Did you ever read about the man who hid his light under a bushel? Yes, well that is like doing business without advertising. All the snide schemes in the country will not accomplish half as much as a good ad. In a good live, legitimate newspaper. One that is read by the people and that owns its own soul; that uses its space like merchandise, worth dollar for dollar.

The Record says that the First National Bank is in a very prosperous condition, regardless of the fight that a "certain" newspaper is making against it. Well, some people have "gall." The manner in which they do business, if the Gazette's experience is anything from that to judge, would make anyone prosperous, if the people staid idly by and permit their rights to be trampled in the dust. But all must admit that the fair and honorable style of doing business makes more money than any other way, and thus the public will demand.

A photograph of an order for the purchase of sugar stock, signed by Senator Camden, of West Virginia, is in the possession of the senate investigating committee. Mr. Camden claims that his signature is a forgery gotten up for blackmailing purposes, but it seems a little odd that a comparatively poor man should have been selected by the alleged blackmailers when there are so many rich men in the senate. It is said that if the committee succeeds in getting the corroborative testimony, it has a reason to expect that impeachment proceedings against Senator Camden, and at least one other democratic senator, will almost certainly be commenced if there are not some resignations.

The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. A MIRACLE IN OREGON.

A WONDERFUL MANNER IN WHICH A MAN WAS CURED OF PARALYSIS.

A Case That Almost Surpasses the Miracles of Old.

From the Rural Spirit, Portland, Oregon.

Upon the Cascade Range, at the edge of the Cascade Range, in the town of Holly, Linn Co., Oregon, lives W. H. Henderson, a man with an interesting history. It is most interesting as told by himself to a reporter.

"My native place is Brookville, Canada," said Mr. Henderson, "where I have always made my home up to 1880, with the exception of a few years that I was a resident of Oswego, N. Y., New York City, and Chicago. In 1885 I came to Oregon. I am a carpenter by trade, and in the summer of 1889 was working at Corvallis, county-seat of Benton Co., Oregon. I did not feel well all summer. My knees, elbows and shoulders ached so badly that I concluded to go home the last of August. One day after reaching home, my wife was leading the horses by the house and called me to see them. While looking at the horses I felt my knees getting weak. I went into the house and fell on the floor. When I came to my senses I was on the lounge and my wife crying. John McDaniel, our nearest neighbor, was there. I recovered somewhat through the day, and in the evening I walked to my bed. That night about ten o'clock I had another stroke of paralysis. The torture that I went through is too horrible for me to describe. I was helpless. The neighbors came in, Dr. Henry, of Brownville, was sent for, and I made my will, but could not sign it so it was legible. The back of my neck was swelled up; Dr. Henry had them put mustard plasters on my neck and down my back and down the side of my right leg, and on the bottom of my feet. The skin came off the bottom of my right foot. I was covered with sores from head to foot. If I had to be lifted up in bed it took two or three men to do it. There was a gathering in my left ear and it broke and discharged matter twice. My wife had to move my legs when they were moved. I had watchers at night for weeks. Mr. Michael Baragan, owner of the lumber mills on Hamilton Creek, was one of them. His post office address is Lebanon, Linn Co., Oregon. Mr. William White, head sawyer for the same, and Mr. James N. Rice, ex-member of the legislature of Oregon. Weeks went by and months, and I lay in bed helpless. When my bed was changed another bed had to be brought alongside and me slid across on it. I do not remember sleeping a wink for months. They used a galvanic battery for months, but it gave no relief. I had them write to Dr. Mosier, specialist, Grand Street, New York, stating my case. He wrote me he could not help me, after which I concluded that I must die. I had given up all hope. In reading my Eastern papers I saw the miracles that a medicine called Dr. Williams' Pink Pills were performing, but that itself would not have induced me to try them, had not I seen the name of Mr. G. T. Fulford, of Brookville, Ont., connected with them. That gave me hope. I had known him from a little boy, and I knew that money would not induce him to deceive his fellow man. I wrote Mr. Fulford to send me some Pink Pills, and before I had used the first lot I noticed an improvement. I eat for more, and in a little time I was on my crutches, and walking around the house. The last boxes that I got are doing the business. The pains left my head altogether six weeks ago, and it is now as clear as a bell. The swelling on my neck is gone, and my right ankle is much better. I can get around now without any assistance, and am heavier than I ever was in my life. There are a hundred people about here who will testify to my sickness and cure if any one doubts it."

Dr. Williams' Pink Pills are not a patent medicine in the sense that name implies. They were first compounded as a prescription, and used as such in general practice by an eminent physician. So great was their efficacy that it was deemed wise to place them within reach of all. They are now manufactured by the Dr. Williams' Medicine Company, Schenectady, N. Y., and Brockville, Ont., and are sold in boxes (never in a loose form by the dozen) or hundred, and the public are cautioned against numerous imitations sold in this shape at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Co. from either address. The price at which these pills are sold makes a course of treatment inexpensive as compared with other remedies or medical treatment.

HOW TO PURIFY POLITICS.

Shortly after election the Journal published a paragraph stating that Miss Alice Carson, a republican, who had been elected school superintendent of Josephine county, beating J. F. Hayes, the populist candidate, who aspired to be her best fellow. The item has gone the rounds of the state press, gaining a little as it went, until now they are brooded over, and we expect the next exchange will have them married. A late exchange prints the item and adds:

"Instead of soaring on her, he loves her better than ever. She has more money now. On account of the washouts and strikes, it cannot be ascertained whether or not the young people in question object to being thus advertised over the country. But one thing is certain—they have furnished a solution of the problem of corruption in politics. Let political parties henceforth scan the list of nominees for the several offices and put up against each one his best fellow or best girl as the case may be. There will be no more mud slinging and campaigns will be full of love and sweetness. Instead of affidavits will be gum drops. Instead of anathemas we will have buggy rides. In the place of causing the country to resemble a portion of Gobianna, the angels will smile as they witness the heaven on earth which will be created. Of course the first thing to do is to enfranchise the women. But that is coming anyway and we may as well have it sooner or later, just as well sooner. By all means, follow the example of Josephine county and run as candidates two persons that are lovers. It may save the nation."—Fossil Journal.

Piles! Piles! Itching Piles.

SYMPTOMS—Moisture; intense and stinging, most at night; worse by scratching. If allowed to continue tumor form, which often bleeds and becomes very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

THE WESTERN PEDAGOGUE.

We are in receipt of the May number of our state school paper. It exceeds any of the former numbers in value. The paper this month contains many new and valuable features. The illustrated series on the schools of the state is introduced by a paper on the Friends Polytechnic Institute at Salem, Oregon. These papers cannot fail to be of great value both to the schools and to the public.

There are also several fine articles by our best writers and the departments "Current Events," "Saturday Thoughts," "Educational News," "The Oracle Answers, Correspondents," etc., each contain much valuable reading for teachers or parents. The magazine has about 50 pages of matter, well printed and arranged. We pronounce the Western Pedagogue the best educational monthly on the coast.

Everyone of our readers should have a copy of the magazine. It is an interest in education. No teacher school director or student can get along well without it. We will receive subscriptions at this office. Price only \$1.00 a year. When desired we will send the Western Pedagogue and Gazette one year to one address for \$3.00. Call and examine sample copies. Teachers, directors and parents, now is the time to subscribe. It

Brooding Snakes.

How the Python Mother Hatches Out Her Young.

The python lays eggs and hatches them by developing a high degree of heat, as has been proved in the case of the Indian and African species.

The first careful investigations of this subject were made in 1841 by the renowned naturalist, Achille Valenciennes, in the Jardin des Plantes, Paris. A python there laid fifty eggs within three hours, which at first were oval, but pointed toward the poles; the shells were soft and of a gray color; they soon changed to a perfect egg-shape and became white, and the shells hardened somewhat, although they remained pliable like leather and were lustreless and rather rough. Their length varied from two and a half to four and a half inches.

After laying the eggs the snake gathered them together in a heap under the cover she had in her box, would the rear part of her body around the base of this heap, and then formed a cone-shaped spiral of the rest of her body around the whole, her head closing the top. Not a single egg was visible.

After fifty-six days the first young ones crawled out. They were about two inches long. The temperature in the center of the heap of eggs, was 105 degrees Fahrenheit, while that of the box was only 75.5 degrees Fahrenheit.

Two other pythons tried to hatch their eggs in the London Zoological garden—in one in 1862 and the other in 1881. In these cases the difference between the temperature inside of the heap of eggs and the outside air was much less, but the eggs were spoiled and no young were hatched.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

Honorably discharged soldiers and sailors who served ninety days, or over, in the late war, are entitled, if now partially or wholly disabled by ordinary manual labor, whether disability was caused by service or not, and regardless of their pecuniary circumstances, WIDOWS of such soldiers and sailors are entitled (if not remarried) whether the soldier's death was due to army service or not, if now dependent upon their own labor for support. Widows not dependent upon their own labor are entitled if the soldier's death was due to service. CHILDREN are entitled (if under sixteen years) in almost all cases where there was no widow, or she has since died or remarried. PARENTS are entitled (if soldier never widow nor child, provided soldier died in service, or from effects of service, and they are now dependent upon their own labor for support. It makes no difference whether soldier served or died in late war or in regular army or navy, without losing any rights. Thousands of soldiers drawing from \$2 to \$10 per month under the old law are entitled to higher rates under new law, not only on account of disabilities for which now pensioned, but also for others, whether due to service or not. Soldiers and sailors disabled in line of duty in regular army or navy since the war are also entitled, whether discharged for disability or not. Survivors, and their widows, of the Black Hawk, Creek, Cherokee and Seminole or Florida Indian Wars of 1818 to 1842, are entitled under a recent act. Mexican War soldiers and their widows also entitled, if sixty-two years of age or disabled or dependent. Old claims completed and settlement obtained, whether pension has been granted under later law or not. Rejected claims re-opened and settlement secured, if rejection improper or illegal.
