NOTICE TO INVENTORS.

There was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of menkind in the factory and workshop, the household and on the farm, as well as in official and on the farm, as well as in official life, require continual accessions to the appartenance and impliments of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who being on the alert, and ready to perceive the existing deficiencies, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employ terests have been lost and destroyed in innumerable instances by the employ ment of incompetent counsel, and expecially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee.

several days after. I was quite prostrated and sore. Sometimes the attacks were almost daily, then less frequent. After about four years of this suffering, I was taken down with billous typhoid fever, and when I began to recover, I had the worst attack of my old trouble I ever experienced. At the first of the fever, my mother gave me Ayer's Pills, my doctor recom them as being better than anything he could prepare. I continued taking these Pills, and so great was the benefit derived that during nearly thirty years I have had but one attack of my former trouble, which yielded readily to the same remedy.

I HAVE A SURE, TRIED, PROVEN AND Cholers, which has stood the test for sive or years without failure, that I know of, but has effected thousands of cures. I have sold over 25,000 receipts and family rights in eight months, and not a single complaint received yet. I sold each and every one on a guarantee, and I still sell that way. If Holland Cholers Cure and Preventative falls to cure or prevent Cholers, I will refund your money. This is fair enough, six pounds of the medicine can be made at a total cost of from 31 to \$1.20, enough to \$650 hogs and 100 chickens a year. You are then assured against cholers for one year. If you will try this remedy, I assure you you will never regret it. Use it, and your hogs and chickens will look better and healthler than ever before. MRS. RACHEL V. THOMAS, Agents wanted at once.
