

OTIS PATTERSON, Editor. A. W. PATTERSON, Business Manager.

ALL the readers of the Gazette should read "Coin's" publications.

ILLINOIS shows every indication of being on the silver side of the house.

THE Chicago Inter-Ocean talks straight from the shoulder on the question of finance.

HON. JOHN J. INGALLS has got down off the fence and comes out for free coinage of silver with gold.

EX-PRESIDENT HARRISON has given up the active practice of law, and a few days ago made his last plea to a jury.

GOLD has grown in purchasing power one hundred per cent. since 1873. This means lower prices and debts difficult to pay.

MR. EDWIN SCOTT, a journalist of acknowledged ability, has succeeded John O'Brien as managing editor of the Portland Daily Sun.

THE Weston Leader is one of the best local papers in Eastern Oregon. It is published by Clark Wood, formerly reporter for the East Oregonian.

HON. HENRY A. DUPONT claims that he was elected senator from Delaware to succeed Senator Higgings. It is claimed, however, that Dupont lacked one vote of election, and his place will be contested.

THE Oregonian proposes that all silverites should go to the populist party. Thanks. In the meantime the Oregonian had better consider how it will fight after it has bolted the republican party of Oregon. Its demi-god, Cleveland, may, however, fix a special piece for its final and eternal reception.

WITH free silver, says the gold organs, we would get on a regular spree for a time. Prices would advance, speculation would be rife, and everybody busy; but by-and-by would certainly come the relapse. Still, we have been infernally sober and depressed for so long under the influence of the gold standard, it's time we were having a little drunk.—E. O. Republican.

If a free coinage measure should pass congress, one man could amul it by one stroke of his pen. It would take two-thirds of our national legislative body to say that this one man could not interfere. The Gazette does not believe that any president is more intelligent than a majority of congress, and it thinks that the veto power is a dangerous prerogative. The Gazette has always contended that in this respect the constitution should be amended.

THE advocates of gold monometallism, with silver as token money, are constantly prating about the silver men wanting \$10 worth of silver made equal to \$20 in gold. Ten dollars in silver measured in what? Gold, of course. Measure the silver bullion in anything else and it will buy as much as it ever did. Gold is at a virtual premium of 100 per cent, and is at a parity with nothing except itself. Its unearned purchasing power does not belong to it; it has robbed the producers of our country; it has made debts more difficult to pay year by year; it is working confusion in every part of our broad land, and instead of doing double duty as a money of redemption it should be relegated to its old position along with silver, and a unit of measure established in a metal which investigation will prove has not varied to any great extent for the past century, measured in those things used to buy money.

Anyone having one, two and three-year old stores for sale should see Sam Kinsman at Heppner.

HOW ELLIS STANDS. Is for the Free Coinage of Silver 16 to 1—A Question of Stern Reality. From the Portland Sun. The Hon. W. R. Ellis, of Heppner, Oregon's junior congressman and representative from the second congressional district of this state, was yesterday registered at the Perkins. Mr. Ellis is looking the picture of health and his ruddy complexion gives evidence more than ever of his right to the title of the "handsome congressman." Though always a staunch friend of silver it was only recently and after having given the subject much study and thought that Mr. Ellis came to be an advocate of the coinage of the white metal at the ratio of 16 to 1.

"I was for a long time a believer in a sliding ratio," said Mr. Ellis, in speaking of the silver question in general and the phenomenal growth of the silver sentiment in the East, "but I have at last come to the conclusion that the United States can, with safety, engage in the coinage of silver at the fixed ratio of 16 to 1. It is astonishing to note the hold the silver sentiment has taken on the business men of the East. When I arrived at Washington anyone who advocated the free coinage of silver was looked upon as a curiosity or crank. Now it is different. The people are talking of the question in earnest, and a supporter of the white metal is given credit for having good reasons for his opinions. The financial problem is inviting the attention of the best brains and intellect of the country, and among the advocates of free coinage today are numbered some of the ablest and most successful financiers of the land. The silver sentiment is no longer a suspicion or rumor of idle talk; it is an actual fact—a stern reality."

To Mr. Ellis falls the pleasant duty of selecting the next cadet from this district to the United States naval academy at Annapolis. Examinations for the cadetship will be held in this city on the 23rd and 24th of this month, and Mr. Ellis will be at the Perkins on the morning of the 23rd to meet the applicants for this appointment and arrange for physical examination. If the applicant fails in passing a satisfactory medical examination it will be useless for him to take the competitive examinations.

Speaking of the general conditions of the eastern section of this state, Mr. Ellis says that the recent rains have done much good, and that good crops are expected. Cattle and sheep are in fine condition, with prospects for better prices for beef. Mr. Ellis has little hopes in the improvement of the wool market under the present tariff conditions.

Rheumatism Cured. Rheumatism is caused by lactic acid in the blood attacking the fibrous tissue of the joints. Keep your blood pure and healthy and you will not have rheumatism. Hood's Sarsaparilla gives the blood vitality and richness and tones the whole body, neutralizes the acidity of the blood and thus cures rheumatism.

Hood's Pills are the best after-dinner pills, assist digestion, cure headache.

REAPING THE REWARD.—Robin Fletcher, in charge of construction on the Blue Mountain Telephone and Telegraph Company's lines, is preparing to begin the extension work from Pilot Rock to Canyon City. W. D. Fletcher, manager of the company, left this morning to locate the route beyond Pilot Rock, and he will be absent a week. Upon his return Robin Fletcher will leave Pendleton with a force of ten or twelve men furnished with supplies and equipped to keep steadily at the work until completed. The entire summer will be put in, and if possible the line run through to Canyon City. The people of that region are anxious for the promised telephonic connection with Pendleton, and it is believed the company will do a good business.—East Oregonian. Pendleton is reaping the reward for its energy and progressiveness. Heppner is admirably situated to get all the trade from the interior, being near and having better roads thereto than that between the interior section and Pendleton. Yet Pendleton proposes to put in telephone connections between that place and Canyon City, via Long Creek and other important points, thus going one step further in the race for business. Heppner cannot afford to fall behind in public spirit and should at once secure telephonic connections with the main line, and if possible, extend same to Grant county. The Gazette is here to stay, like any other legitimate business, and fully appreciates that Heppner cannot afford to lose a large share of the benefits brought about by the extension of a few years ago of much money and by that of hard work. Let us wake up, push the Mitchell road matter to our satisfaction and in the meantime see that Heppner is not left in the matter of telephonic connections, both with the interior and outside world.

New Terror for French Convicts. Life in the French penal colony at New Caledonia has been pictured as no agreeable, both by reason of the climate as well as the leniency with which convicts have been treated, that transportation seems to have lost most of its terrors. Criminals do not conceal their preference for a long sentence in the beautiful Pacific island to a much shorter term with hard labor in one of the penitentiaries at home, and when perpetrating a mischief have sought as a rule to render their offense as serious as possible, so as to entail transportation if captured. It is with a view of putting an end to this sentiment that the French government has now decided to stop sending convicts to New Caledonia, and is making arrangements to deport them instead to saloons, the fever-stricken and most pestiferous of all districts of French Congo and in Africa.

Mrs. TERRY, of Rome, Italy, the mother of Mariah Crawford, is said to be the oldest American resident in the Eternal City. She was living there with her first husband, Thomas Crawford, the sculptor, when latter was sent to the Mariah Faen, in which she was known, his identity highly valued, agrees conspicuously.

RICH GOLD MINES. An Eldorado up on Snake River Where Gold is Picked up on the Bedrock. A correspondent writing to the Bedrock Democrat on April 26th says: From reliable information received by courier at 11:30 this a. m. we report the following: "Sturgill Bar" on Snake River has for more than a quarter of a century been an annual producer of gold in paying quantities, and the opinion has prevailed that some day some one would strike the coarse gold channel and take out gold by the bucket. The best of the pay dirt, where two hydraulics have been working day and night, was ninety feet deep. Last Wednesday a large cave took place at the upper end of the diggings where Capt. Ed. Robinson was in charge of the nozzle, and soon as the dirt had fallen was washed away, Capt. Robinson discovered that the rim of the bedrock rose up in front of him thirty feet high. As day was breaking he made an examination of the bedrock, and imagine his surprise as he saw at every point nuggets of all shapes and sizes. He called the other men and together they soon filled the two quarter pail and proceeded to the house of Messrs. Reed & Beazley, the owners. Careful examination has been made of the channels exposed and conservative estimates place the value of the coarse gold actually in sight at many thousand dollars, and the gold already picked up at \$14,500. Everybody in this section is now looking for high bars and coarse gold channels on Snake river, so you must keep your columns open ready to record the good news that is sure to follow the greatest placer gold find ever made in North America, equalling in value the celebrated McDonald find at old Bandigo, on the Yarra Yarra, Australia, in 1866.

TO CONSUMPTIVES. The undersigned having been restored to health by simple means, after suffering for several years with a severe lung affection, and that dread disease, Consumption, is anxious to make known to his fellow sufferers the means of cure. To those who desire it, he will cheerfully send, free of charge, a copy of the prescription used, which they will find a sure cure for Consumption, Asthma, Catarrh, Bronchitis and all throat and lung maladies. He hopes all sufferers will use his remedy as it is invaluable. Those desiring the prescription, which will cost them nothing, and may prove a blessing, will send address, Rev. EDWARD A. WILSON, Brooklyn, N. Y. Jun 1-w.

THEY NEVER TIRE. The Payallup Commerce, published by our friend, Col. Redington, who made the Gazette the best known paper in the Northwest, still takes an interest in his old publication. The following is from his valuable paper of the 3rd inst.:

"The very greatest interest in national finances and their relations to the best interests of the people is being taken in Oregon, and the matter is being thoroughly discussed pro and con by all the newspapers and Oregon has many bright and able papers. "One of the brightest and most able among them is the Heppner Gazette, published at the capital of Jack Morrow county. It is borrowed by the neighbors and read at all the ranches, and its every issue overflows with logical arguments in favor of silver. Its editors, the Patterson Bros., are enthusiastic silver advocates, and never tire in the cause."

SPECIAL NOTICE. All knowing themselves indebted to me, no matter how small the amount, are requested to call and settle by cash or note. P. B. MCGOWEN. THE BRAVES BACK.—Chief Peo, of the Umatillas, and Young Chief, of the Cayuses, accompanied by John Bean, interpreter, have gotten back to Pendleton. They interviewed the secretary of interior and think that the money due the Indians will hereafter be paid in cash instead of in building material. At least, they make the request. Both chiefs are opposed to the positions taken by Judge Bellingher and Peo, and think that Indians are subject to the agent and the court of Indian offenses.

IT GIVES FRESHNESS AND CLEARNESS TO THE BLOOD. CURES CONSTIPATION, INDIGESTION, DIZZINESS, ERUPTIONS OF THE SKIN, BEAUTIFIES COMPLEXION. KARL'S GLOVER ROOT. An agreeable Laxative and Blood Purifier. Sold by Druggists or sent by mail, 25c. Per Box, and 100c. Per Dozen. Beware of cheap imitations. KO NO. The Favorite Toilet Soap for the Face and Hair. For sale by T. W. Ayers, Jr., Druggist.

Notice of Unclaimed Warrants. NOTICE IS HEREBY GIVEN THAT THE following list of unclaimed warrants, issued prior to July 1st, 1895, are held for cancellation and will be cancelled if not presented for payment within sixty days from July 1st, 1895. By order of the county court. E. B. No. 107 second series issued to C. E. Baker, May 11, 1895. E. B. No. 108 second series issued to J. W. Ellis, May 11, 1895. E. B. IONE GROWING. The Progressive Little Center in the Lower Part of Morrow County Pushing to the Front. A representative of this paper visited Ione the latter part of last week and was very much surprised to see so much business transacted in that little town. During the afternoon a number of loads of wheat were delivered at the warehouses which were disposed of at prices ranging from 35 to 38 cents. The M. C. L. & T. Co. have shipped 363 carloads during the past season, and the past two weeks have averaged one car per day. The Ione Warehouse Co., which was recently incorporated and organized with T. J. Carle, Pres., J. M. Kees, Vice Pres., and Mat Halverson, Sec. and Treas., have now provided a large and roomy platform, and though this company has only been in business a few months, they have shipped more than 75 cars of grain.

In Joe Woolery's mercantile establishment our representative was surprised to find a full and complete line of general merchandise, well selected and neatly kept. Joe is a progressive businessman, and with the labor of the store and as manager of the M. C. L. & T. Co.'s warehouse, he is one of Ione's busiest men. In proof of his enterprise we beg to call attention to his display advertisement in another column.

Becoming convinced last fall that Ione was a good business center, Mat Halverson also opened up a mercantile establishment and though his stock is not large, yet Mat is doing business. Across the street from Woolery's store a small drug store has been opened by Joe Woolery and E. T. Perkins, with Mr. Perkins in charge. At present the stock is small but they expect soon to enlarge. Just above on the same side

Persons who are subject to attacks of bilious colic will be pleased to know that prompt relief may be had by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy. It acts quickly and can always be depended upon. In many cases the attack may be prevented by taking this remedy as soon as the first indication of the disease appears. 25 and 50 cent bottles for sale by Slocum-Johnson Drug Co.
