

# PATENTS!

NOTICE TO INVENTORS.

There was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The convenience of mankind in the factory and workshop, the household and on the farm, as well as in official life, require continuous accessions to the apparatus and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who being on the alert, and ready to perceive the existing deficiencies, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially in this advice applicable to those who adopt the "No patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F Street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, and general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepare and prosecute applications generally, including mechanical inventions, design patents, trademarks, labels, copyrights, interferences, infringements, validity reports, and give special attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

JOHN WEDDERBURN,  
618 F Street,  
P. O. Box 385, Washington, D. C.

### TRADE MARKS.

While you keep your subscription card up you can keep your hand in front of charges.

Alfred T. J. Jones, Or.—Horse fit on left shoulder, circle same on left hip, under bit on right ear, and upper bit on left range, Morrow county.

Alexander J. C. Atkins, Or.—T with bar number 9 on left shoulder of horse; cattle same on left hip.

Alton O. D., Right Mile, Or.—Cattle brand, (D) on left hip and horse same brand on right shoulder, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

Alton O. D., Right Mile, Or.—Horse, JA connected on left shoulder, cattle same on left hip, Morrow county.

### FRUITS

### FLOWERS

### VEGETABLES

For Pleasure or Profit,

### AMERICAN GARDENING

STANDS FOREMOST IN THE LIST.

It deals practically with fruits and vegetables, trees, shrubs and flowers, and covers the field of horticulture systematically and thoroughly. It illustrates and describes methods of cultivation, improved varieties and about saving devices.

It is, without doubt,

The Paper for the People!

\$1.00 a Year (24 numbers).

Specimen copy and Sample catalogue of horticultural books FREE on application.

American Gardening, 170 Fulton St., N. Y.

### PATENTS

Designs, Trade-marks, Design Patents, Copyrights.

And all Patent business conducted for MODERATE FEES.

Information and advice given to inventors without charge. Address

PRESS CLAIMS CO.,

JOHN WEDDERBURN,

Managing Attorney,

60 BOX 465, WASHINGTON, D. C.

This Company is managed by a combination of the best and most influential names in the Patent Office, for the purpose of guaranteeing their subscribers superior results and immediate Patent action, and also for preparing this a valuable volume of 100 pages, containing a full and complete list of the names of all the Patent Attorneys in the United States.

Photographs \$1.50 per dozen at Shepherd's gallery, near opera house, north Main St., Portland, Ore.

### Administrators Notice.

Estate of John W. Dawson, deceased.

NOTICE IS HEREBY GIVEN THAT LETTERS OF ADMINISTRATION on the estate of John W. Dawson, deceased, were granted to the undersigned on the 15th day of February, 1925, by the county court of Morrow county. All persons having claims against said estate are required to exhibit them to me for allowance at Heppner, Oregon, within six months after the date of this notice, or they shall be forever barred. Dated this 15th day of February, 1925.

WILLIAM G. SCOTT, Administrator.

### ADMINISTRATOR'S NOTICE.

ESTATE OF T. E. BARTON, DECEASED.

NOTICE IS HEREBY GIVEN THAT LETTERS OF ADMINISTRATION on the estate of T. E. Barton, deceased, were granted to the undersigned on the 26th day of February, 1925, by the county court of Morrow county. All persons having claims against said estate are required to exhibit them to me for allowance at Heppner, Oregon, within six months after the date of this notice, or they shall be forever barred. Dated this 26th day of February, 1925.

WILLIAM G. SCOTT, Administrator.

### Notice of Intention.

LAND OFFICE AT THE DALLES, OREGON.

February 14, 1925. Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before J. W. Morrow, County Clerk, at Heppner, Oregon, on April 23, 1925, viz:

FRANK CLEM.

Section 2, T. 1 N., R. 27 E., W. 3 M., Morrow county, Oregon.

### Notice of Intention.

LAND OFFICE AT LA GRANDE, OREGON.

February 14, 1925. Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before J. W. Morrow, County Clerk, at Heppner, Oregon, on April 23, 1925, viz:

FRANK CLEM.

Section 2, T. 1 N., R. 27 E., W. 3 M., Morrow county, Oregon.

### NOTICE.

IN THE COUNTY COURT OF THE STATE OF OREGON.

In the matter of the estate of Fredrick Kretschman, deceased.

AND ALL PERSONS KNOWN AND UNKNOWN INTERESTED IN SAID ESTATE.

IN THE MATTER OF THE ESTATE OF FREDRICK KRETSCHEM, DECEASED.

NOTICE IS HEREBY GIVEN THAT LETTERS OF ADMINISTRATION on the estate of Fredrick Kretschman, deceased, were granted to the undersigned on the 15th day of February, 1925, by the county court of Morrow county. All persons having claims against said estate are required to exhibit them to me for allowance at Heppner, Oregon, within six months after the date of this notice, or they shall be forever barred. Dated this 15th day of February, 1925.

WILLIAM G. SCOTT, Administrator.

### ABOUT CONSUMPTION.

It is Declared to Be a Contagious Disease.

An Ancient Theory Revived Through Scientific Investigation—No Preventions Against Contagion Can Be Made.

The Philadelphia County Medical society has petitioned the board of health of that city to put consumption of the lungs on the list of contagious diseases, says the Baltimore Sun. The request has awakened interest in the old question of the contagiousness of consumption and incidentally on the general subject of infection and contagion. Some of the diseases which flesh is heir to are contagious in every stage of the word. A contact so slight that it does not even reach skin contact, but merely with the air which smallpox patients breathe, is sufficient to cause smallpox in man. So, too, the handling by the wall of material touched by the sick—has been proved to be the cause of many diseases, of which erysipelas and scarlet fever may be cited as examples. The products of certain other diseases—typhoid fever, for example—require to be taken into the economy to become malignant. Still others, such as glanders, must be introduced into the blood current itself before they are dangerous. These facts have been proved by long observation and are not to be disputed. A horseman treats a case of glanders with perfect security, provided his skin is whole or is protected. A nurse or a doctor stays for hours in the room of the typhoid patient and suffers no harm. The older doctors, therefore, set these diseases to one side as infectious, but not contagious, for it was equally evident that they were carried from patient to patient, not through the air, but through other, and to them unknown, means.

The discoveries in bacteriology have settled many questions, but have unsettled many others which were supposed to have been fixed forever. Among other things it has broken down the barriers between contagious and infectious diseases. All the diseases which have been mentioned are now believed to be caused by germs of vegetable origin, some of which are known, others of which are only suspected. The explanation of the bacteriologist as to the difference in infectivity on the human organism is simply that of the Bible. Some germs fall on good ground and multiply, others on stony ground and fail to grow, or wither at once. When a typhoid germ is breathed into the lungs it perishes just as do the myriad of other germs which we daily breathe. It is far otherwise if it is swallowed with the food or drink, and finds after running the gauntlet of the juices of the stomach a suitable place for growth in the intestines. The germ grows and multiplies, and the ordinary phenomena of the disease result. This will give a general idea of the simple and apparently complete answer to many of the vexed questions which puzzled the older doctors.

Unfortunately the practical difficulties are not entirely removed by the theoretical explanation, and especially is this true of consumption. Even if it is granted that the disease always originates from a germ, and that this germ came from some previous case of the disease, the fact that so many escape where almost all are ex-

### PRIZES ON PATENTS.

How to get \$100 and Perhaps Make a Fortune.

We secure patents and to induce people to keep track of their bright ideas we offer a prize of one hundred dollars to be paid on the first of every month to the person who submits to us the most meritorious invention during the preceding month. We will also advertise the invention free of charge in the National Recorder a weekly newspaper, published in Washington, D. C., which has an extensive circulation throughout the United States and is devoted to the interests of inventors.

NOT SO HARD AS IT SEEMS.

The idea of being able to invent something strikes most people as being very difficult; this delusion the company wishes to dispel. It is the simple things and small inventions that make the greatest amount of money, and the complex ones are seldom profitable. Almost everybody, at some time or another, conceives an idea, which, if patented, would probably be worth to him a fortune. Unfortunately such ideas are usually dismissed without thought. The simple inventions like the car window which could be easily slid up and down without breaking the passenger's back, the sauce pan, collar button, the nut lock, the bottle stopper, the screw shovel, are things that almost everyone sees some way of improving upon, and it is these kind of inventions that bring the greatest returns to the author.

The prize we offer will be paid at the end of each month, whether the application has been acted upon by the Patent Office or not. Every competitor must apply for a patent on his invention through us, and whether he secures a patent or not the inventor will have a prize of ten dollars.

### MUSIC'S UNIVERSAL LANGUAGE.

The effect of music on health and longevity has lately been discussed in the Scientific American. One writer repeats the well-known argument that persistent work in one particular direction is injurious, and that the beneficial influence of music lies partly in its providing an entirely distinct and unique brain stimulus. He concludes with the following paragraph: "This art has the great advantage to be eminently progressive and causes the listener as well as the performer to satisfy the yearning of human nature for a higher and higher level of enjoyment, which, thanks to the successive labors of men of inventive genius, has been provided for by what may be called a musical literature, which is rich in eminent names as is the literature of any nation, either in prose or in poetry, while it has the enormous advantage not to be confined to any special language, but is written in the universal language of emotions, which the refined individuals of all nations understand and appreciate."

NEW ZEALAND fruit growers are using cyanid of potassium as an insecticide. It is dissolved in water, at the rate of one ounce of cyanid to twenty gallons of water, and the solution is sprayed in the usual manner. It is found to be effective without injuring the most delicate foliage. It is a very dangerous poison.

The Siamese believe that the human soul requires seven days to journey from earth to Heaven; hence, the prayers of the friends of the deceased person are continued for seven days after the funeral.
