In the spring, the human body needs assistance to throw off the stagnation produced by winter diet. As the temperature rises under the growing heat of the sun's rays we feel tired, half sick and low in spirits, because the blood is sluggish and full of impurities. Dr. J. H. McLean's Strengthening Cordial and Blood Purifier is a reliable remedy ready to invigorate the body and give tone to the circulation. Price \$1 per bottle.

A Terrible Visitor.
Pain is always a terrible visitor, and often domiciles itself with one for life. This inflammation is preventable, in case of rheumatism, by a timely resort to Hostetter's Stomach Bitters, which checks the encroachments of this obstinate and dangerous malady at the outset. The term "dangerous" is used advisedly, for rheumatism is always liable to attack the vital organs and terminate life. No testimony is more conclusive and concurrent than that of physicians who testify to the excellent effect of the Bitters in this disease. Persons incur a swelling in rainy or snowy weather, and who are exposed to draughts, should use the Bitters as a preventive of ill effects. Malaria, dyspepsia, liver and kidney trouble, nervousness and debility are also among the ailments to which this popular medicine is adapted. For the infirmities, soreness and stiffness of the aged it is highly beneficial.

THE CADETSHIP.—Percy Olmstead, son of Judge Olmstead, is about to graduate at the Annapolis naval school, which leaves a vacancy in Oregon, which will be filled this month at Portland by competitive examination. The time for the same is set for May 23, under the supervision of Congressman Ellis who recommends the successful aspirant. Those who do not pass the physical examination need go no further, but should they get through the hands of the physicians successfully they will then be required to tell what they know of the common branches including arithmetic and algebra. Any young man between the ages of 14 and 20 years is eligible to compete for the place, and Morrow county should have some candidates.

SOME PERTINENT QUESTIONS.
Mr. Editor:
We would like to ask a few questions. Why is it that all ladies sitting for their pictures want to look young? We have known ladies, forty years old, to come into our gallery and sit for photos and after using our wrinkle exterminator on their negative, and giving them a rosebud mouth, knocking down their cheek bones and rounding off the square corners generally, we have known such ladies as the minute they fasten their eyes on their picture to exclaim: "Oh these forty-grays make me look too old!" And then just as strange we have known young men with just the opposite ambition who will remind us that they don't want to look too much like a gosling, and say: "Can't you make my mustache a little heavier?" "Oh yes, certainly," and after we use our magnifier, shade in a few wrinkles, raise their eye-brows and cheek bones and square up their features generally, yet they will some times complain of looking too young! In the language of Kaboka's philosophers we will exclaim: "Now these are facts. And since they are we are prepared to treat them accordingly, and have been working on a process by which we can turn the hands on the dial of the human face, either backward or forward, make the old look young, the young look old. Patent applied for. Don't all come at once. Yours truly, GILHOUSSEN BROS.

It allowed to remain the trouble will ultimately reach the kidneys and become dangerous to life. None should be taken to stay its progress on the appearance of the first symptoms. Dr. J. H. McLean's Liver and Kidney Balm is especially adapted for sufferers of this kind. Price \$1 per bottle.

THE CHRONOLOGICAL RECITATION OF EVENTS is of much interest to the student of history. At a glance he can see the dates of principal events, and saves much time and trouble.
For a similar reason a recapitulation of articles of merchandise is made so that the customer can find what he wants at low figures at E. J. Slocum's, without spending hours in "looking around." It saves time, and "time is money," besides the way-down reduction on prices of articles which all receive at his place.
