

PATENTS!

NOTICE TO INVENTORS.

There was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of mankind in the factory and workshop, the household and on the farm, as well as in official life, require continual accessions to the apparatus and implements of such in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who being on the alert, and ready to perceive the existing deficiencies, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially in this advice applicable to those who adopt the "No patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee. THE PRESS CLAIMS COMPANY, John Waldenbur, General Manager 618 F Street, N.W., Washington, D.C., representing a large number of important daily and weekly papers, and general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepare and prosecute applications generally, including mechanical inventions, design patents, trade-marks, labels, copyrights, interferences, infringements, validity reports, and give especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

A FRIEND

Speaks through the loothbay (Me.) Register, of the beneficial results he has received from a regular use of Ayer's Pills. He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. I urge upon all who are in need of a laxative to try Ayer's Pills. They will do good."

A PATRIOT'S PETTICOAT.

In a letter to the New York Times David S. Turner, of New Dorp, S. I., says: "During the war of 1812, when Commodore Halsey attacked Stonington, the people there had no military defense except one old cannon which had been used for firing salutes. At Groton, on the bank of the Thames, opposite to New London, lived Mrs. Bailey in her own house, in the full vigor of womanhood and patriotism for her country, who, learning of the attack, immediately mounted her horse and started for that place to take part in the fray. Upon her arrival there the fight to prevent the landing of the Hardy force had already commenced, in which the old cannon was playing a conspicuous part, but soon it was found that the old gun must be given up for want of cartridges or material to make them. It was at this critical moment that Mrs. Bailey arrived, and, upon understanding the matter, gave instant notice that she could supply the need, and when it was stripped off her dainty petticoat, which was soon worked into cartridges. The old gun was kept at work, and Commodore Halsey's force went back to the fleet to report progress. "When Gen. Jackson was president and made his tour through New England, he crossed the river at New London, made a call upon Mrs. Bailey at her Groton home and gave her a cordial handshaking and his hearty congratulations upon her courageous and patriotic action upon the occasion of the battle of Stonington."

INGENIOUS SMUGGLING.
False Bank Notes Carried Into Russia in Hollow Pencils.
"One of the most ingenious devices for smuggling was detected in Russia not long ago," said O. L. Ratovitch, of St. Petersburg, as recorded by the St. Louis Globe Democrat.
"A great number of false bank notes had been put into circulation within the dominions of the czar. They could only have been imported, and although the strictest search was made habitually over every vessel entering a Russian port, no trace of the smuggling of false notes was discovered. Accident, however, at last brought the mystery to light. It happened that several cases of lead pencils arrived one day from England, and while being examined one of them fell out from a package, and the custom house officer, picking it up, cut it to a point and used it to sign the orders which delivered up the pencils to the consignee. He kept the loose pencil for his own use, and a few days afterward, because it needed a good point, he cut it again and found that there was no more lead. He cut still further, and was surprised to find a thin roll of paper nested in the hollow of the pencil. The lead was supposed to be the paper was one of the false notes, and in this way they had been smuggled into the country."

A CHANCE FOR HUSTLERS.
We want several live, wide-awake canvassers to represent the Gazette in this and adjoining counties, in connection with the National Newspaper Union. The work is new, popular and very profitable, requiring neither capital nor previous experience. It is worth looking after, and if you want a real good thing in the way of light, pleasant and profitable employment it will pay you to investigate this at once. There is money in it for hustlers. Write for full particulars to THE NATIONAL CO., 54-11 St. Louis, Mo.

He knew the Law.
A certain justice of the peace from the state of Iowa, having arrived previous to a trial at a conclusion upon a question of law highly satisfactory to himself, refused to entertain an argument by the opposing counsel. "If your honor please," counsel pleaded, "I should like to cite a few authorities upon the point." Here he was sharply interrupted by the justice who stated: "The court knows the law, and is thoroughly advised in the premises, and has given his opinion, and that settles it." "It was not," continued counsel, "with an idea of offending your honor that you are wrong, but I should like to show you what a blamed fool Blackstone was."

A Gentleman
Who formerly resided in Connecticut, but who now resides in Honolulu, writes: "For 20 years past, my wife and I have used Ayer's Hair Vigor, and we attribute to it the dark hair which she and I now have, while hundreds of our acquaintances, ten or a dozen years younger than we, are either gray-headed, white, or bald. When asked how our hair has retained its color and fullness, we reply, 'By the use of Ayer's Hair Vigor—nothing else.'" "In 1868, my affianced was nearly bald, and the hair kept falling out every day. I had used her use Ayer's Hair Vigor, and very soon, it not only checked any further loss of hair, but produced an entirely new growth, which has remained luxuriant and glossy to this day. I can recommend this preparation to all in need of a genuine hair-restorer. It is all that it is claimed to be."—Antonio Alarrun, Bastrop, Tex.
