

TURNING GRAY AND THREATENED WITH BALDNESS

The Danger is Averted by Using
AYER'S HAIR VIGOR

"Nearly forty years ago, after some weeks of sickness, my hair turned gray and began falling out so rapidly that I was threatened with immediate baldness. Hearing Ayer's Hair Vigor highly spoken of, I commenced using this prepara-

tion, and was so well satisfied with the result that I have never tried any other kind of dressing. It stopped the hair from falling out, stimulated a new growth of hair, and kept the scalp free from dandruff. Only an occasional application is now needed to keep my hair of good, natural color. I never hesitate to recommend any of Ayer's medicines to my friends."—Mrs. H. M. HAIGHT, Avoca, Neb.

Frank Day, who made the recent assault on Dr. Smith, of Pendleton, as published in the last issue of the Gazette, was placed under \$150 last Saturday to appear before Justice Parkes Monday to answer to the charge of assault with a dangerous weapon. Day made his appearance at the appointed hour and waived examination, when he was placed under \$250 bonds to appear before the grand jury.

Sometimes ago I was taken sick with a cramp in the stomach followed by diarrhoea. I took a couple of doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was immediately relieved. I consider it the best medicine in the market for all such complaints. I have sold the remedy to others and everyone who uses it speaks highly of it. J. W. Strickler, Valley Center, Cal. For sale by Slocum-Johnson Drug Co.

J. B. Manning informs the Gazette reporter that he recently saw a peculiar type of a snake with a head on each end of its body out on Rhes creek. The Gazette has heard of people seeing snakes with many heads, but never in as dry a country as the Rhes creek valley. So we give Mr. Manning's snake story for the consideration of our readers.

Sandy McWilliam, a cook at the Central hotel in Fossil, made an unsuccessful attempt at suicide last Saturday night, but was discovered early in the play and brought around all right. Sandy became enamored of a young woman, and when he found his affections were not returned, decided to take the suicide route for the other world.

Late last Tuesday night Clyde Saling came in for the doctor, giving the information that Milt Morgan's four-year-old girl had by mistake swallowed some carbolic acid. Medicine was at once sent out, and as nothing later has been heard we presume the boy is getting along all right, and will soon have entirely recovered.

The Ennis has a stock of bicycle repairs and will fix your wheel up at reasonable rates. It is his intention to make a specialty in this line, and as the number of wheels is rapidly increasing, this will certainly be pleasing news to those who are so fortunate as to own a bike.

Not one complaint has ever been made by those using Ayer's Sarsaparilla according to directions. Furthermore, we have yet to learn of a case in which it has failed to afford benefit. So say hundreds of druggists all over the country. Has cured others, will cure you.

The Heppner train was four hours late last Wednesday night. The delay was partially caused by the caboose breaking loose from the train a few miles above Arlington, and not being discovered for a long time afterward.

You cannot say that you have tried everything for your rheumatism, until you have taken Ayer's Pills. Hundreds have been cured of this complaint by the use of these Pills alone. They were admitted on exhibition at the World's Fair as a standard cathartic.

J. H. Lowrey, of Pendleton, the new prosecuting attorney for this judicial district is in the city, having arrived last evening. Mr. Lowrey expects to remain until tomorrow afternoon.

Such a Condition Certainly in Existence—Prominent Member Arraigned by Church, and Minister Bound Over to the Grand Jury.

Serious trouble sometimes arises in church circles as well as in business and political organizations, and let the members say what they may or do what they can, quietude and harmony cannot be restored. No, even Balm of Gilead on such occasions fails to oint or quiet the turbulent waters. The good people then usually assemble themselves together and decide by unanimous vote that "the devil is in the church," and that harmony can never be hoped for until he is located and forcibly ejected from their midst. Usually but little time is required for this action, and then peace, sweet peace, once more reigns supreme. The above statement was made to a Gazette reporter by one of Heppner's faithful church members, and while the pencil pusher had often heard about this "devil in the church" proposition, yet, just what it meant the writer was unable to determine until the above explanation was made. But now with this interpretation fresh in mind, and with at least a partial knowledge of the movements in one element of Heppner's church circles, we believe our readers will quite agree with the writer when we state that if the "devil is not in the church," he is certainly located somewhere in Heppner, though just who it is, where it is or what it is, we are unable to say. But should not some movement be made, some concerted force be brought to bear that will result in this peculiar individual's expulsion? Yes, let all join forces and stand shoulder to shoulder, in this fight for a common hope, a common aspiration and a common termination.

To be more specific, serious trouble has arisen in the M. E. church of this city, and as it has grown to be more than mere strife, and is no longer confined to the church circle, it assumes the form of news, so the Gazette gives its readers the benefit of it. The beginning of this trouble, this breach, this gulf, dates back for some time, and the trouble has certainly enlarged with time while every effort to bridge the gulf has only resulted in its being widened. Charges and counter charges have been preferred. One element of members against another element led by the minister, and minister and element against element. Thus the fight has continued from day to day during the past few weeks, until this week the feeling ran up to fever heat. Sworn statements and petitions were being carefully prepared with the intention of having Rev. J. M. Denison dismissed as a member of conference which meets at Spokane next month, while the opposition proffered statements and made charges against C. E. Fell, one of the members, with the hope of having him dismissed from church, which trial is in progress today. As a result of these charges, or statements made in connection with them, T. E. Fell entered complaint last Wednesday against Rev. Denison, charging him with "attempting coercion by threats." The case was set for 3 o'clock that afternoon, when the defense waived examination, but the defendant was bound over to the testimony of the state to appear before the next grand jury which meets the first week in September. Rev. Denison's bonds, which were placed at \$200, were promptly furnished. So great is the interest and excitement that has been worked up by this trouble that all now await the action of the grand jury next week and church trial now in progress.

None But Ayer's at the World's Fair. Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed an exhibit at the World's Fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the World's Fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."

Different You Know. An exchange says that an editor will go to some merchants and ask them for an ad, when they will remark that it does not pay; that no one reads his paper. Some might shortly after let the same man be caught kissing his neighbor's wife, or trying to keep a lamp post perpendicular, and if the printing office is in the garret of a seventeen story building he will climb to the top to beg the editor to keep quiet—don't publish it in the paper, you know.

John Shaw came up on Monday night's train for a few days' stay in Heppner. This is John's first visit to Heppner for some time past. During his absence he has been engaged in buying stock for Portland, Tacoma and Chicago markets.

W. F. Courtney, of Tacoma, one of the prominent stock buyers on this coast, accompanied by his son, J. G. Courtney, of Walls Walls, arrived last evening to make arrangements for a large shipment of stock from this section. Mr. Courtney has about 3,000 head of cattle contracted over to the Prineville country, from which he hopes to get at least 2,000 for the present shipment. The shipment, which will be made from either this point or Pendleton, goes to Frye Brothers Co., who conduct a butchering business in Portland, Tacoma and Seattle. Mr. Courtney and son will probably leave today for Prineville.

George Hall, who has been confined to jail for some time past, gave bonds last week and is now enjoying fresh air once more. Judge Freedland reduced the bond from \$500 to \$200, which was secured by the prisoner. This again leaves the county jail without an inmate.

originated by us. All successful speculators operate on a regular system. It is a well-known fact that there are thousands of men in all parts of the United States who, by systematic trading through Chicago brokers, make large amounts every year, ranging from \$10,000 to \$100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.
