A plan for preserving the territory of the Netherlands will be frustrated if Wilhelmina dies. Her father, William III., was grand duke of Luxumbourg. When he died Luxumbourg passed un-der the sovereignty of Duke Adolphus, of the older branch of the Nassau family. Shortly after the king's death his daughter's hand was promised to Prince William, son of the ruler of Luxum-

This prospective marriage would have restored Luxumbourg to the Netherlands, but in the event of Wilhemina's early death Luxumbourg will become practically a part of the German empire and it will need all of the wisdom of Holland's statesmen to keep the whole kingdom from drifting that way also. To escape from such a fate the Dutch might again form a coalition with Belgium, but this would be an unpopular alliance, as no love is lost between the two countries on account of racial and religious differences, to which ancient jealousies may

In addition to these animals and birds were sacred bulls, crocodiles and beetles, the latter being especially revered on account of being considered a type of the sun. One species was dedicated to the sun, another to the moon and a third to Thoth or Hermes.

Many plants were also looked upon as sacred, the principal, as is well known, being the lotus. In this flower the Egyptians found an allusion to the rising of the sun from the ocean, from the fact that its blossoms are thrown above the surface of the water.
