THE INSTITUTE. From one Who was Present. On Tuesday and Wednesday the same subjects were discussed at the institute that were introduced on Monday, with the additional subjects History, School Management, and Arithmetic, which were successfully handled by Prof. Wetzel, of Portland.

Mr. Wetzel is a wide-awake, enthusiastic teacher, who has spent twenty-five years in the school room, and who has the happy faculty not only of imparting knowledge, of which he has a goodly store, but of creating among his teachers the enthusiasm which he himself feels. Prof. Brown, of Lexington, has been weighed in the balance and "not found wanting." His methods are excellent and could not help but bring forth good results, when handled by an earnest teacher.

According to the writer's opinion, Mr. Brown had two of the most difficult subjects to present to a teachers' institute, that of Geography and Physiology. We do not need to comment on Prof. Wier and his work. For over three years he has labored in the school of Heppner, meeting often with discouragements, but endeavoring at all times to do his duty toward pupils, teachers and patrons. In his quiet way he built up the Heppner school until it is a credit to the county and state.

successful she has been, the members of the institute can testify. There were present during the session, A. W. Balsiger, Roy Glascock, John Hornor, Grace Sobofield, Jennie Wier, Mrs. A. E. Hollenbeck, Ada M. Jones, Addie Conlee, Ada Redford, W. L. Salinger, E. Jay Merrill, A. Kahler, Jos. M. Hayes, J. E. Tibbets, Emma Meek, Lizzie Banister, Ardella Reed, Mand Rash, Ada Gentry, Nellie Holt, Martha Neville, A. Hodson, May Bailey, Mrs. A. W. Wier, Edith Young, J. W. Haunted! A haunted house in these practical and unromantic days is something of a rarity, but an individual haunted with the idea that his ailment is incurable is a personage frequently met with. Disbelief in the ability of medicine to cure is only a mild form of monomania, although in some cases repeated failures to obtain relief from many different sources would almost seem to justify the doubt. Hostetter's Stomach Bitters has demonstrated its ability to overcome dyspepsia, constipation, liver and kidney trouble, neuralgic complaints and nervousness, and its recorded achievements in the curative line ought at least to warrant its trial by any one troubled with either of the above ailments, even although his previous efforts to obtain remedial aid have been fruitless. Used with persistence, the Bitters will conquer the most obstinate case.

Had Hurt.—Wednesday while hauling hay out on his Black Horse ranch, W. C. Laey met with a runaway in which he was severely bruised, besides suffering a dislocation of the right hip. Park Garrigues and Dr. E. R. Swinburne went out to attend the sufferer, and fortunately, without much difficulty, reduced the dislocation. Such cases are very rare, and as a rule cause considerable trouble to both patient and physician. In this case the damage was repaired by "manipulation," a system in this kind of surgery which physicians say is always the best if it can be used successfully. Mr. Laey will doubtless speedily recover.

For the many accidents that occur about the farm or household, such as burns, scalds, bruises, cuts, ragged wounds, bites of animals, mosquitoes, frost bites, sores or pains on any part of the body, or the ailments resulting from exposure, as neuralgia, rheumatism, etc., Dr. J. H. McLean's Volcanic Oil Liniment has proved itself a sovereign remedy. Price 25c, 50c and \$1.00 per bottle.

Some writer has said, "If I would have my name endure, I'll write on the hearts of men. In characters of fire and light. And these beyond the reach of time, shall live immortal as my thought." And well may these lines apply to educators like Prof. Wier.

Miss Balsiger has done all in her power to make the institute a success, and how

Scrofula is one of the most fatal among the scourges which afflict mankind. Chronic sores, cancerous humors, emaciation, and consumption, are the result of scrofula. Ayer's Sarsaparilla eradicates this poison, and restores to the blood, the elements of life and health.

Deafness Cannot be cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

HELD UP.—An Oregonian special says that at Baker City, at 2 o'clock on the morning of Nov. 23th, one of the most daring robberies ever committed in that section occurred. A party of six men, heavily masked, and armed with rifles, shotguns and revolvers, entered the Hotel Washburner. The employees and bystanders were placed under cover of arms, while two of the robbers relieved the saloon bar till and two came of the cash, amounting to about \$1100, which they placed in a sack and departed. A fire alarm was turned in by an officer a few moments after the robbery, which drew out a large number of people, but the robbers had made good their escape, and were not to be seen. There is no clew whatever. This is probably a part of the old gang that infested Baker county a year or so ago.

How to Cure All Skin Diseases. Simply apply "SWAYSE'S OINTMENT." No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for SWAYSE'S OINTMENT.

MADE A SERIOUS MISTAKE.—O. Hodges, a Corvallis saloonkeeper, tried to whip Deputy Int. Rev. Col. Mulley because the latter insisted on looking over Hodges stock to see whether the liquors were properly stamped, and for his pains got locked himself, besides being made defendant on a charge of interfering with an officer in the discharge of his duties. Some people don't seem to comprehend their position in matters of this sort, but when the authorities get through with Mr. Hodges it is more than likely that he will not make a similar mistake.

Geo. W. Jenkins, editor of the Santa Maria "Times," Cal., in speaking of the various ailments of children said: "When my children have croup there is only one patent medicine that I ever use, and that is Chamberlain's Cough Remedy. It possesses some medicinal properties that relieve the little sufferers immediately. It is, in my opinion, the best cough medicine in the market." If this remedy is freely given as soon as the croupy cough appears it will prevent the attack. It is also an ideal remedy for whooping cough. There is no danger in giving it to children, as it contains nothing injurious. For sale by Slocum-Johnson Drug Co.
