PATENTS!

NOTICE TO INVENTORS.

There was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of mrakind in the factory and workshop, the household and on the farm, as well as in official life, require continual accessions to the appurtenance and impliments of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who being on the alert, and ready to perceive the existing deficiencies, does not permit the affairs of government to deter bim from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employ ment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, and general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Conpany is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepare and prosecute applications generally, including me chanical inventions, design patents, trade-marks, labels, copyrights, interferences. infringements, validity reports, and gives especial attenion to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.
Write for instructions and advice.

John Weddenburn. 618 F Street, Washington, D. C. P. O. Box 385.

"For Years,"

Says Carrie E. Stockwell, of Chester-field, N. H., "I was afflicted with an extremely severe pain in the lower part of

thirty minutes to half a day leaving as suddenly but, for several days after, I was quite pros trated and sore. Sometimes the attacks were almost daily, then less frequent. After about four years of this suffering, I was taken down with billions typhoid fever, and when I began to recover, I had the worst attack of my old trouble I ever experienced. At the first of the fever, my mother gave ne Ayer's Pills, my doctor recon them as being better than anything he could prepare. I continued taking these Pills, and so great was the benefit derived that during nearly thirty years I have had but one attack of my former trouble, which

yielded readily to the same remedy.' AYER'S PILLS Prepared by Dr. J. C. Ayer & Co., Lowell, Most **Every Dose Effective**

from this the first viaduct, 1,180 feet long, will be carried to the Corso Vittorio Emmanuele, where it will terminate in the base of a metallic tower 490 feet in height. The second via duct, 950 feet long and branching out of this tower some distance below the summit, will pass over the San Martino hill and end in the ground level at the new Rione del Vomero. The viaduets will be carried on pyramidical metallic towers having masonry foundations; and the masonry tower at the beginning of the first viaduct and the metallic tower, connecting the two viaducts, will each be provided with staircases and capacious lifts for conveying passengers up and down. Passengers entering the cars at either end of the line will not be compelled to change their seats on arriving at the metallic tower, as the cars will be au-tomatically placed on the lifts for ascending or descending from the highest viaduct, when the cars will continue their way to either terminus. Generating stations will be provided as each terminus for producing current for lighting and power purposes. The undertaking, a concession for which has been granted, would provide a splendid view of the whole of Naples.
