## PATENTS!

NOTICE TO INVENTORS.

There was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of mrakind in the factory and workshop, the household and on the form, so well as in official life, require continual access ons to the appartenance and impliments of each in order to save labor, time and expense The political change in the administra tion of government does not affect the progress of the American inventor, who being on the alert, and ready to perceive the existing deficiencies, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepan cies. Too great care cannot be exer e ed in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in incomerable instances by the employ ment of incompetent counsel, and es pecially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee. THE PRESS CLAIMS COMPANY. John Wedderburn, General Manager 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, and general periodicals of the country; was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Conpany is prepared to take charge of all patent business entrusted to it for ressonable fees, and prepare and prosecute applications generally, including me chanical inventions, design patents, trade-marks, labels, copyrights, interfer ences, infringements, validity reports, and gives especial attenton to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice. JOHN WEDDERBURN. 618 F Street, P. O. Box 385. Washington, D. C.

### GOOD ADVICE.

Every patriotic citizen should give his personal effort and influence to increase the circulation of his home paper which teaches the American policy of Protection. It is his duty to aid in this respect in every way possible. After the home paper is taken care of, why not subscribe for the AMERICAN ECONOMIST. published by the American Protective Tariff League? One of its correspondents says: "No true American can get along without it. I consider it the greatest and truest political teacher in the United States."

Send postal card request for free sample copy. Address Wilbur F. Wake. man, General Secretary, 135 West 23d St., New York.
