery took place—I would like to have you describe him as well as you can."

Again the storekeeper reflected.

"Well," he said at last, "he looks some like Bill Quinn and some like Si Roberts."—Chicago Tribune.

SUSPENDED PUBLICATION—The Living Issue, of John D. J., has suspended publication, making its final appearance last Thursday. This we have predicted, but did not expect the event to happen quite so soon. There is more about getting out a newspaper than one has an idea, and just because one can dish up a rosy article is no sign he is a newspaper man, or knows anything about making a success of that business. Our thing certain, one cannot succeed and be eternally fighting a liberal suit, and everyone knows that there is no reason for liberal suits when a paper is conducted properly, especially in times of peace.—Eagle.

THE PRICE OF WHEAT.—Will there be any advance in the price of wheat, is a question that appeals to every citizen. The Toledo Blade says that the low price of wheat shows no feature of possible improvement. It is offered to Europe by other countries than this, at prices which render competition impossible. On last Friday, Argentine wheat was offered in London, including cost, insurance and freight, at 54 cents. The world's stock of this cereal does not decrease enough to materially improve the outlook of holders. The new crop is near at hand, and there is nothing on which to base the hope of a rise. On the contrary, 50 cent wheat in Chicago is confidently predicted.

RAPIDLY REPAIRING DAMAGES.—The U. P. Co. now have about 1500 men at work between Pendleton and Portland repairing the damage done to the road by the red-of flood. It is thought that all repairs will be made between Pendleton and Arlington this week so that Heppner will then have communication by rail with the east. The railroad company is using their utmost exertions

to get the line in repair down the river as rapidly as possible. They are paying all the men to work they can get hold of, but the damage is so great that it will possibly be from 40 to 60 days before the road is open to Portland. In the mean time it is feared that some of our inland towns will have to go on "short rations," unless orders for groceries and provisions now wanted can be more rapidly filled.
