AT TIMES IT IS VERY APPROPRIATE FOR ONE TO STOP AND ASK HIMSELF, "WHO AM I, WHAT AM I AND WHITHER AM I DRIFTING?"

When the author living today who wrote, "This life of ours is a wild, E. disharmony of many a joyous strain," he might appropriately add: "mingled with pain."

When a banking institution attempts to suppress the people and make them bow submissively to its will, it is high time for it to close its doors, take down its sign and ask the comptroller to take charge.

When a citizen, be he populist, democrat or republican, cannot affiliate or associate himself with the party of his choice, it is time for him to stop, seek his closet and ask himself, "Is life worth living?"

War is raging between China and Japan. Some people will say, "Let her rage." The United States supplies about 40,000 barrels of flour a month to these countries, and the war will cause larger drafts for bread and the farmers of this country will probably supply it. The warlike relations existing between Japan and China have been brought to an open issue by the Japanese attacking transports loaded with 12,000 Chinese troops, off the coast of Korea. In the engagement, the Chinese junk steamship Kow Shing was sunk, and, it is said, 10,000 Chinese were killed. The Japanese have also made a prisoner of the king of Korea, and, it is said, have sent him to Japan.

The following from the Chicago Inter-Ocean, very truthfully pictures the situation: "The house cannot surrender" shouts one organ. "The senate won't surrender," shouts another. "Such is life," with ninety democratic majority in the house, a fair working majority in the senate, and every arm of the government democratic. No party ever so emphatically stated the maxim, "Weighed in the balance and found wanting."

READER do you do business with a banking institution that has an unprincipled "man" at the front door for president and a vice-president at the rear door in the form of a corporation "shark" with a \$300 administrator (no reputation)? If so, have a care lest you should tread on the tail of the serpent, or the political party, the religious denomination, the secret fraternity, yes, the party, church or lodge, to which it is a God-given privilege to associate yourself, should do this in itself on some imaginary wrong, and you, an innocent member of said fraternity, be selected as suitable material for this institution, or the recognized leader of the same, to vent their spite upon. If you love that freedom which all true Americans are supposed to enjoy, sever your connections with such men that you may go to your wife and little ones with the feeling that your soul is your own, that you may be able to assure them that your farm, with its pleasant surroundings, that your little home and freestone are not to be torn from you, and your private business made public and held up like a stereotypical view on the heavens for the public to gaze at. Did it ever occur to you that such might some day be your fate?

A NEW PLAN OF WORK.

IT WAS ADOPTED AT THE W. C. T. U. CONVENTION.

Sabbath Desecration Repealed—A Campaign of Education—Fasting the White Ribbon.

The following plan of work was adopted by the W. C. T. U. of Oregon in state convention at Salem recently:

We greatly deplore the continual desecration of God's holy day and not without grief and apprehension the tendency to make it a day of pleasure instead of worship and meditation; and pursuant to these principals we urge:

First—Our unions to investigate our state laws and use their influence to secure the rigid enforcement of the same; also that we as christian women assiduously avoid traveling upon the Sabbath day.

Second—Education is the great prevention in recruiting the ranks of drunkenness and vice. Therefore, we urge redoubled effort in the department of scientific temperance instruction.

Third—We desire to express our appreciation of our state legislature in passing an amendment to the cigarette and tobacco law, subjecting the unlawful use as well as the unlawful seller to a penalty, and urge our local unions to see the rigid enforcement of the same.

Fourth—In view of the fact that the Portland exposition and Salem state fair are of equal interest to the entire state, therefore, we urge that each local union pledge \$1 to the superintendent to be equally divided between these two public gatherings.

Fifth—That we encourage the influence secured by a larger circulation of the publication of our W. T. P. A.

Sixth—That we urge upon local superintendents the necessity of reporting quarterly their respective unions; that these reports be immediately passed into the hands of the county superintendents who shall in time report quarterly to the state superintendent.

Seventh—Knowing that our boys and girls will soon be the voters of our country, and as such need a thorough education in temperance principles, we therefore recommend the Demorest medal work as well calculated to meet this demand.

Eighth—That our refuge home may be better advertised in our state, we recommend a larger circulation of the leaflets printed in the interests of the institution through the medium of the local and county superintendents of purity and that these superintendents urge contribution for the work.

Ninth—Believing that much of our success depends on our business methods and that it is important we keep our work before the people, we strongly recommend that every union own a condensed bulletin board and keep fresh crisp items of news, notices and so forth on it.

Tenth—We would urge the unions in the state to insist on the enforcement of the law on narcotics in their various localities. We recommend no lecturers shall be engaged by the local unions without they come endorsed by the national, state, or county union, and that state officers and superintendents do not make appointments in the county and local unions without the consent of such county or local unions. In view of the fact that the teaching of kindness to children is such a factor in the prevention of crime, we recommend that special effort be made to organize bands of mercy in public and private schools, colleges, Sunday schools and Local Temperance leagues and to interest the teachers of public schools in this kind of teaching.

The L. T. L. secretary sends this plan of work: The L. T. L's should be recognized as a part of us, at public meetings and conventions should have a place on the program—use them as our guest—pages, singers, in Demorest medal contest—use them together with the Y. A. Impress upon the children the fact that they belong.

We are in receipt of the May number of our state school paper. It exceeds any of the former numbers in value. The paper this month contains many new and valuable features. The illustrated series on the schools of the state is introduced by a paper on the Friends Polytechnic Institute at Salem, Oregon. These papers cannot fail to be of great value both to the schools and to the public.

There are also several fine articles by our best writers and the department "Current Events," "Saturday Thoughts," "Educational News," "The Oracle," "Correspondents," etc., each contain much valuable reading for teachers or parents. The magazine has about 50 pages of matter, well printed and arranged. We pronounce the Western Pedagogue the best educational monthly on the coast.

Everyone of our readers should have the paper if they are at all interested in education. No teacher, school director or student can get along well without it. We will receive subscriptions at this office. Price only \$1.00 a year. When desired we will send the Western Pedagogue and Gazette one year to our address for \$3.00. Call and examine sample copies. Teachers, directors and parents, now is the time to subscribe. If

THE PRIZE FIGHT.

Whetstone Beaten Barron in 10 Rounds at the Race Track Sunday.

The announcement that a 20 round fight to a finish between Frank Whetstone, of this city, and J. Barron, of San Francisco, attracted some 75 or 80 persons to the grove beyond the race track late Sunday afternoon, where they found the ring made, rope stretched and gloves ready, which gave the ordinarily quiet grove quite a pugilistic appearance.

A \$20 purse had been promised for the winner, but after more than a half hour's rustling, plauding and coaxing on the part of the stake holder and other enthusiasts, intermingled by many witticisms and positive assurances from Referee Livingston of "no fight no pay," and that the contest would be one of "black eyes and blood," a purse of \$18.00 was raised, which after consideration, the participants decided to enter the ring for. Considerable delay was caused by the fact that no second could be secured for Barron. But as a last resort, the services of G. E. Tedrows, the genial proprietor of the Palace Hotel bar fame, were kindly tendered and accepted with equal grace. However, the contest had not far progressed until it became evident to all that Friend Tedrows knew more about mixing the ever festive Heppner cocktail than he did about seconding prize fights, though he at times handled the principals fairly and himself quite skillfully and always managed to be well out of the way when the participants worked down freely. At all times both were rushed to their respective corners and cared for by their seconds. Referee Livingston did the work of hitting "spraying" and rubbed down Barron at this time as well as throughout the fight, besides coaching, coaching and refereeing the same, which he did at times in a very comical manner much to the amusement of the crowd. Promptly at the call the men entered the ring, but Whetstone was rather tame for several rounds, in fact did not warm up until the eighth round when Whetstone secured the first knock down, and it was claimed that Whetstone won the fight at this point had not time, by mistake, been called too soon. By this time both were very tired and Barron showed the effects of considerable punishment on the body. Several times finks were claimed for Barron, though not allowed by the referee. From this time to the finish it was an interesting fight and at times very fierce. In the eighth fighting was pushed by Whetstone, who hit Barron almost at will, landing heavy blows on the ribs and chest, and at times forcing him almost over the ropes. At the close four knock downs were credited to Whetstone. The ninth was a repetition of the preceding round. Whetstone punched the fight, landed right and left, and at the close Barron had either been knocked down or had gone down to avoid punishment seven times. While he was not knocked out, yet he was not on his feet fighting but very little of the time during the round, and it is safe to say time only saved him. The tenth and last round was all decidedly in Whetstone's favor. Barron was forced to the ropes and almost at will, would only come back at the last second to be downed again. The fifth time down he was unable to get on his feet until counted out by the Time keeper, Mathews, whereupon referee Livingston declared Whetstone the winner, which was greeted with some little applause, and was, of course, unrequited. Both men were very tired, though Whetstone showed no signs of punishment. They were promptly rushed to the crowd, given a plunge water bath, rubbed down and dressed. When all proceeded to town to discuss the merits of the combat.

After all preliminaries had been arranged the principals entered the ring about 5:15, Whetstone, with Joe Roberts as second, and Barron, with G. E. Tedrows as second. Referee, Frank Livingston, Time keeper, Hick Mathews, and stake holder, Dave McLean. After shaking hands, Whetstone, who had Barron evidently trying to press the fight, but Whetstone, after assuming the defense for a time made a rush and landed a blow on Barron's nose, bringing first blood, which flowed quite freely. At all times both were rushed to their respective corners and cared for by their seconds. Referee Livingston did the work of hitting "spraying" and rubbed down Barron at this time as well as throughout the fight, besides coaching, coaching and refereeing the same, which he did at times in a very comical manner much to the amusement of the crowd. EAGLETS

From our Long Creek Paper.

Wm. Rush and wife, of Heppner, are at the McDufee hot springs.

Bob Shaw arrived Tuesday from Portland where he is racing a mule market. He came to Grant county to buy beef cattle.

Gov. Wells, Nick Willingham and Jim Hart, of Heppner, were in Long Creek early this week, leaving Monday for McDufee hot springs.

Gov. R. departed for his home at Heppner Monday after a stay of about 10 days at the McDufee hot springs. He always enjoys a visit to Grant.

Uncle Jack Morrow who came over from Heppner about two weeks ago, is recovering his health at the McDufee hot springs. He had been crippled up for a year with rheumatism.

A Grand Feature

Of Hood's Sarsaparilla is that while it purifies the blood and sends it coursing through the veins full of richness and health, it also imparts new life and vigor to every function of the body. Hence the expression so often heard: "Hood's Sarsaparilla made a new person of me." It overcomes that tired feeling so common now.

G. A. R. NOTICE.

We take this opportunity of informing our subscribers that the new commissioner of pensions has been appointed. He is an old soldier, and we believe that soldiers and their heirs will receive justice at his hands. We do not anticipate that there will be any radical changes in the administration of pension affairs under the new regime.

We would advise, however, that U. S. soldiers, sailors and their heirs, take steps to make application at once, if they have not already done so, in order to secure the benefit of the early filing of their claims in case there should be any future pension legislation. Such legislation is seldom retroactive. Therefore it is of great importance that applications be filed in the department at the earliest possible date.

If the U. S. soldiers, sailors, or their widows, children or parents desire information in regard to pension matters, they should write to the Press Claims Company, at Washington, D. C., and they will prepare and send the necessary application, if they find them entitled under the numerous laws enacted for their benefit. Address

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney. With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to Obtain Patents in the United States and All Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.
