PATEN

NOTICE TO INVENTORS.

There was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of meakind in the factory and workshop, the bousehold and on the farm, as well as in official life, require continual accessions to the appurtenance and impliments of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who being on the alert, and ready to perceive the existing deficiencies, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employ ment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee, THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, and general periodicals of the country, was instituted to protect its patrons from the unsafe methods beretofore employed in this line of business. The said Conpany is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepare and prosecute applications generally, including mechanical inventions, design patents, trade-marks, labels, copyrights, interfer-ences, infringements, validity reports, and gives especial attenion to rejected It is also prepared to enter into competition with any firm in securing foreign patents.
Write for instructions and advice.

JOHN WEDDRIBURN. 618 F Street. P. O. Box 385. Washington, D. C.

NOT SO HARD AS IT SEEMS.

The idea of being able to invent some thing strikes most people as being very difficult; this delusion the company wishes to dispel. It is the simple things and small inventions that make the everybody, at some time or another, currents are concerned. conceives an idea, which, if patented. would probably be worth to him a fortune. Unfortunately such ideas are usually dismissed without thought. The simple inventions like the car window which could be easily slid up and down without breaking the passenger's back, the sauce pan, collar button, the nut lock, the bottle stopper, the snow shovel, are things that almost everyone sees some way of improving upon, and it is these kind of inventions that bring the greatest returns to the author.

The prize we offer will be paid at the end of each month, whether the application has been acted upon by the investigate this at once. There is money in it for fundiers. Write for full particulars to THE NATIONAL CO.

84-if the same of must apply for a patent on his invention This life can only give a man at best

prize or not, the inventor will have a valuable patent.

JOHN WEDDERBURN, Gen'l Manager,

A New Goographical Apparatus. The marine globe is a new physical instrument to produce currents similar to sea currents. It consists of a glass globe under the interior well of which are constructed the massive outline of continents and the hollows of sea basins. The bottom of the sea is formed of an interior sphere, concenvertical axis, and is worked by a gearing. The sea basins are filled with water containing particles of stearine in suspension, which render all its movements to festoon the rafters of its armory visible. The exterior of the apparatus with old musicets and antique scabgreatest amount of money, and the com- that it tends directly to facilitate the plex ones are seldom profitable. Almost study of geography, so far as the sea

> Contentment the Only Specific. A newspaper reporter the other day asked G. G. Shrady, the great American surgeon and physician, the question: "What manner of life do you think most favorable to health?" His reply was: "A moderate life. Take plenty of sleep. Take plenty to eat. Take plenty of exercise. We need more walking philosophers in this world. Keep a contented mind Remember that the man who wants little is alisn't, always. Sometimes a man owns house, but sometimes the house owns the man. It is better for the man to own the house, and bear in mind that a very big man can live in a very little house. I need not say that little men often live in big houses.

> UNCLE SAM, JUNK DEALER. He Has a Frice List of the Old Trumpery He Disposes Of.

Uncle Sam is a sort of second-hand dealer and runs a good-sized junk shop on his own hook. Not only that, says the New York Advertiser, but he sends out circulars to those of inquiring turn of mind, with descriptions and price tral with the one of glass, moving on a lists of his wares, just as a second-hand book dealer or postage stamp or coin collector would do.

If a grand army post should conclude does not differ much from that of a bards it will find Uncle Sam right on geographical globe, and its merit is hand for though he has disposed of all his heavy arms, he has innumerable old pistols musicets, beyonets and subers which he is not averse to disposing of at a fair price, and he will promptly forward a printed price list showing the comparative newness or antiquity of his second-hand wares and warranting the articles to be exactly as represented and to fill the bill preeisely for decorative purposes. And they are offered very cheap, too. One can buy an old sword, blood-stained and full of memories of furious charges and well-sustained assaults, for twen ty-five cents, a horse pistol for a dime or a Spencer breech-loader for seven dollars, other articles varying to suit.

the chief justice's criticisms finally folded up his brief and remarked: "I pave another of same stock; or will trade will retire, my lord, and no longer trees for good mileb sowe pass on your lordship's impatience."

But a good price. I will sell cheep as I pave another of same stock; or will trade for good mileb sowe.

F. O. Buckeyer.
