# Only the Scars Remain, PATENTS

## NOTICE TO INVENTORS.

There was never a time in the histor inventions and improvements in the art and sciences generally was so great a now. The conveniences of maakind i the factory and workshop is household and on the farm, as well a in official life, require continuat accessions to the appurtenance and impliments of each in order to save labor, time and expense The political change in the administra on government does not affect the progress of the American inventor, who being on the alert, and ready to perceive the existing deficiencies, does not permit the affairs of government to deter bim from quickly conceiving the reme by to overcome exis' ag discrepan cies To great case annot be exer e's d in cho ng a competent and skill-

., attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employ ment of incompetent counsel, and es pecially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, and gen eral periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Conpany is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepare and prosecute applications generally, including mechanical inventions, design patents, trade-marks, labels, copyrights, interierences. infringements, validity reports, and gives especial attenion to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice. JOHN WEDDERBURN. 618 F Street.

Washington, D. C. P. O. Box 385.

## GOOD ADVICE.

0

Every patriotle citizen should give his personal effort and influence to increase the circulation of his home paper which teaches the American policy of Protection. It is his duty to aid in this respect in every way possible. After the home paper is taken care of, why not subscribe for the AMERICAN ECONOMIST, published by the American Protective Tariff League? One of its correspondents says : "No true American can get along without ft. I consider it the greatest and truest political teacher in the United States."

Send postal card request for free sample copy. Address Wilbur F. Wakeman, General Socrutary, 135 West 23d St. New York.

## PLAYING POLO. Beneficial Fomit of Ou One Anotomnia

Maniy Sport Which Combines Horse

manship with Exhibitating Muscular Training -The Game Becoming National

We have, during the past dozen years. writes Col. T. A. Dodge in Harper's Magazine, drawn from our tap of anglo mania a mug brimful of good. How easy it is to blow away the froth which rests on the excellent draught below. One of the most exhibitating of our imported sports is polo, and a+lt happens one. that our plains furnish so excellent a mount, and our increasing out-of-door habits so many players the game may in many cases merely death-traps. well become a national one. The motto Fox hunting of the last generation was a modest performance at a hand gallop: drags him to the bottom. Sir Roger de Coverig rode to hounds at the cross-country pace has been run up few weeks later heard that both letters More and more thor- and postman had been devoured by to racing speed. unter of our sizes could not live cries, arrived at the water's edge in through the shortest jourst to-day. The time to seize a young boy whose leg same thing applies to polo the faster had been caught by one of these brutes and more able the pony, the better the and torn from him. He escaped with erformance of the rider. You can get his life, thanks to my timely arrival. normous weight-carrying capacity in In some places one sees thousands of in under-bred pony, as well as remark- crocodiles on a mudbank, most of them ble endurance, but not at speed, scarcely two inches in length, evident When you call on a fourteen hands ly just hatched. A week does not pass pony to carry one hundred and sixty but in some river village wails and lam-

pounds and upward at speed, you must entations are heard for a fresh viehave blood. Even the veriest weed of tim to the crocodile's insatiable appe an undersized thoroughbred will do tite. wonders in this way. The sudden bursts or racing pace called out at polo have made the English breed for small thoroughbreds. Capital polo ponies have been raised from the hardy Ex-moor ponies with blooded sires. More barrel comes of this cross, togethe with a certain hardiness; but the little purposes. She has not the hold on terknife-blade thoroughbred will often carry as big a man, and endurance at

speed is the inheritance only of his race. These words, in fact, sum up that peculiar quality which has not yet been reached in any other animal, except, perhaps, the greyhound, So much for the English pony. Whe ve come to riders, it will be man

years before we can boast the skill o our transatlantic cousins, or either a is that of the Japanese, with the light cup-wands for mallets, an weight balls. The America feather polo fields by no means exhibit the piny you see in England. Many a man here indulges in recidencess which would warn him off the ground at Huringham. It takes years at the gam produce the atmosphere which to reeds perfection, and in the twenty has been played in England it has well nigh reached this point. But it is wel persevere. We are making marked rogress in all our sports, and polo may

et become as much a national game as let us hope without its commercial aspect. The American polo pony is no other han our little bronco friend. Many

han our little bronce friend man. ome from Texas, Wyoming, Montana. The clever cow-pony is ready trained The clever cow-pony is ready trained The Process by Which Green Material Is Made to Look Aged. for the polo ground. He will catch the idea of the game as quickly as he caught the trick of cow-punching, and we has already learned to stop and turn well, clever - than those cabinetnd twist as only he can do. When he makers who produce goods to satisfy s taken off the cars on arrival here the desire of the public for farniture from his familiar haunts on the eattle | made of old and fancy woods. They
